## **Slovak Republic A Strategy For Growth And European Integration:**

**Slovak Republic** ,1998-01-01 Available only in French L'enseignement supérieur tunisien Enjeux et avenir Higher education in Tunisia is a largely effective and well performing system Yet the doubling of enrollments expected over the next ten years will create obstacles that may prevent it from playing the role expected of it by a society and economy in rapid transformation This study identifies some of these obstacles and suggests a series of coordinated countermeasures Some suggestions include building a system that would eliminate the disadvantages of rigid student assignments ensuring greater decentralization of decisionmaking for universities allocating results oriented resources and providing greater autonomy in funding management financing expansion of the system separating teaching and research and improving educator training and evaluation services European Integration, Regional Policy, and Growth Bernard Funck, Lodovico Pizzati, 2003 This publication contains a number of papers presented by leading academics policy makers and practitioners from existing and new EU member countries at a conference in Barcelona in October 2002 These papers discuss key issues regarding the effectiveness of attempts to reduce regional disparities with the EU and the implications of current enlargement including the trade offs between promoting national growth and reducing relative disparities the role of growth poles the investment climate and labour market flexibility the role of the EU and regional policy overall **Slovak Republic** International Monetary Fund, 2000-09-11 As in other European transition economies unemployment statistics in Slovakia are provided by two different sources an official register of the unemployed maintained by the National Labor office and a Labor Force Survey undertaken by the Statistical Office The register of the unemployed established in 1990 provides monthly statistics on the number of workers who are included in the register whereas the Labor Force Survey undertaken since 1993 provides quarterly data on employment and unemployment derived by interviewing a sample of 10 250 households **A Guide to the World Bank** ,2003 The World Bank Group works in more than 100 developing economies and is one of the world's largest sources of development assistance In 2002 the institution provided US 19.5 billion in loans to its client countries This guide reviews the organization's history objectives and operations and looks at the five institutions that make up the World Bank Group the International Bank for Reconstruction and Development IBRD the International Development Association IDA the International Finance Corporation IFC the Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID **The Political and Social Construction of Poverty** Serena Romano, 2014-01-01 This book is the first to examine the social and political construction of anti poverty programs in Central and Eastern Europe which has faced serious hardships as it has transitioned from communist rule to capitalism beset by economic crisis It explores a range of different attitudes held about poverty stricken people and illustrates how the distinction between deserving and undeserving poor has evolved over the years effected by external pressures from groups like the European Union and World Bank By examining poverty policies against the commonly held attitudes about the poor

that have influenced them Serena Romano offers a new understanding of the many ways that different post communist welfare states have dealt with and understood citizens facing economic hardship

**Progress Toward the Unification of Europe** Helena Tang, 2000-01-01 Ten countries of Central and Eastern Europe and the Baltic CEECs are candidates to join an enlarged European Union EU in the years to come The ten are Bulgaria the Czech Republic Estonia Hungary Latvia Lithuania Poland Romania the Slovak Republic and Slovenia This enlargement will bring many opportunities to the both the EU and the candidate countries For the EU it will bring enhanced weight and influence For the candidate countries it should mean an improvement of their long term growth prospects by providing access to an open single market The accession process is providing the impetus for the acceleration of much needed economic political institutional and social reforms in some of the CEECs as they strive to meet EU membership requirements The key for the CEECs is to achieve sustained high long term growth in order to meet their ultimate objective of accession The EU has already concluded agreements with the CEECs which went beyond the narrowly conceived ideas of market access to include the alignment of the CEEC economic system with that of the EU s This report sets out the future agenda for the successful integration of the CEECs into an enlarged EU The first priority is for each country to complete its own process of transition to a free market democratic state In short this will mean that many will have to address their fiscal challenges and ensure fiscal sustainability the challenge of global financial integration opening of their capital accounts the strengthening of their administrative capacity the reduction of unemployment and the promotion of social inclusion

*Transformation and Crisis in Central and Eastern Europe* Bruno Dallago, Steven Rosefielde, 2016-05-05 The global financial crisis has provided an important opportunity to revisit debates about post socialist transition and the relative success of different reform paths Post communist Central and Eastern Europe CEECs in particular show resilience in the wake of the international crisis with a diverse range of economic transformations Transformation and Crisis in Central and Eastern Europe offers an in depth analysis of a diverse range of countries including Poland Hungary Russia Ukraine Czech Republic and Slovakia This volume assesses each country s institutional transformations geopolitical policies and local adaptations that have led them down divergent post communist paths Chapters take the reader systematically through the evolution of former communist national economic systems before ending with lessons and conclusions for the future Subsequent chapters demonstrate that economic performance crucially depends on achieving a sustainable balance between sound institutional design and policies on one hand and localization on the other This new volume from a prestigious group of academics offers a fascinating and timely study which will be of interest to all scholars and policy makers with an interest in European Economics Russian and East European Studies Transition Economies Political Economy and the post 2008 world more generally

Transition, the First Ten Years Pradeep Mitra, Marcelo Selowsky, 2002 The wide variation in transition economies raises questions about differences in economic growth the applicability of transition policies and the advantages of economic reform This report seeks to answer these

questions     **Insincere Commitments** Heather Smith-Cannoy, 2012-05-03 Paradoxically many governments that persistently violate human rights have also ratified international human rights treaties that empower their citizens to file grievances against them at the United Nations Therefore citizens in rights repressing regimes find themselves with the potentially invaluable opportunity to challenge their government s abuses Why would rights violating governments ratify these treaties and thus afford their citizens this right Can the mechanisms provided in these treaties actually help promote positive changes in human rights Insincere Commitments uses both quantitative and qualitative analysis to examine the factors contributing to commitment and compliance among post Soviet states such as Slovakia Hungary Kyrgyzstan and Tajikistan Heather Smith Cannoy argues that governments ratify these treaties insincerely in response to domestic economic pressures Signing the treaties is a way to at least temporarily keep critics of their human rights record at bay while they secure international economic assistance or more favorable trade terms However she finds that through the specific protocols in the treaties that grant individuals the right to petition the UN even the most insincere state commitments to human rights can give previously powerless individuals and the nongovernmental and intergovernmental organizations that partner with them an important opportunity that they would otherwise not have to challenge patterns of government repression on the global stage This insightful book will be of interest to human rights scholars students and practitioners as well as anyone interested in the UN international relations treaties and governance     **Slovak Republic, Selected Issues and Statistical Appendix** , 2001
