The Christ And The Eucharistic World:

The Risen Christ and the Eucharistic World Gustave Martelet, 1976 *The Eucharistic Communion and the World* John D. Zizioulas, 2011-06-16 A collection of writings on the Eucharist by one of the most important theological thinkers of our time It explores the biblical dimensions and eschatological foundation of the Eucharist the celebration of the Eucharist by the Church and the ethos of the Eucharistic community **The Risen Christ and the Eucharistic World** Gustave Martelet, 1976

Wedding Feast of the Lamb Roch A. Kereszty, 2004 In this deeply contemplative and meditative study Father Kereszty first places the Eucharist in the universal context of world religions and shows how the Eucharist is God's response to the universal human quest for the perfect sacrifice of thanksgiving expiation and communion Father Kereszty discusses not only the explicit eucharistic texts of the New Testament but demonstrates the role and meaning of the Eucharist within each Gospel within the theology of Paul the letter to the Hebrews and the book of Revelation He highlights forgotten texts and recovers surprising insights from the Fathers that show the link between the Eucharist and mystical experience the presence of all the mysteries of Christ in particular his death Resurrection and his coming in glory in the eucharistic celebration He then carries the *lex orandi lex credendi* adage to its logical conclusion the liturgical celebration provides the content and the organizing principle for the systematic presentation **The Eucharist in the Life of the**

Adoration to Evangelization Alcuin Reid, 2012-06-07 *The Eucharist and World Hunger* Izunna Okonkwo, 2011-12-21 Hunger is a menace in different parts of the globe It has more unnatural than natural causes Though efforts have been made towards alleviating its causes and consequences more actions still need to be taken for its genuine alleviation and eventual eradication in the world For Joseph Grassi painful hunger is a daily occurrence that must be countered by ongoing effective programs that enter into the lives of every Christian Such position not only recognises the frequency and excruciating nature of hunger but also suggests that Christians and other religious groups have a very important role to play in order to eradicate hunger and its devastating effects This book explores the nuances of hunger its causes dimensions and approaches as well as its connection to the Eucharist It argues that hunger can be eradicated and that the Eucharist stands out as a veritable model

Taste and See J.W. Olson, 2023-09-25 J W Olson argues that recent Christian theologies of divine revelation though often centered on the irreducibility of the incarnation have not taken incarnality sufficiently into account as the mechanism for the knowledge of God in Christ Addressing this problem within a secular context in which the viability of religious truth is under increased scrutiny Olson engages with the phenomenology of Martin Heidegger to suggest that Christian language and belief

are shaped at the precognitive level of embodied involvement long before they ever take mental conceptual form. He then offers an original interpretation of the Eucharist as the material epicenter of Christian epistemology. In the sacrament, Christians are swept up into a dynamic world that reveals itself as the very person of Jesus Christ so that Christians come to know Christ most fundamentally through the movements of the body. Recasting the parameters for identifying Christ's sacramental presence, Olson reiterates the Christian focus on the incarnation as not just the medium of God's self-revelation but as the very content of Christian faith. Christ is known in act and so God is revealed where Christ lives in us.

The Eucharist in Modern Philosophy Xavier Tilliette, 2022-12-27. The Eucharist in Modern Philosophy is one of the last books written by the renowned Jesuit philosopher Xavier Tilliette (1921-2018) and the first to be translated into English. Jonathan Martin Ciraulo, the translator, also provides an introduction to the thought of Tilliette and the content of this book, while Cyril O'Regan provides the foreword, noting the particular intellectual characteristics of Tilliette and his analysis of eucharistic philosophies. In addition to being known as one of the foremost experts on the German Idealist Friedrich Schelling, Tilliette wrote voluminously on the relationship between modern philosophy and theology, particularly concerning the way in which Christology is central to the development of modern philosophy. In this volume, he extends that project to look at how various philosophers such as Descartes, Leibniz, Hegel, Blondel, and Marion, as well as poets and mystics such as de Chardin, Simone Weil, and Paul Claudel, thought extensively about the question of the Eucharist. The result is an enormous diversity of Eucharistic thought, from Descartes' attempt to justify transubstantiation in light of his philosophical revolution to Feuerbach's supposed exposure of the contradiction inherent to sacramentality, to Antonio Rosmini's eucharistic piety and speculation, to Maurice Blondel's recovery and expansion of Leibniz's notion of the substantial bond. Tilliette shows that this philosophical conversation about the Eucharist is a living tradition, as the aporias and failures of one generation provide stimulus for all that follows. Much of the work is largely historical, showing in great detail the context of each particular eucharistic philosophy, but Tilliette also evaluates the relative fruitfulness of the various eucharistic theories for philosophy, theology, and the life of the Church. This book demonstrates that the Eucharist has been and will likely continue to be a major impetus for philosophical reflection.

Against the Titans Peter Nguyen, 2020-07-15 Modern history has been marked by the emergence of the figure of the titan who yearns for self mastery in the face of death and who denounces modernity's tendency to reduce the individual to the lockstep of need and gratification But what of those few who rejected the impulses of the titan those militant desires to exert supremacy over all The story recounted in Against the Titans The Theology of the Martyrdom of Alfred Delp examines one martyr's rejection of the titan's perversion of heroism and sacrifice The life of Delp a Jesuit priest embodied a Christian theology of martyrdom articulated over against a virile fundamentalism that rejected divine sovereignty As Peter Nguyen S J shows Delp opposed Ernst Jünger's active nihilism by revealing a more authentic and no less demanding existence one that came not from acquiring self mastery but rather from an emptying out of self an indifference an unselfing through a radical dependence upon God
