Harrow,2022-01-11 In her first year of medical school Abby West s goals for the future were derailed by an unexpected pregnancy Reluctantly she discarded her dream of becoming a physician in favor of being a wife to one Nineteen years later Abby discovers her powerful well connected husband has been keeping a secret an eight year old son from an old affair Devastated by the betrayal she flees to her grandmother s hometown on the Amalfi coast There Abby meets Daniel Quinn a former American soldier turned photographer As she travels across Europe with him she begins to imagine a new life one without a controlling and unfaithful husband Empowered by a newfound sense of freedom and courage Abby returns to St Augustine to settle things with her husband But nothing goes as planned and what awaits may very well destroy her *Untapped* John Hossein Ghazvinian,2007 To find out how the new oil boom is affecting Africa Ghazvinian traveled the country for a firsthand look The result is a high octane narrative that reveals the challenges obstacles reasons for despair and reasons for hope emerging from the worlds newest energy hot spot **Nothing Was Ever Normal** Don Peeler,2014-10-21 In the heady days of the early 1960s the United States found itself perched on the edge of technological sociological and societal precipices Advances made by its enemies with offensive ballistic missile systems put America in catch up mode both on Earth and in orbit Others were leading the race to space and that was an affront to American safety status and national pride For the men and women employed as top secret research workers at the General Motors Division secrecy was a way of life The projects they worked on including Project Jennifer Big Bird Thor Titan missiles Matador Regulus the stealth fighter and the Fastest Gun in the West were cloaked in the highest security possible In their labs the Lunar Rover Apollo Guidance and the complex multinational F 16 systems were born Don Peeler was a typical engineer in this high stress environment but his personal experiences were atypical During his years at the General Motors Division he experienced events that ran from the humorous to the heroic and in *Nothing Was Ever Normal* he shares his best memories of those days For Don and his peers there was no normal or any such thing as standard operating procedures because what was occurring had never been experienced before Compared to NASAs Manned Space Program their glory came from knowing that what they were doing was essential to the

security of the United States Now that their classification designations have lapsed the stories of the Band of Others can finally be told Don Peeler was one of thousands of bright engineers who helped America dominate space during the Cold War and beyond He endured sleepless nights fueled by coffee and cigarettes to troubleshoot technical problems and meet launch deadlines because every project was new and nothing was normal meant nothing was typical or predictable In this book he looks back on his storied career Peelers pride is palpable whether hes describing an early missile launch at Cape Canaveral or the laborious hands on process of solving a new guidance systems glitch But overall Peelers memoir covers decades of wide ranging projects Several Air Force Strategic missiles Mercury Apollo several CIA programs the F 16 aircraft and ends up with several automotive applications The recollections Peeler fleshes out the most occur later in his career when he has moved up to management and contract negotiation for his employer a highly regarded division of General Motors The astronauts as depicted in documentaries and film drove Corvettes They were gifts from GM Peeler notes His stories of his greatest negotiating successes demonstrate how the author earned the nickname Wheeler Dealer Peeler Peeler wrote this memoir to give credit to the men who toiled behind the scenes of the dramatic rocket launches and to tell the younger generation what his peers accomplished In that he has succeeded The book will likely appeal mostly to people who have worked in the industry but it may also whet readers appetites to read up more on the projects covered or revisit films such as Apollo 13 The Book is available in hardcover paperback and eBook Review made by BlueInk Lobbying America Benjamin C. Waterhouse,2015-11-24 Lobbying America tells the story of the political mobilization of American business in the 1970s and 1980s Benjamin Waterhouse traces the rise and ultimate fragmentation of a broad based effort to unify the business community and promote a fiscally conservative antiregulatory and market oriented policy agenda to Congress and the country at large Arguing that business s political involvement was historically distinctive during this period Waterhouse illustrates the changing power and goals of America s top corporate leaders Examining the rise of the Business Roundtable and the revitalization of older business associations such as the National Association of Manufacturers and the U S Chamber of Commerce Waterhouse takes readers inside the mind set of the powerful CEOs who responded to the crises of inflation recession and declining industrial productivity by organizing an effective and disciplined lobbying force By the mid 1970s that coalition transformed the economic power of the capitalist class into a broad reaching political movement with real policy consequences Ironically the cohesion that characterized organized business failed to survive the ascent of conservative politics during the 1980s and many of the coalition s top goals on regulatory and fiscal policies remained unfulfilled The industrial CEOs who fancied themselves the voice of business found themselves one voice among many vying for influence in an increasingly turbulent and unsettled economic landscape Complicating assumptions that wealthy business leaders naturally get their way in Washington Lobbying America shows how economic and political powers interact in the American democratic system Cowboy Box Set Diana Palmer,Carla Cassidy,2015-12-14 Two fan favorite cowboy romances by New
