

THINKING & TALKING: A STRATEGIC SMALL GROUP DISCUSSION

Talking and Thinking is a discussion strategy that uses a silent cue to communicate with the group if each person is Thinking or if they Have Something to Say. Here's how it works:

Step 1

- Put students in groups of 3-4 and give each student a T&T Card

Step 2

- Offer students a question or a prompt to discuss. One student volunteers to share first.

Step 3

- Each student in the group displays their status on the card, either that they are thinking – and don't want to talk, or that they have something to say, and want to be called on.

Step 4

- After the first student speaks, they select a student with a the Caption Bubble, "I have something to say". That student shares and then selects a new student.

Step 5

- When everyone has their I'm Thinking bubble, the group goes on to the next question or prompt.

degrees by online learning but also by experiential learning that takes place in the community or within an organization with or without the presence of a teacher and as a pedagogy that places the primary responsibility of learning on the learner with the teacher's primary role being to create opportunities and environments that foster independent and collaborative student learning. Starting with a brief review of the relevant theory such as andragogy, inquiry-based learning, experiential learning, and theories that specifically relate to distance education, she addresses the practicalities of planning a hybrid course taking into account class characteristics such as size, demographics, subject matter, learning outcomes, and time available. She offers criteria for determining the appropriate mix of face-to-face, online, and experiential components for a course and guidance on creating social presence online. The section on designing and teaching in the hybrid environment covers such key elements as promoting and managing discussion using small groups, creating opportunities for student feedback, and ensuring that students' learning expectations are met. A concluding section of interviews with students and teachers offers a rich vein of tips and ideas.
