Soldier of Rome: The Legionary James Mace, 2008-12-06 Rome's Vengeance In the year A D 9 three Roman Legions under Quintilius Varus were betrayed by the Germanic war chief Arminius and destroyed in the forest known as Teutoburger Wald Six years later Rome is finally ready to unleash Her vengeance on the

barbarians The Emperor Tiberius has sent his adopted son Germanicus Caesar into Germania with an army of forty thousand legionaries The come not on a mission of conquest but one of annihilation With them is a young legionary named Artorius For him the war is a personal vendetta a chance to avenge his brother who was killed in Teutoburger Wald In Germania Arminius knows the Romans are coming He realizes that the only way to fight the legions is through deceit cunning and plenty of well placed brute force In truth he is leery of Germanicus knowing that he was trained to be a master of war by the Emperor himself The entire Roman Empire held its collective breath as Germanicus and Arminius faced each other in what would become the most brutal and savage campaign the world had seen in a generation a campaign that could only end in a holocaust of fire and blood *Soldier of Rome* James M. Mace,2008-02-12 It has been three years since the wars against Arminius and the Cherusci Gaius Silius Legate of the Twentieth Legion is concerned that the barbarians though shattered by the war may be stirring once again He also seeks to confirm the rumors regarding Arminius death What Silius does not realize is that there is a new threat to the Empire but it does not come from beyond the frontier it is coming from within where a disenchanted nobleman looks to sow the seeds of rebellion in Gaul Legionary Artorius has greatly matured during his five years in the legions He has become stronger in mind his body growing even more powerful Like the rest of the Legion he is unaware of the shadow growing well within the Empire s borders where a disaffected nobleman seeks to betray the Emperor Tiberius A shadow looms one that looks to envelope the province of Gaul as well as the Rhine legions The year is A D 20 **Roman Antiquities, Or An Account of the Manners and Customs of the Romans** Alexander Adam,1839

[Roman Legionary AD 69-161](#) Ross Cowan,2013-04-20 Between AD 69 and 161 the composition of the Roman legions was transformed Italians were almost entirely replaced by provincial recruits men for whom Latin was at best a second language and yet the Roman-ness of these Germans Pannonians Spaniards Africans and Syrians fostered in isolated fortresses on the frontiers was incredibly strong They were highly competitive jealous of their honour and driven by the need to maintain and enhance their reputations for *virtus* that is manly courage and excellence The warfare of the period from the huge legion versus legion confrontations in the Civil War of AD 69 through the campaigns of conquest in Germany Dacia and Britain to the defence of the frontiers of Africa and Cappadocia and the savage quelling of internal revolts gave ample opportunity for *virtus* enhancing activity The classic battle formation that had baffled Pyrrhus and conquered Hannibal was revived Heroic centurions continued to lead from the front and common legionaries vied with them in displays of valour The legions of the era may have been provincial but they were definitely Roman in organisation and ethos
