## **The Poets Calling In The English Ode:**

**The Poet's Calling in the English Ode** Paul H. Fry, 1980      *John Milton* Brett Foster, 2009 Presents a collection of critical essays on the works of John Milton      **Frank O'Hara's New York School and Mid-Century Mannerism** Sam Ladkin, 2024-02-02 Frank O'Hara's New York School and Mid-Century Mannerism offers a ground-breaking account of the poet Frank O'Hara and the extraordinary cultural blossoming O'Hara catalysed namely the mid-century experimental and multi-disciplinary arts scene the New York School Fresh accounts of canonical figures Jackson Pollock Willem de Kooning George Balanchine Fred Astaire and original work on those too little discussed Edwin Denby Elaine de Kooning resound with analysis of queer iconology from Michelangelo's David to James Dean Sam Ladkin argues that O'Hara and the New York School revive Mannerism Turning away from interpretations of O'Hara's Transcendentalism Romanticism or pastoralism mid-century Mannerism helps explain O'Hara's self-conscious style its play with sweet and grand grace contortion of conventional measure risks with affectation conceits nonchalance and scrambling of high low culture Mannerism clarifies the sociability implicit in the formal innovations of the New York School The work also studies the kinship between art mediums by retooling rhetoric and recovering a perennial manneristic tendency beyond period style Genealogies of grace the figura serpentinata sprezzatura ornatus and the marvellous exemplify qualities exhibited by O'Hara's New York School Ladkin relates the essential role of dance in the New York School O'Hara's reception has been tied to painting predominantly Abstract Expressionism He was also however a balletomane a fan for whom ballet was made up exclusively of qualities which other arts only aspire to in order to be truly modern Relaying ballet's Mannerist origins and aesthetics and demonstrating its influence alongside Broadway and Hollywood musical dance on art and poetry completes the portrait of mid-century modernity      **Fiddled out of Reason** John William Knapp, 2019-04-11 Fiddled out of Reason is a study of several poems spanning the life and career of Joseph Addison who along with John Dryden Alexander Pope Ambrose Philips Isaac Watts and many British poets of the turn of the eighteenth century helped to cultivate a broad new current of nonliturgical hymnic verse that became immensely popular across that century though it has eluded critical notice until now The texts the book examines Addison's St Cecilia's Day odes 1692 1699 his libretto for the opera Rosamond 1707 and a sequence of five hymnic works in The Spectator 1712 precede by twenty-five years John Wesley's publication of the first hymnal for use in the Church of England The book argues that secular hymnic works such as Addison's emerged alongside religious political controversies and anxieties about British national identity morality and expressions of enthusiastic passions Church and Tory interests largely rejected hymnic verse claiming it would only fiddle unwitting readers out of their reason and reignite the dangerous fervor of Revolution-era Nonconformity and Dissent As is evident from his poetry Addison a moderate Whig ardently opposed this view arguing that the hymnic could in fact be a portal to national and individual amelioration After an introductory chapter exploring period conceptions of hymnic poetry and the highly contested term hymn itself the argument proceeds

through three sections to trace the hymnic's upward trajectory through Addison's early, mid-period and mature verse. The book devotes the lion's share of its attention to the last of these three which includes the five poem Spectator sequence. A poem from the sequence 'The Spacious Firmament on High' will be familiar to many readers. Indeed, in addition to offering new readings of hymnic works by Dryden and Pope, Fiddled out of Reason provides the first extended critical treatment of these five important poems. Publication of the book coincides with the 300th anniversary of Addison's death and with the appearance of a new Oxford edition of Addison's nonperiodical writings.

Virginal Sexuality and Textuality in Victorian Literature Lloyd Davis, 1993-01-01. This book examines the figure of the virgin, a symbol central to many aspects of society and sexuality in nineteenth-century England and its effects on the Victorian literary imagination. Studying the virgin as a social, sexual and literary phenomenon, the volume contributes to current critical accounts of the relations among the body and language, gender and discourse. These essays explore the ways in which virginity is not a natural ideal but a complex cultural and literary sign. The authors rethink the virginal as a textual counter-example to the idealization of natural sexuality.

**'Heaven-taught Fergusson'** Robert Crawford, 2003. Heaven taught Fergusson wrote Robert Burns in stylish admiration. This tribute was only one of many bonds between Scotland's national poet and the poetic master whom he most loved but never met. Later Scottish poets have admired Fergusson in similarly strong terms. The ten specially commissioned poems in this book, paying tribute directly or indirectly to Fergusson, continue a tradition of homage while sounding their own contemporary notes. Sometimes gleeful, sometimes solemn, Heaven taught Fergusson both winks at and scrutinizes a poet who was in several ways strikingly different from Burns. Poets and critics from three continents come together in this volume. In various ways their soundings suggest just what it is about Fergusson that makes him still seem heaven-taught.

**Encyclopedia of American Poetry: The Twentieth Century** Eric L. Haralson, 2014-01-21. The Encyclopedia of American Poetry: The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics, schools or periods of American verse in the century. Entries fall into three main categories: poet entries which provide biographical and cultural contexts for the author's career; entries on individual works which offer closer explication of the most resonant poems in the 20th-century canon; and topical entries which offer analyses of a given period of literary production, school, thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States.

**The Cambridge History of Literary Criticism: Volume 5, Romanticism** George Alexander Kennedy, 1989. The history of the most hotly debated areas of literary theory including structuralism and deconstruction.

**Romantics and Renegades** C. Mahoney, 2002-11-15. Romantics and Renegades examines the abiding crux of romantic criticism: the political apostasies of the Lake poets Wordsworth, Coleridge and Southey as they renounced the revolutionary Jacobinism of their youth in the 1790s in order to claim the high ground of Regency Toryism in the 1810s. Central to this scandal is the figure of William Hazlitt, the literary critic who policed their betrayals in

his vigilant exposure of their political and poetical inconsistencies Mahoney's analysis provides new insight into this abiding critical riddle through close historical and figural readings of the rhetoric of romantic apostasy     The Cambridge Companion to 'Lyrical Ballads' Sally Bushell, 2020-01-09 This accessible collection of essays provides an essential introduction to the volume of poetry that defined British Romanticism
