McLauchlan,2025-04-24 In the early second century CE someone was described as playing a pipe with a bag tucked under
his armpit That man the first named piper in history was the Roman Emperor Nero Since then this improbable conflation of
bag and sticks has become one of the most beloved and contested instruments of all time When another piping emperor Tsar
Peter the Great watched his pet bear take its last breath he decided the creature would live on as a bagpipe This rich and
vivid history tells the story of an instrument boasting over 130 varieties yet commonly associated with just one form and one
country Scotland and its familiar Great Highland Bagpipe In fact the pipes are played across the globe and their story is a
highly diverse one which illuminates society in remarkable unexpected ways Richard McLauchlan charts the rise of women
pipers investigates how class privilege and capitalism have shaped the world of piping and explores how the meaning of a
national instrument can shift with the currents of a people s identity The vibrancy and inventiveness characterising today s
pipers still speak to the potency of this fabled and once feared instrument to which McLauchlan is our surefooted guide
