Small Miracle:

Small Miracles A. C. "Pete" Peters, 2007-06 What Christian hasn't questioned their faith in God at some point during their lives? Most people accept their faith blindly as children due to parental influence and Pete Peters was no exception. An automobile accident at age sixteen changed everything. Peters was speeding in a hilly area when his 1951 Ford convertible careened off a steep cliff and crashed one hundred feet below, causing his younger brother David to suffer fatal injuries. And so began Peters' first question: How can there be a God that allows innocent people to suffer and die for no reason? In later years he witnessed family trauma, senseless war, famine, two divorces, and other atrocities. From his point of view, there was no God to care. A self-proclaimed intellectual atheist, Peters still read about and discussed faith and over the years devoted much thought as to why he felt God logically could not exist. After many small miracles eventually occur in his life, Peters finally realizes that faith is a gift that is only given to those ready to accept it. Peters tells his story in such a compelling and personal way that he will help anyone who is spiritually confused find their way back to God. Small Miracles Woody VanKirk, 2018-04-24 If you survived a plane crash without a scratch, you would surely say it was a miracle. Yes, it would be quite a miracle. But what if you fell down the stairs and survived without a scratch? What would that be? Good luck. Why wouldn't that be a miracle? A small miracle. This is about seven cats. This is also about miracles. Small miracles which happened to these seven cats and how the affect of these miracles helped lead the writer back to God and the path to salvation. Do you agree with the writer that there are miracles here or just good luck and coincidences? It's for the reader to decide. While reading, enjoy the feline anecdotes. Small Miracles Olivia Atwater, 2022-05-06 A warm, funny, and wonderfully inclusive fantasy. Sangu Mandanna's 'this feel good comedy' by author Olivia Atwater mixes angels, demons, romance, and chocolate into a perfectly petty and wickedly entertaining novel. A little bit of sin is good for the soul. Gadriel, the fallen angel of petty temptations, has a bit of a gambling debt. Fortunately, her angelic bookie is happy to let her pay off her debts by doing what she does best. All Gadriel has to do is tempt miserably sinful mortal Holly Harker to do a few nice things for herself. What should be a cakewalk of a job soon runs into several roadblocks, however, as Miss Harker politely refuses every attempt at temptation from Gadriel, the woman, Gadriel, the man, and Gadriel, the adorable fluffy kitten. When even chocolate fails to move Gadriel's target, the ex-guardian angel begins to suspect she's been conned. But Gadriel still remembers her previous job and where petty temptations fail, small miracles might yet prevail. Olivia Atwater explores love, grief, and the very last bit of chocolate in this sweet modern fantasy full of wit and heart. Pick up *Small Miracles* and enjoy a heavenly comedy from the author of *Half a Soul*. Praise for *Small Miracles* Warm, funny, and wonderfully inclusive, *Small Miracles* is a delightful fantasy about the extraordinary power of small, seemingly insignificant kindnesses and joys. Sangu Mandanna, bestselling author of *The Very Secret Society of Irregular Witches* Full of fallen angels, petty gambling, and lots of chocolate, *Small Miracles* is a sweet and cozy delight. Think *Good Omens* with lower stakes and more heart. I fell in love with this ridiculously charming book.

and hope others do too Julie Leong author of *The Teller of Small Fortunes* A warm fuzzy treatise on human nature family and the little naughty things we do to get through the hard days Riley August author of *The Last Gifts of the Universe* A charming romantic comedy about fallen angels friendship chocolate and tiny problems This has all the Good Omens vibes but softer and cozier with witty characters it s a joy to spend time with Tansy Rayner Roberts author of *Teacup Magic* Regency faerie tale queen Olivia Atwater takes a leap into the contemporary with this charming tale of little temptations Jacquelyn Benson author of *Empire of Shadows* *A Small Miracle* Peter Collington,1997 The figures in a nativity scene come to life to help an old woman in need at Christmas **Small Miracle** Norman Krasna,1935 *The Flying Carpet of Small Miracles* Hala Jaber,2009 From prizewinning foreign correspondent Jaber comes the inspiring true story of her longing to have a child two orphaned Iraqi girls in need of a mother and the things that love and grief can teach about family and hope *Mental Causation* Thomas Kroedel,2020 Presents a comprehensive account of how the mind causes things to happen in the physical world This book is also available as Open Access **The Birth of a New South Africa** T. One-Minute Prayers When You Need a Miracle Nick Harrison,2020-01-14 God Is Big Enough When life looks bleak and you need God to show up in a big way it can be hard to imagine how He might rescue you from your desperate situation One Minute Prayers When You Need a Miracle connects your needs to God s promises by offering brief prayers to stretch your faith and enlarge your view of God Each devotion provides a heartfelt prayer and a scripture to ponder that will comfort you in times of trouble strengthen your faith as you wait patiently for God s answer build your trust as you lean into God s unique plan for you If you re praying for a miracle you can expect God to answer and provide you with real hope even in your darkest hours *My Walk with God* Milta Velez,2007 Take my life or change it Milta Velez declared to a God she had just met With this statement she challenged God while standing at the altar with a gun in her purse She grew up in Manhattan at a time when women s liberation was born She sought her identity in the nightclubs of New York With five disastrous relationships she was following in the footsteps of the Samaritan woman when Jesus touched her and saved her life Tired and desperate she surrendered to Jesus During her walk with God she struggled with the conversion of being a Christian because she didn t believe in miracles until the day she decided to put Jesus to the test Her first granted miracle enabled her to purchase her first home without any credit or collateral Milta soon discovered that anything is possible in the name of Jesus And that a dreamer in the hands of God can accomplish great things Milta sets an example of what one can accomplish when one surrenders their hopelessness to God Today she owns a travel agency a restaurant and the property **A Variety of Causes** Paul Noordhof,2020 The book provides an analysis of a key notion in our lives causation what its nature is how we should characterise it in language how it relates to laws of nature how causes differ from their effects and why they tend to

occur earlier than their effects A Philosophical Guide to Conditionals Jonathan Bennett,2003-04-03 Conditional sentences are among the most intriguing and puzzling features of language analysis of their meaning and function has important implications for and uses in many areas of philosophy Jonathan Bennett one of the world s leading experts distils many years work and teaching into this Philosophical Guide to Conditionals the fullest and most authoritative treatment of the subject The literature on conditionals is difficult needlessly so Bennett s treatment is meticulously careful and luminously clear He presents and evaluates in detail various approaches to the understanding of indicative conditionals like If Shakespeare didn t write Hamlet some aristocrat did and subjunctive conditionals like If rabbits had not been deliberately introduced into New Zealand there would be none there today and he offers his own view which will be recognized as a major original contribution to the subject Journeying through this intellectual territory brings one into contact with the metaphysics of possible worlds probability and belief change probability and logic the pragmatics of conversation determinism ambiguity vagueness the law of excluded middle facts versus events and more One might perhaps learn more philosophy from a thorough study of conditionals than from any other kind of work Bennett s Guide is an ideal introduction for undergraduates with a philosophical grounding and will also be a rich source of illumination and stimulation for graduate students and professional philosophers Miracles and Machines Elizabeth King,W. David Todd ,2023-08-22 An abundantly illustrated narrative that draws from the history of art science technology artificial intelligence psychology religion and conservation in telling the extraordinary story of a Renaissance robot that prays This volume tells the singular story of an uncanny rare object at the cusp of art and science a 450 year old automaton known as the monk The walking gesticulating figure of a friar in the collection of the Smithsonian Institution s National Museum of American History is among the earliest extant ancestors of the self propelled robot According to legend connected to the court of Philip II of Spain the monk represents a portrait of Diego de Alcal a humble Franciscan lay brother whose holy corpse was said to be agent to the miraculous cure of Spain s crown prince as he lay dying in 1562 In tracking the origins of the monk and its legend the authors visited archives libraries and museums across the United States and Europe probing the paradox of a mechanical object performing an apparently spiritual act They identified seven kindred automata from the same period which they argue form a paradigmatic class of walking prime movers unprecedented in their combination of visual and functional realism While most of the literature on automata focuses on the Enlightenment this enthralling narrative journeys back to the late Renaissance when clockwork machinery was entirely new foretelling the evolution of artificial life to come *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986* ,1996 **Unorthodox Humeanism** Georg Sparber,2013-05-02 The book discusses contemporary metaphysics of science and deals with the central question which ontology fits best with our knowledge of the world Two competing positions in today s metaphysics of science are analysed Humeanism and dispositionalism There are physical and metaphysical arguments to show that orthodox Humeanism is in trouble The

unorthodox metaphysical turn consists in taking the fundamental properties to be relations rather than intrinsic properties The book spells out in detail what an unorthodox version of Humeanism amounts to and shows that in turning unorthodox Humeanism offers a competitive metaphysical framework for science without commitment to irreducible causation

Making Things Happen James Woodward, 2005-10-27 In *Making Things Happen* James Woodward develops a new and ambitious comprehensive theory of causation and explanation that draws on literature from a variety of disciplines and which applies to a wide variety of claims in science and everyday life His theory is a manipulationist account proposing that causal and explanatory relationships are relationships that are potentially exploitable for purposes of manipulation and control This account has its roots in the commonsense idea that causes are means for bringing about effects but it also draws on a long tradition of work in experimental design econometrics and statistics Woodward shows how these ideas may be generalized to other areas of science from the social scientific and biomedical contexts for which they were originally designed He also provides philosophical foundations for the manipulationist approach drawing out its implications comparing it with alternative approaches and defending it from common criticisms In doing so he shows how the manipulationist account both illuminates important features of successful causal explanation in the natural and social sciences and avoids the counterexamples and difficulties that infect alternative approaches from the deductive nomological model onwards *Making Things Happen* will interest philosophers working in the philosophy of science the philosophy of social science and metaphysics and as well as anyone interested in causation explanation and scientific methodology

Causation L. A. Paul, Edward Jonathan Hall, 2013-05-09 Causation is at once familiar and mysterious we can detect its presence in the world but we cannot agree on the metaphysics of the causal relation L A Paul and Ned Hall guide the reader through the most important philosophical treatments of causation and develop a broad and sophisticated understanding of the issues under debate

Slater, 2011-10-28 Reflections on the metaphysics and epistemology of classification from a distinguished group of philosophers Contemporary discussions of the success of science often invoke an ancient metaphor from Plato's Phaedrus successful theories should carve nature at its joints But is nature really jointed Are there natural kinds of things around which our theories cut The essays in this volume offer reflections by a distinguished group of philosophers on a series of intertwined issues in the metaphysics and epistemology of classification The contributors consider such topics as the relevance of natural kinds in inductive inference the role of natural kinds in natural laws the nature of fundamental properties the naturalness of boundaries the metaphysics and epistemology of biological kinds and the relevance of biological kinds to certain questions in ethics Carving Nature at Its Joints offers both breadth and thematic unity providing a sampling of state of the art work in contemporary analytic philosophy that will be of interest to a wide audience of scholars and students concerned with classification
