Nationalism and the Politicization of History in the Former Yugoslavia Gorana Ognjenovic, Jasna Jozelic, 2021-03-19 This book is very timely the instrumentalization of history for political goals has become a pressing issue and worrisome feature of many polities to the point of challenging even the most consolidated democracies Focusing on Yugoslavia s fragile successor states the authors explore plurifold analytical levels including local regional transnational European and global perspectives The authors comprehensively demonstrate how politicizing history in the postwar and postcommunist societies of what was once Yugoslavia has prevented both reconciliation and democratization Sabine Rutar Leibniz Institute for East and Southeast European Studies Germany Ognjenovic and Jozelic focus here on the former Yugoslavia before and after its fragmentation to explore and evaluate the various uses of histories by nationalists both those who promoted federal nationalism and those who

peddle specific local nationalisms in successor states The book deals specifically with the Western Balkans but these developments have their parallels in many other parts of the world and the book will be useful well beyond the region on which the study is based Paul Mojzes Professor Emeritus Rosemont College USA The former Yugoslavia has become a battlefield for the Memory Wars in spite of the wealth of judicially established facts and available evidences gathered about the atrocities in the region and various initiatives aimed at dealing with the past and efforts at transitional justice Focusing on three periods of Yugoslav history the Second World War socialist Yugoslavia and the Yugoslav wars of 1991 2001 the contributors show that despite these efforts to deal with the past sustainable peace and reconciliation across ethnic and religious groups remain a distant aim Marijana Toma Center for Cultural Decontamination Serbia This book analyzes how nationalists in the former Yugoslavia have politicized history to further their political agendas retaining and prolonging conflict among different cultural and religious groups and impeding the process of lasting reconciliation It explores how narratives have been mis used drawing on examples from all of the former Yugoslav republics With contributors from a range of disciplinary backgrounds it provides a vital assessment of how nationalists have attempted to re shape public collective memory and relativize facts *Political Satire, Postmodern Reality, and the Trump Presidency* Mehnaaz Momen, 2018-12-11 This book attempts to grasp the recent paradigm shift in American politics through the lens of satire It connects changes in the political and cultural landscape to corresponding shifts in the structure and organization of the media in order to shed light on the evolution of political satire on late night television Satire is situated in its historical background to comprehend its movement away from the fringes of discourse to the very center of politics and the media Beginning in the 1990s certain trends such as technological advances media consolidation and the globalization of communications reinforced each other paving the way for satire to claim a prized spot in the visual media a tendency that only gained strength after September 11 While the Bush presidency presented itself as an apposite target for satirists their stronghold on American television was made possible by a number of transitions in broader culture which are encapsulated in the shrinking space available for political engagement under neoliberalism This largely underestimated development can be understood through the framework of postmodernism which focuses on the relationship between language power and the presentation of reality These trends and transitions reached a climax in the 2016 election where President Trump was elected embodying what can only be considered a significant turning point in American politics The bigger narrative contains various subplots represented in the rise of the neoliberal economy the acceptance of postmodernism as the dominant cultural code and the role of the voyeur superseding that of the engaged citizen It is only through understanding each of these pieces and connecting them that we can comprehend the current political transformation The present moment may feel like a golden age of satire and it may well be but this book addresses the hardest questions about the realities behind such a claim what can we conclude about when and how satire is effective judging by the history of this genre in its various incarnations and how can the

apolitical postmodern media landscape be reconciled with what the best of this genre has had to offer during times of political duress Reality Television and Arab Politics Marwan M. Kraidy, 2010 This book analyzes how reality television fuelled heated polemics over cultural authenticity gender relations and political participation in the Middle East **Political Illusion and Reality** David W. Gill, David Lovekin, 2018-09-27 Are all governments east and west Muslim and secular authoritarian and constitutional Republican and Democratic fundamentally the same all of them under the extraordinary growing power of technique and bureaucracy Is all politics then just an illusory affair of lies deception propaganda partisan passions and chaos on the surface of government and party In his vast and penetrating writings Bordeaux sociologist Jacques Ellul 1912 1994 points in those directions Political Illusion and Reality is a collection of twenty three essays on Ellul's political thought Veteran as well as younger Ellul scholars political leaders activists and pastors discuss aspects of Ellul's thought as they relate to their own fields of study and political experience Beginning with his 1936 essay Fascism Son of Liberalism translated and published here in English for the first time Ellul and these authors will provoke readers to think some new thoughts about politics and government and think more deeply about the main issues we face in our politically divided and troubled times **Foucault, Politics, and Violence** Johanna Oksala, 2012 The politicization of ontology Foundational violence Dangerous animals The politics of gendered violence Political life The management of state violence The political ontology of neoliberalism Violence and neoliberal governmentality Terror and political spirituality

Appearance and Reality in Politics W. E. Connolly, 1981-04-02 The Realities of 'Reality' - Part II: Making Sense of Why Modern Science Advances (Volume 2 of 2) Fritz Dufour, MBA, DESS, 2019-03-23 The difference between Part I and Part II Volumes 1 2 of this series is that in Part I the author showed how what we call reality starts with the inner self whereas Part II describes what in fact impacts and modifies the environment or reality and what are the factors behind that dynamics What impacts and modifies the environment is science This Volume 2 starts by showing how technology plays an important role in scientific progress Although the relationship between the two is symbiotic science can exist without technology but technology desperately needs science Military technology is an example of how technology can help science advance Some military inventions end up having civilian use Science being at the center of society the book makes the case for the direct impact of such social sciences as politics and economics on the advancement of science Politics says the author influences science because of uncertainty in science and economics does it thanks to the availability of money to scholars and scientists for their research On the other hand government also influences scientific progress through regulations The book gives cyberspace regulation as an example Furthermore by showing how art influences science the author really argues for the polyfactorial aspect of scientific progress In that line of thought he goes on to also prove that factors such as skepticism curiosity and the quest for knowledge greatly influence the advancement of science That says the author is a ninety degree turn By ending Part two that way I wanted to somehow link it to Part I which argues that reality starts from within The

Flight from Reality in the Human Sciences Ian Shapiro, 2009-02-09 In this captivating yet troubling book Ian Shapiro offers a searing indictment of many influential practices in the social sciences and humanities today Perhaps best known for his critique of rational choice theory Shapiro expands his purview here In discipline after discipline he argues scholars have fallen prey to inward looking myopia that results from and perpetuates a flight from reality In the method driven academic culture we inhabit argues Shapiro researchers too often make display and refinement of their techniques the principal scholarly activity The result is that they lose sight of the objects of their study Pet theories and methodological blinders lead unwelcome facts to be ignored sometimes not even perceived The targets of Shapiro s critique include the law and economics movement overzealous formal and statistical modeling various reductive theories of human behavior misguided conceptual analysis in political theory and the Cambridge school of intellectual history As an alternative to all of these Shapiro makes a compelling case for problem driven social research rooted in a realist philosophy of science and an antireductionist view of social explanation In the lucid if biting prose for which Shapiro is renowned he explains why this requires greater critical attention to how problems are specified than is usually undertaken He illustrates what is at stake for the study of power democracy law and ideology as well as in normative debates over rights justice freedom virtue and community Shapiro answers many critics of his views along the way securing his position as one of the distinctive social and political theorists of our time

Political Moods Travis Workman, 2024-07-26 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more Melodrama films dominated the North and South Korean industries in the period between liberation from Japanese colonial rule in 1945 and the hardening of dictatorship in the 1970s The films of each industry are often read as direct reflections of Cold War and Korean War political ideologies and national historical experiences and therefore as aesthetically and politically opposed to each other However Political Moods develops a comparative analysis across the Cold War divide analyzing how films in both North and South Korea convey political and moral ideas through the sentimentality of the melodramatic mode Travis Workman reveals that the melancholic moods of film melodrama express the somatic and social conflicts between political ideologies and excesses of affect meaning and historical references These moods dramatize the tension between the language of Cold War politics and the negative affects that connect cinema to what it cannot fully represent The result is a new way of historicizing the cinema of the two Koreas in relation to colonialism postcolonialism war and nation building

Discovering Reality Sandra Harding, Merrill B.P. Hintikka, 2005-12-30 Are Western epistemology metaphysics methodology and the philosophy of science grounded only in men s distinctive understandings of themselves others and nature Does this less than human understanding distort our models of reason and of scientific inquiry In different ways the papers in this collection explore the evidence for these increasingly reasonable and intriguing questions They identify how it is distinctively masculine perspectives on masculine experience which have shaped the most fundamental and formal aspects

of systematic thought in philosophy and the natural and social sciences precisely the aspects of thought believed most gender neutral They show how these understandings ground Aristotle s biology and metaphysics the very definition of the problems of philosophy in Plato Descartes Hobbes and Rousseau the adversary method which is the paradigm of philosophic and scientific reasoning principles of individuation in philosophical ontology and the philosophy of language individualistic assumptions in psychology functionalism in sociological and biological theory evolutionary theory the methodology of political science Marxist political economy and conceptions of objective inquiry in the social and natural sciences These essays also begin to identify for us the distinctive aspects of women s experience which can provide the resources needed for the creation of a truly human understanding Audience The book will be of interest to those involved in epistemology and philosophy of the natural and social sciences as well as feminist scholars in philosophy The work will also be of value for theorists

methodologists and feminist scholars in the natural and social sciences The Social System: An Investigation into Our Objective and Subjective Reality Matthew Cwihun, 2018-08-21 We have reached a point in our evolution where our collective priority must be on the preservation of the human genus and we have two means of doing this we can either work towards building and sustaining human existence within closed and determinist social systems or we can strive towards designing open and creative social systems that nurture the maximum creative potential of the human individual The purpose of this book is to demonstrate why organizing humanity within open and creative social systems that nurture the conditions for individual humans to reach their greatest creative potential is not only necessary for establishing a framework for peace it is essential for humanity to reach its omnipotent state of evolution To learn more about TUHRN please visit <https://www.TUHRN.com>

The Political Unconscious of Architecture Nadir Lahiji, 2016-02-24 Thirty years have passed since eminent cultural and literary critic Fredric Jameson wrote his classic work *The Political Unconscious Narrative as a Socially Symbolic Act* in which he insisted that there is nothing that is not social and historical indeed that everything is in the last analysis political Bringing together a team of leading scholars including Slavoj Zizek Joan Ockman Jane Rendell and Kojin Karatani this book critically examines the important contribution made by Jameson to the radical critique of architecture over this period highlighting its continued importance to contemporary architecture discourse Jameson s notion of the political unconscious represents one of the most powerful notions in the link between aesthetics and politics in contemporary discourse Taking this along with other key concepts from Jameson as the basis for its chapters this anthology asks questions such as Is architecture a place to stage class struggle How can architecture act against the conditions that affirmatively produce it What does the critical and the negative mean in the discourse of architecture and How do we prevent architecture from participating in the reproduction of the cultural logic of late capitalism This book breaks new ground in architectural criticism and offers insights into the interrelationships between politics culture space and architecture and in doing so it acts as a counter balast to the current trend in architectural research where a general aestheticization dominates the discourse **Legislating Reality**

and Politicizing History Brendon J. Cannon, 2016-11-04 *Legislating Reality and Politicizing History* Contextualizing Armenian Claims of Genocide is the first in depth study of Armenian and Armenian Diaspora identity viewed via the prism of a historical trauma Though numerous attempts to define a larger Armenian identity through history language and or religion have been performed no major study has demonstrated the centrality of the events of 1915 to this identity and the formation of Self and Other The book demonstrates how the Armenian campaign to have the events of 1915 recognized as the Armenian Genocide flawed and racist as the campaign may be remains the single bond possessing enough strength to bind the otherwise linguistic geographically and religiously diverse Armenian Diaspora communities together Utilizing a quantitative and comparative approach peppered with International Relations theory and the political economy of lobbying niche theory this book demonstrates the pervasiveness and political power of the re imagined trauma of 1915 to Armenian large group identity This identity divorced by time and space from historical realities relies on efforts to gain ad hoc legislation through the politicization of history in order to convince the world of what Armenians refer to as the Armenian Genocide This groundbreaking book argues that these political actions as well as the powerful identity narrative underpinning these actions is significant for several reasons One this emotive issue and the campaign it has spawned directly affects the future of multiple nation states Turkey and Armenia in particular as well as a non state entity the powerful Armenian diaspora Two the campaign regarding which semantics to use in referencing century old events increasingly dominates international relations between Turkey and the West Three by deconstructing the role the trauma of 1915 plays in the development and fecundity of Armenian large group identity as well as its transmission from generation to generation an understanding of the quest to legislate reality through the politicization of history is gained That is century old images and caricatures often racist and bearing no relationship to present day realities underpin the campaign the terrible Turk anti Muslim sentiments and still carry weight not only for Armenians but much of the West and Russia This has normative implications and this book demonstrates how Armenian identity which drives and informs the Armenian diaspora s campaign of Armenian genocide recognition actively undermines the strict legal definition and therefore legitimacy that is the United Nations Genocide Convention of 1948 This is done through the wanton application of term genocide to the events of 1915 which undercuts established definitions and norms and therefore allows and encourages the rather elastic use of the term for political gain This further undermines the symbolic weight and power of the UN convention and thereby complicating the courts ability to punish genocide perpetrators

Theory and Reality of International Politics Hans

Mouritzen, 2019-05-20 First published in 1998 this volume deals with the explanation of international politics and foreign policy Levels of explanation and their interrelationships offer the book s structure Based on critiques of major IR approaches a bottom up instead of a systemic top down perspective Waltz is advocated but without falling prey to reductionism explaining international politics from domestic factors Explanation of state behaviour should primarily stress states salient

environment but occasionally also their historical lessons from previous experience with this environment International organizations or other non state actors may be allowed an influence of their own in certain areas but the state remains in ultimate control

Cultural Antagonism and the Crisis of Reality in Latin America Horacio Legrás,2022-10-06 For most of the 20th century Latin American literature and art have contested political and cultural projects of homogenization of a manifestly diverse continent Cultural Antagonism and the Crisis of Reality in Twentieth Century Latin America explores literary and humanist experimentations and questions of gender race and ethnicity as well as the contradictions of capitalist development that belie such homogenization by reconfiguring the sense of the real in Latin America Covering four key geographical areas Mexico the Caribbean Central America and the Andes every chapter delves into a question that has been central to the humanities in the last 20 years Indigenous world views gender race neo liberalism and visual culture Legr s illuminates these issues with a thorough consideration of the theoretical questions inherent to how new identities disrupt the imaginary stability of social formations

The Politics of Nothing Clare Monagle,Dimitris Vardoulakis,2013-10-31 This book questions what sovereignty looks like when it is de ontologised when the nothingness at the heart of claims to sovereignty is unmasked and laid bare Drawing on critical thinkers in political theology such as Schmitt Agamben Nancy Blanchot Paulhan The Politics of Nothing asks what happens to the political when considered in the frame of the productive potential of the nothing The answers are framed in terms of the deep intellectual histories at our disposal for considering these fundamental questions carving out trajectories inspired by for example Peter Lombard Shakespeare and Spinoza This book offers a series of sensitive and creative reflections that suggest the possibilities offered by thinking through sovereignty via the frame of nihilism This book was originally published as a special issue of Culture Theory and Critique

Islam in Global Politics Bassam Tibi,2012-03-12 This book examines global and local politics and how Islam impacts on civilizational relations between different groups and polities In particular he examines how Islamism as opposed to Islam becomes an immediate source of tension and conflict between the secular and the religious Tibi rejects the clash of civilizations theory and argues for the revival of Islamic humanism to help bridge the gap

Media and Political Contestation in the Contemporary Arab World Lena Jayyusi,Anne Sofie Roald,2016-01-26 Much has been made of the role of various media in the shaping of conflicts and political agendas in today s Arab world This volume examines this topic with interdisciplinary contributions that range across media studies anthropology religious studies and political science and explore both new and older media forms
