The Chinese Emperor:

An Illustrated Life of Christ Presented to the Chinese Emperor Nicolas Standaert, 2007 A renewed attention to visual culture is one of the recent developments in the study of cultural contacts between China and Europe in the seventeenth and eighteenth centuries The subject of this book is the illustrated Life of Christ presented to the Chinese emperor in 1640 by the Jesuit missionary Johann Adam Schall von Bell S J 1592 1666 The origin of the work is a small parchment booklet with coloured miniature paintings based on a wide variety of prints by well known European engravers e g H Goltzius J Stradanus It was compiled in Munich in 1617 and a Chinese version with the title Jincheng shuxiang was published in Beijing more than twenty years later in a nicely illustrated edition An Illustrated Life of Christ is a fascinating analysis of one of the earliest artistic encounters between Europe and China Standaert has once again demonstrated his scholarly foresight workmanship and authority John T P Lai in Journal of the History of Christianity in Modern China This book is composed of two parts Part I traces the complex history of production of Jincheng shuxiang from its European origin to its Chinese reception It also analyses the illustrations and the text Part II contains the reproduction of the Chinese text and 48 illustrations the reproduction of the identified original European prints and a translation of the Chinese text It is hoped that the wider diffusion of this rare primary source which is now reprinted for the first time since the seventeenth century will further stimulate the study of visual culture in Sino Western relations The book will be of interest to a broad range of scholars from art historians of China and Europe to scholars interested in print history and theologians **Chinese**

Translating National Identities Between China and the West Xinnian Zheng, 2025-05-30 This book explores the discursive construction of national identities in diplomatic political discourse focusing on translation's pivotal role. It examines diplomatic exchanges between China and the West from 1792 to 1867, a period marked by China's national identity crisis. By combining Descriptive Translation Studies (DTS) with Discourse Historical Approach (DHA), the book uncovers how translation shaped the national identities of both China and the West during a time of intercultural conflict and change. Through the analysis of 29 authentic historical documents, the book offers a groundbreaking analysis of how translators at the Qing court initially portrayed China as superior and the West as inferior. However, as China's global position shifted, so did its translation strategies, gradually transforming China's national identity to be seen as equal to the West. During diplomatic interactions, translators played a crucial role in shaping perceptions of both Chinese and Western identities, thereby influencing international relations. Essential for scholars and students of translation studies, political discourse, and Chinese history, this book goes beyond traditional analysis, offering a new perspective on the intricate relationship between translation, power, and identity. Its blend of qualitative and quantitative methods provides a comprehensive view of East-West relations during a pivotal period in world history. *Following the Steps of Matteo Ricci to China* Xiping Zhang, 2006

Institutions and Chinese Economic Development Li Tan, 2021-11-10 China's rise as an economic power has posed some challenging questions: how did China achieve GDP growth that was even faster than the Four Asian Tigers? Is the Chinese model superior? Why hasn't the rapid economic growth led to democracy in the country as many observers expected? And can China sustain its rapid economic growth with its existing social system? *Institutions and Chinese Economic Development: A Comparative Historical Approach* explores these questions by studying the historical relationship between institutions and economic development in China, drawing comparisons with England, Japan, and other Asian economies as appropriate. The investigation focuses on several junctures in China's economic development: the starting point of the divergence between China and the West, the externally provoked industrial development in the late 19th century, and the contemporary Chinese Miracle. The analysis foregrounds the role played by Chinese institutions and examines their effects on both the country's failure to industrialize in the past and its economic achievements in recent time. The book also asks whether, without reform to the existing state institutions, China might still be subject to the historical dynastic cycles today despite its recent economic success. This work is of great interest to students and scholars of the Chinese economy, economic history, and institutional economics, as well as comparative history and Chinese studies more broadly. *A History of China* Wolfram Eberhard, 1977-01-01 Modern research has not only demonstrated that all these accounts are inventions of a much later period but has also shown why such narratives were composed. The older historical sources make no mention of any rulers before 2200 B.C., no mention even of their names. **The Early Chinese Empires** Mark Edward Lewis, 2010-10-30 In 221 B.C.
