Smartsims Simulation

William F. Arens

Smartsims Simulation:

Simulations in the Political Science Classroom Mark Harvey, James Fielder, Ryan Gibb, 2022-08-31 This book is premised on the assumption that games and simulations provide welcome alternatives and supplements to traditional lectures and class discussions especially in political science classrooms where real world circumstances provide ideal applications of theory and policy prescriptions Implementing such an active learning program however is sometimes daunting to overburdened professors and teaching assistants This book addresses the challenges of using games and simulations in the political science classroom both online and in person Each chapter offers a game or simulation that politics teachers can use to teach course concepts and explains ways to execute it effectively In addition the authors in this volume make a proactive case for games and simulations Each chapter offers research to evaluate the effectiveness of the activity and pedagogical design best practices Thus the book not only serves as a game design resource but also offers demonstrable support for using games and simulations in the political science classroom Aimed at teachers at all levels from high school through college the book may be especially appealing to graduate students entering teaching for the first time and open to new teaching and learning approaches

Technology and Entrepreneurship Education Denis Hyams-Ssekasi, Naveed Yasin, 2022-03-17 This contemporary book offers valuable insights on digital technology and entrepreneurship education highlighting the importance of adopting creative digital approaches to learning and teaching It raises the questions as to whether the current approaches utilised to convey entrepreneurial knowledge are adequate enough when preparing graduates for prospective careers The book directly addresses the need for effective practices in teaching

and reinforces the rising interest and resilience in entrepreneurship. Comprising a number of distinct chapters that illuminate digitally assisted teaching methods that are used in practice to champion student engagement when learning enterprise and entrepreneurship. The contemporary practices allude to the notion that the adoption of simulations and game based learning increases student comprehension, helps in retention of knowledge and is an excellent way to introduce new content. With the substantial challenges caused by the global pandemic, this book is a vital resource at a time when blended learning is the new norm and mode of instruction in Higher Education. It is ideal for researchers, instructors and students with a keen interest in game based approaches as it encourages application and outlook towards entrepreneurship education. **Smartsims**

Topics in Global Information Management, Volume 5 Hunter, M. Gordon, Tan, Felix B., 2006-04-30. Advanced Topics in Global Information Management is a series of books that examine global information management (GIM) and its research and implications. GIM research continues to progress with some scholars pushing the boundaries of thinking and others challenging the status quo. Advanced Topics in Global Information Management Volume 5 is a part of this series. Advanced Topics in Global Information Management Volume 5 discusses how many businesses exist in a global environment. Whether they are large or small companies, they may have suppliers or customers that reside in different geographical locations. The ability to function in this global environment has been facilitated by the use of information technology. Through research projects, this book addresses the ability of both large and small business and government from the national level to local level to function in altered environments by using information technology. In all of these situations, both businesses and governments must be able to function and respond to various stakeholders by adopting the appropriate and necessary cultural perspective. **Global Information Technologies: Concepts, Methodologies, Tools, and Applications** Tan, Felix B., 2007-10-31.
