The Challenge Of Religious Studies:

The Challenge of Religious Studies Kenneth Gordon Howkins (G.),1972-01-01 The Challenge of Religious Studies Kenneth G. Howkins,1995-05-01 *Religious Studies in Atlantic Canada* Paul W.R. Bowlby,2006-01-01 What is Religious Studies and what is its future in Atlantic Canada How have universities founded by Roman Catholic and Protestant denominations and public universities differed as they approached the study of religious life and traditions Religious Studies in Atlantic Canada surveys the history and place of the study of religion within Canadian universities Following a historical introduction to the public and denominationally founded universities in the Atlantic region the book situates the departments of religious studies in relation to the distinctive characteristics of the various universities in the region focusing on curriculum research and teaching Bowlby examines the current strengths of the religious studies departments in Atlantic Canada and where those departments are fragile i e where departments have thrived because of careful long term planning as well as where crises of retirements have radically affected the size and strength of departments In conclusion Bowlby suggests strategies for future survival and growth in the field of religious studies Religious Studies in Atlantic Canada is the last of a six part series on the state of the art of religious studies in Canada a unique account of the regional differences in the development of religious studies in Canada Written for anyone interested in the teaching of religion as well as the specialist the book provides an introduction and an overview of religious studies curricula faculty research and teaching areas at the region s universities **Peacemaking and the Challenge of Violence in World Religions** Irfan A. Omar,Michael K. Duffey,2015-06-22 Written by top practitioner scholars who bring a critical yet empathetic eye to the topic this textbook provides a comprehensive look at peace and violence in seven world religions Offers a clear and systematic narrative with coverage of Buddhism Christianity Confucianism Hinduism Islam Judaism and Native American religions Introduces a different religion and its sacred texts in each chapter discusses ideas of peace war nonviolence and permissible violence recounts historical responses to violence and highlights individuals within the tradition working toward peace and justice Examines concepts within their religious context for a better understanding of the values motivations and ethics involved Includes student friendly pedagogical features such as enriching end of chapter critiques by practitioners of other traditions definitions of key terms discussion questions and further reading sections Comparative Theology and the Problem of Religious Rivalry Hugh Nicholson,2011-04-08 In theological discourse argues Hugh Nicholson the political goes all the way down One never reaches a bedrock level of politically neutral religious facts because all theological discourse even the most sublime edifying and spiritual is shot through with polemical elements Liberal theologies from the Christian fulfillment theology of the nineteenth century to the pluralist theology of the twentieth have assumed that religious writings attain spiritual truth and sublimity despite any polemical elements they might contain Through his analysis and comparison of the Christian mystical theologian Meister Eckhart and his Hindu counterpart aSkara Nicholson arrives at a very different

conclusion Polemical elements may in fact constitute the creative source of the expressive power of religious discourses Wayne Proudfoot has argued that mystical discourses embody a set of rules that repel any determinate understanding of the ineffable object or experience they purport to describe In Comparative Theology and the Problem of Religious Rivalry Nicholson suggests that this principle of negation is connected perhaps through a process of abstraction and sublimation with the need to distinguish oneself from one's intra and/or inter religious adversaries Nicholson proposes a new model of comparative theology that recognizes and confronts one of the most urgent cultural and political issues of our time namely the return of the political in the form of anti secular and fundamentalist movements around the world This model acknowledges the ineradicable nature of an oppositional dimension of religious discourse while honoring and even advancing the liberal project of curtailing intolerance and prejudice in the sphere of religion

The Challenge of Practical Theology
 Stephen Pattison, 2007-01-15 This engaging collection of essays showcases the broad sweep of his scholarly and personal interests and experiences and is a key instalment in his prolific literary output which will be of interest well beyond the confines of academic theology The challenging and sometimes controversial ideas contained in this book represent a way forward for practical theology not because readers will necessarily agree with them but because of their potential for stimulating lively debate The lucidity and accessibility of Pattison's style and the clear passion he has for his subject mean that these ideas are destined to penetrate non theological and non academic circles making this book a fitting embodiment of the public theology which its author seeks to promote International Journal of Public Theology Regardless of our beliefs the meaning of life becomes more profound during an episode of suffering Pattison has found a paradigm that allows practitioners to integrate personal intellectual and theological perceptions hence the term practical theology He critically explores the use of terms such as mission vision and hope that have been transferred from religious parlance into the world of health service management Managers wanting change sell this message with evangelistic fervour to convert staff and bring them on board Nursing Standard This collection of key writings by Stephen Pattison examines the implicit and explicit beliefs and value systems that guide practice in both religious and non religious organisations Pattison draws on experience from his work in many different settings including community service volunteering working as a psychiatric hospital chaplain NHS management and lecturing on pastoral studies to promote a personal practical political and popular approach to theology which stresses the importance of responsibility and contemporaneity Broadly themed sections address issues of ethics and value in practice organisation and management Christian thought and practice theology and the Christian tradition and pastoral and practical theology studies The author takes a critical stance towards traditional religious thought and practice and argues the need for reform to make theology more generally accessible and relevant This volume will be inspirational reading for among others care workers clergy managers nurses counsellors and doctors as well as students and those involved in the academic study of theology

Religious Studies, Theology, and the University Linell E. Cady, Delwin

Brown,2002-10-10 Explores the relationship between religious studies and theology and the place of each in the modern secular university **The Ideology of Religious Studies** Timothy Fitzgerald,2003-10-16 In recent years there has been an intensifying debate within the religious studies community about the validity of religion as an analytical category In this book Fitzgerald sides with those who argue that the concept of religion itself should be abandoned On the basis of his own research in India and Japan and through a detailed analysis of the use of religion in a wide range of scholarly texts the author maintains that the comparative study of religion is really a form of liberal ecumenical theology By pretending to be a science religion significantly distorts socio cultural analysis He suggest however that religious studies can be re represented in a way which opens up new and productive theoretical connections with anthropology and cultural and literary studies The Cambridge Companion to Religious Studies Robert A. Orsi,2012 Informative and provocative this book introduces readers to debates in the contemporary study of religion and suggests future research possibilities **Religious Studies** Gregory D. Alles,2010-03-01 Drawing on recent developments in the comparative study of religion this book explores the trends of the past sixty years from a global perspective Each of the ten chapters covers the study of religion in a different region of the world from Europe and the Americas to Asia and the Far East Topics covered include local background to the study of religions formation of religious studies in the region important thinkers and writings institutions interregional diversity and interregional connections emerging issues This book is a major contribution to the field of religious studies and a valuable reference for scholars researchers and graduate students Religious Studies and Theology Helen Katharine Bond,Helen R. Bond,Seth D. Kunin,Francesca Murphy,2003-05 Though they are intimately related most textbooks cover either religious studies or theology leaving students lacking in exposure to one or the other of these associated disciplines Religious Studies and Theology An Introduction offers a comprehensive introduction to both subjects in one inclusive volume The text is written in an accessible style and is meant for beginning students and all those interested in learning about these fields It is divided into six sections including Theories of Religion World Religions Biblical Studies Practical Theology Systematic Theology and The Philosophy of Religion The volume also contains a guide for further reading as well as boxes to explain key terms Offering thorough and cutting edge coverage of all aspects of these fields it is the only introduction to the whole of religious studies and theology in a single volume format Contributors Douglas J Davies Seth D Kunin Hugh Goddard Martin A Mills Matthew Wood F Michael Perko Paul Ellingworth Ken Aitken Helen K Bond John Swinton Henry R Sefton Francesca Aran Murphy and Derek Cross Religious Studies, Theology, and the University Linell E. Cady,Delwin Brown,2002-10-10 Explores the relationship between religious studies and theology and the place of each in the modern secular university

Theology at the Crossroads of University, Church and Society Lieven Boeve,2016-08-25 Lieven Boeve examines the place of theology in the university the church and society He emphasizes that theology certainly belongs to all of these three domains as it belongs to the nature of theology to involve itself in all three spheres especially at the crossroads where they

overlap Boeve discusses the recent document Theology Today from the International Theological Commission which circumscribes theology's place and task in the Catholic Church Boeve discusses how the difficult relation between theology and philosophy is typical for a Church which has difficulty with the dialogue in today's world as well as examines the relation between theology and religious studies Going further Boeve offers a reflection on Catholic identity today focusing more specifically on education He presents four models for considering the identity of Catholic schools in the light of the changed society and argues that dialogue in a context of plurality and difference can lead to new fruitful ways to shape even the Catholic identity Boeve concludes his discussion with a short assessment of Pope Benedict's papacy and emphasizes the need for the Catholic Church to convert itself before it can call the world to do the same The Problem of Evil and the Power of God Atle Ottesen Søvik, 2011-05-23 This book discusses four different answers to the problem of evil provided by Richard Swinburne Keith Ward David Griffin and Johan Hygen The author suggests several improvements to these answers and concludes that there is a coherent answer to the problem of evil D.Z. Phillips' Contemplative Philosophy of Religion Assoc Prof Andy F Sanders, 2013-05-28 This collection presents a critical discussion and exploration of the late D Z Phillips contemplative approach in the philosophy of religion What are the main characteristics of this ground breaking approach which is inspired by thinkers like Kierkegaard and Wittgenstein and meant as a serious critical alternative to the mainstream way of doing philosophy of religion What is its aim if it is deliberately avoiding apology and defence of faith How does Phillips approach relate to systematic historical and empirical theology and is it really as neutral as he claims it to be Or is he perhaps a certain kind of theologian What are the implications of his contemplative philosophy for central issues of religious life today such as petitionary prayer the hope of eternal life and radical religious diversity The essays of six distinguished scholars from five different nations critically and sympathetically address these questions and are responded to by Phillips in essays of his own written briefly before his sudden death in July 2006 Defeating the Evil-God Challenge Jack Symes, 2024-05-16 The evil god challenge is one of the most popular topics in contemporary philosophy of religion In this landmark text Jack Symes offers the most detailed examination of the challenge to date Exploring the nature of god through the leading schools of philosophical theology Symes argues that it is significantly more reasonable to attribute goodness to god than evil Drawing from a breadth of ground breaking material in metaphysics ethics aesthetics and epistemology Symes claims to defeat the evil god challenge on behalf of traditional theism Is it any more reasonable to believe in a good god than an evil god Not according to proponents of the evil god challenge After all the world contains a significant amount of good and evil for which either god could be held responsible However if belief in both gods is equally as reasonable then religious believers are unjustified in favouring one hypothesis over the other Therefore in order to defend their faith theists must respond to the evil god challenge the question of what justifies belief in good god over evil god **Interreligious Comparisons in Religious Studies and Theology** Perry Schmidt-Leukel, Andreas Nehring, 2016-07-14 Can religions be

compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative perspective Interreligious Comparisons in Religious Studies and Theology questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced Theology and Religious Studies in Higher Education D.L. Bird, Simon G. Smith, 2009-01-22 Theology and religious studies co exist in the majority of departments in higher education institutions within the UK yet there has been very little debate or discussion on how these two disciplines relate to one another in this context and on a more general level This new collection of essays aims to redress the balance and to add to fruitful discussion in this area Including essays by some of today s leading academics on the sometimes contentious relationship between religious studies or the study of religions and theology this volume is international in scope with contributions from scholars from the UK USA South Africa Netherlands Sweden and Iran Many of the essays offer a contextualised account of the evolving relationship between the disciplines The contributors address such issues as the place of theology within today s universities the problem of clashing methodologies in theology and religious studies the possibility for a theological religious studies approaching the study of religions without theology interdisciplinary approaches for bridging the theology religious studies divide and the place of biblical studies in the theology religious studies debate Religions and Religions Panikkar, Raimon , 2015-05-31 *A Student's Guide to A2 Religious Studies for the OCR Specification* Michael Wilcockson, 2004-09
