Comm. on Expenditures in the Executive Departments, 1948 *The Invention of Party Politics* Gerald Leonard, 2003-10-15 This ambitious work uncovers the

constitutional foundations of that most essential institution of modern democracy the political party Taking on Richard Hofstadter's classic *The Idea of a Party System* it rejects the standard view that Martin Van Buren and other Jacksonian politicians had the idea of a modern party system in mind when they built the original Democratic party Grounded in an original retelling of Illinois politics of the 1820s and 1830s the book also includes chapters that connect the state level narrative to national history from the birth of the Constitution to the Dred Scott case In this reinterpretation Jacksonian party builders no longer anticipate twentieth century political assumptions but draw on eighteenth century constitutional theory to justify a party division between the democracy and the aristocracy Illinois is no longer a frontier latecomer to democratic party organization but a laboratory in which politicians use Van Buren's version of the Constitution states rights and popular sovereignty to reeducate a people who had traditionally opposed party organization The modern two party system is no longer firmly in place by 1840 Instead the system remains captive to the constitutional commitments on which the Democrats and Whigs founded themselves even as the specter of sectional crisis haunts the parties constitutional visions
