ABSTRACT

Noting that most educators would agree that whole language no longer looks the same, this book collects eight articles written by whole language advocates and practitioners from New Zealand, Australia, and the United States that focus on the changes, growth, and development that have occurred in whole language both in philosophy and practice. They emphasize that whole language continues to have an important place in the literacy education of children. After an introduction by the editors, articles in the book are: "Whole Language: Are We Critical Enough?" (Beth Berghoff, Jerry Harste, and Chris Leland); "This Is Literacy: Three Challenges for Teachers of Reading and Writing" (David Bloome); "Defining Whole Language in a Postmodern Age" (Lorraine Wilson); "Towards a Personal Theory of Whole Language: A Teacher-Researcher Writer Reflects" (Don Fox); "Teaching Factual Writing: Purpose and Structure" (David Wray and Maureen Lewis); "They Don't Teach Spelling Anymore--or Do They?" (Christine Bouffler); "Really? Writing in School: Generic Practice?" (Jo-Anne Reid); and "Whole Language and Its Critics: A New Zealand Perspective" (John Smith). (RS)

The Changing Face Of Whole Language:

The Changing Face of Whole Language Jan Turbill, 1997 **The Changing Face of Whole Language**, 1998 There are some who will argue that whole language was a fad of the 1980s The articles in this volume form a response to this claim They demonstrate that whole language is alive and healthy albeit a little worse for wear from the effects of uninformed and often deliberately malicious naming or labelling and a lack of understanding of the changes and change processes that whole language philosophy and its related pedagogy have experienced over the years **The Changing Faces of Ireland** Merike Darmody, Naomi Tyrrell, Steve Song, 2011-10-22 Before the economic boom of the 1990s Ireland was known as a nation of emigrants The past fifteen years however have seen the transformation of Ireland from a country of net emigration to one of net immigration on a scale and at a pace unprecedented in comparative context As a result Irish society has become more diverse in terms of nationality language ethnicity and religious affiliation and these changes are now clearly reflected in the composition of both primary and secondary schools presenting these with challenges as well as opportunities Despite the increased number of ethnically diverse immigrant children and young people in the Ireland currently there is a paucity of information about aspects of their lives in Ireland This book is aimed at contributing to this gap in knowledge This edited collection will be of interest to researchers in the fields of migration studies childhood studies education studies human geography sociology applied social studies social work health studies and psychology It will also be a useful resource to educators social workers youth workers and community members working with or preparing to work with children with immigrant and ethnic minority backgrounds in Ireland *The Changing Face of the "Native Speaker"* Nikolay Slavkov, Sílvia Melo-Pfeifer, Nadja Kerschhofer-Puhalo, 2021-11-22 The notion of the native speaker and its undertones of ultimate language competence language ownership and social status has been problematized by various researchers arguing that the ensuing monolingual norms and assumptions are flawed or inequitable in a global super diverse world However such norms are still ubiquitous in educational institutional and social settings in political structures and in research paradigms This collection offers voices from various contexts and corners of the world and further challenges the native speaker construct adopting poststructuralist and postcolonial perspectives It includes conceptual methodological educational and practice oriented contributions Topics span language minorities intercomprehension plurilingualism and pluriculturalism translanguaging teacher education new speakers language background profiling heritage languages and learner identity among others Collectively the authors paint the portrait of the changing face of the native speaker while also strengthening a new global agenda in multilingualism and social justice These diverse and interconnected contributions are meant to inspire researchers university students educators policy makers and beyond **The Changing Faces of Citizenship** Joyce Marie Mushaben, 2008-10-01 In contrast to most migration studies that focus on specific foreigner groups in Germany this study simultaneously compares and contrasts the legal political social and economic opportunity structures facing diverse

categories of the ethnic minorities who have settled in the country since the 1950s It reveals the contradictory and usually self defeating nature of German policies intended to keep migrants out allegedly in order to preserve a German Leitkultur with which very few of its own citizens still identify The main barriers to effective integration and socioeconomic revitalization in general sooner lie in the country s obsolete labor market regulations and bureaucratic procedures Drawing on local case studies personal interviews and national surveys the author describes the human faces behind official citizenship and integration practices in Germany and in doing so demonstrates that average citizens are much more multi cultural than they realize The Changing Face of England Anthony Keeling Collett,1926 Systemic Functional Linguistics and Critical Discourse Analysis Lynne Young,Claire Harrison,2004-04-22 Any piece of primary research ought to be preceded by a systematic review The key advantage of a systematic review over the traditional narrative review is its ability to identify all the available evidence in a systematic and reliable manner This book describes a the key steps to undertaking a systematic review and b the process of undertaking a meta analysis The book includes step by step examples of how to design data extraction forms search strategies and combine in a meta analysis The Changing Face of CALL P.N.D.
