close examination of the individual leader responsible for such decisions In this work he develops a theory of psychological motivations for preventive action By examining five situations including the Iraq war he pinpoints the factors that matter most in decisions to take preventive military action There have been preventive wars throughout history but the motivations behind them have remained elusive and many crucial questions remain unanswered What exactly constitutes preventive action What differentiates preventive action from pre emptive action Are there significant differences between preventive strikes and full on preventive wars What is the relationship of preventive action to traditional concepts of deterrence compellence and international law Finally why do states initiate preventive action Renshon argues that the best avenue for understanding decisions to initiate preventive action is through a close examination of the individual leader responsible for such decisions

**THE COMPLETE WORKS OF BRAINPOWER; 智勇全書 ZHI NANG QUAN JI** Feng Menglong, Written by Feng Menglong the Complete Works of Brainpower Zhi Nang Quan Ji was first compiled in 1626 or the Sixth Year of Tianqi in Ming Dynasty It contains more than 1200 stories of brainpower and intelligence from the Pre Qin Dynasty to the Ming Dynasty There are twenty eight sub categories of wisdom sagacity courage tact wisdom language military boudoir and so on This book records the history of creation and practice of Chinese wisdom The characters in the book are all using wisdom and strategy to create history It is not only a magic book reflecting the ancient people s ingenious use of wisdom to solve problems and overcome enemies but also a huge intellectual treasure in the history of Chinese culture

Inventing the Internet Janet Abbate, 2000-07-24 Janet Abbate recounts the key players and technologies that allowed the Internet to develop but her main focus is always on the social and cultural factors that influenced the Internet s design and use Since the late 1960s the Internet has grown from a single experimental network serving a dozen sites in the United States to a network of networks linking millions of computers worldwide In Inventing the Internet Janet Abbate recounts the key players and technologies that allowed the Internet to develop but her main focus is always on the social and cultural factors that influenced the Internets design and use The story she unfolds is an often twisting tale of collaboration and conflict among a remarkable variety of players including government and military agencies computer scientists in academia and industry graduate students telecommunications companies standards organizations and network users The story starts with the early networking breakthroughs formulated in Cold War think tanks and realized in the Defense Department s creation of the ARPANET It ends with the emergence of the Internet and its rapid and seemingly chaotic growth Abbate looks at how academic and military influences and attitudes shaped both networks how the usual lines between producer and user of a technology were crossed with interesting and unique results and how later users invented their own very successful applications such as electronic mail and the World Wide Web She concludes that such applications continue the trend of decentralized user driven development that has characterized the Internet s entire history and that the key to the Internet s success has been a commitment to flexibility and diversity both in technical design and in organizational culture
