The ocean is under increasing threat from the expansion of human activities The combined impacts of these threats as well as the potential impacts of climate change and ocean acidification have placed thousands of species at risk of extinction and have impaired the structure function productivity and resilience of marine ecosystems Currently some parts of the world s oceans are significantly impacted yet are without any form of effective management Only a small proportion of the oceans are within protected area systems Globally measures are being taken to increase protection and sustainable management but application is uncoordinated and not always effective In order to support effective policy action by countries and competent international and regional organizations it is critical to build a sound understanding of the most ecologically and biologically important ocean areas that support healthy marine ecosystems so that the necessary steps to ensure the long term function and resilience of these systems can be taken    **Power Boating** ,1920    **Home Mission Monthly** ,1903    Bulletin - Alaska Agricultural Experiment Stations Alaska Agricultural Experiment Stations (U.S.),1902    The Condor ,1912    Appletons' Guide-book to Alaska and the Northwest Coast Eliza Ruhamah Scidmore,1893
