The Babylonian Disputation Poems Enrique Jiménez, 2017-02-06 In *The Babylonian Disputation Poems* Enrique Jiménez studies a group of ancient Babylonian poems that feature discussions between animals and trees Using intertextual parallels and comparison with similar works in other literatures he espouses a new classification of the Babylonian disputation poems as parodies After examining neighboring traditions of literary disputation he argues that the Babylonian poems influenced them and that some may have been translated from Akkadian to Aramaic from Aramaic and Syriac to Arabic In addition *The Babylonian Disputation Poems* provides editions of several previously unpublished Babylonian disputations such as *Palm and Vine* and *the Series of the Spider* It also offers the first edition of the latest known Babylonian fable *The Story of the Poor Forlorn Wren* The present book is an exemplary model for editing and commenting upon ancient texts and almost every approach has been taken into account Markham J Geller *Journal for the Study of the Old Testament* 43 5 2019 **Major Poems of the Hebrew Bible** Jan Fokkelman, 2018-07-17 The Book of Job contains the only sustained through composed work in verse in the Hebrew Bible This makes it very suitable as a testing area for the rules of verse structure and all other aspects of prosody that were developed in *Major Poems of the Hebrew Bible Vol II* and are now also available in *Reading Biblical Poetry* This fourth and last volume completes the study that in Vol I started with Job 3 curses and complaint and continued with the first round of the debate chs 4 14 in Vol II Again the analysis follows two separate circuits on the one hand that of language style and structure on the other hand that of measuring proportions on at least five textual levels The poetry section of the Book of Job contains 412 strophes of which the protagonist Job speaks exactly half His portion of 206 strophes is also divided into equal halves in 103 short and 103 long strophes Even more than in the Psalms the norm figures 7 8 and 9 play an essential part in the composition of the poems and their average number of syllables per colon The forty poems of the book exhibit various forms of numerical perfection and the correct demarcation of strophes and stanzas is found to considerably improve and expand our understanding of its contents **The Five-Colored Clouds of Mount Wutai: Poems from Dunhuang** Mary Anne Cartelli, 2012-12-07 In *The Five Colored Clouds of Mount Wutai Poems from Dunhuang* Mary Anne Cartelli introduces a significant corpus of Chinese Buddhist poems from the Dunhuang manuscripts celebrating Mount Wutai They offer important literary evidence for the transformation of the mountain into the earthly paradise of the bodhisattva Ma ju r by the Tang dynasty **Thirty Six Poems** James Elroy Flecker, 2023-07-18 A stunning and provocative collection of poems from one of the early 20th century's most gifted and influential voices Flecker's work blends rich imagery intricate rhyme schemes and a deep sense of longing to create a mesmerizing and haunting aesthetic This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we
