D. Tracey-White, 1991-01-01 Wholesale marketing systems for fruit vegetables and other fresh foodstuffs such as livestock and fish are often inadequate They neither maximize benefits to producers nor to consumers This manual has been compiled to provide a systematic methodology based on the sequence of steps normally adopted in the development process The manual should be of practical value both to senior professionals and to technicians in undertaking marketing and engineering surveys in the preparation of feasibility studies and master plans and in formulating proposals for the provision of physical facilities *Wholesale Market Management* Bob Densley, Eduardo Sánchez-Monjo, Food and Agriculture Organization of the United Nations, 1999-01-01 In most countries wholesale markets remain an essential link between production and consumption That they should be well managed is essential as higher marketing costs lead to lower prices for producers and higher prices charged to consumers Inefficient markets also increase the risk of problems of hygiene environmental degradation and transport congestion among others With rapid urban growth wholesale markets will continue to channel a wide variety of produce to urban consumers despite the development of new distribution techniques such as direct supply from farmers to supermarkets This manual analyses the political legal economic and commercial aspects of the management and operations of wholesale markets The European experience in Spain France Germany Britain and Italy is presented as well as in Japan Hong Kong the USA South Africa Australia and Argentina

Richter,2019-03-31 Tourism the world s largest industry has created a variety of complex political problems particularly in those countries where the primary attraction of tourism is its potential for accelerating development The political dimensions that have encouraged tourism in the People s Republic of China the Philippines Thailand India Pakistan Bangladesh Sri Lanka the Maldives Nepal and Bhutan are examined in Linda K Richter s study which is based on more than 250 interviews with government officials travel industry representatives and media officials Richter concentrates on the reasons for using tourism to advance government policy objectives and on the many ways political and economic problems can frustrate tourism s contribution to national development All too often after the expensive infrastructure is developed luxury goods imported and lavish promotional efforts expended nations are left disillusioned with the economic promise of tourism Disappointing results are often complicated by a preoccupation with the lure of tourism and an underestimation of the industry s needs and of the political pressures of and on government officials Encouraging an awareness of the political aspects of tourism the author advocates greater involvement by social and political scientists in monitoring tourism policy as well as a restructuring and redesigning of programs in this largest sector of international trade Credit Guarantees Michael Gudger,Food and Agriculture Organization of the United Nations,1998-01-01 The problem of collateral is a daily issue for lenders and causes much debate in the development finance community Given the difficulties experienced in arranging traditional forms of loan security such as land or chattel mortgages various collateral substitutes have been proposed Among the substitutes for traditional collateral is the loan guarantee Guarantee systems for loans have been proposed planned and implemented in various countries The assumption made by proponents of such a service is that the guarantee organization is either better informed about the risk of the loan than the lender or it is better structured financially to be able to manage the risk Despite the apparent attractiveness of a loan guarantee the empirical evidence available gives little encouragement Nevertheless interest in guarantees continues Civilizing Chengdu Kristin Stapleton,2020-03-23 This work examines the history of urban
