Social And Economic History Of Mediaeval Europe University Paperbacks:

An Economic and Social History of Later Medieval Europe, 1000-1500 Steven A. Epstein, 2009-04-27 This book examines the most important themes in European social and economic history from the beginning of growth around the year 1000 to the first wave of global exchange in the 1490s These five hundred years witnessed the rise of economic systems such as capitalism and the social theories that would have a profound influence on the rest of the world over the next five centuries The basic story the human search for food clothing and shelter in a world of violence and scarcity is a familiar one and the work and daily routines of ordinary women and men are the focus of this volume Surveying the full extent of Europe from east to west and north to south Steven Epstein illuminates family life economic and social thought war technologies and other major themes while giving equal attention to developments in trade crafts and agriculture The great waves of famine and then plague in the fourteenth century provide the centerpiece of a book that seeks to explain the causes of Europe's uneven prosperity and its response to catastrophic levels of death Epstein also sets social and economic developments within the context of the Christian culture and values that were common across Europe and that were in constant tension with Muslims Jews and dissidents within its boundaries and the great Islamic and Tartar states on its frontier

An Introduction to Medieval History Dorothy Dymond, 2023-11-06 First Published in 1929 An Introduction to Medieval History presents a comprehensive overview of the social political and religious movements that inspired medieval civilization and still influence the civilization of our own day It brings crucial themes like the heritage of Rome church and the Empire the peasant and his Lord nations and kings empire and papacy the eastern empire and the Crusades transition to modern times decline of empire and papacy decline of feudalism and development of trade and towns and the Renaissance This introductory book is useful for history students in secondary schools and training colleges and general readers interested to know about the medieval times

The Later Middle Ages Isabella Lazzarini, 2021-04-29 Of all the sub periods in which European medieval history has been divided over time the later middle ages is possibly the one on which the burden of past and current grand narratives weighs the most Its chronological and geopolitical boundaries are shaped by a heavy narrative of decline or transition and consequently this period is often interpreted through the lenses of previous or following developments becoming in turn the tail end of the feudal communal imperial versus papal era or the announcement of modernity The Later Middle Ages addresses the urgent need to revise and rewrite the story of this period forging new critical and technical vocabularies not derived from the study of other periods By adopting a conscious approach towards temporal and spatial variety and by breaking the traditional and unitary narrative of decline and transition into one of many changes and continuities it charts the principal developments of late medieval Europe while opening up to different political cultures and societies throwing new light on older concepts and revealing analogies and differences with other geopolitical contexts Including maps illustrations a detailed chronology and a rich range of reading suggestions The Later Middle Ages aims at providing a first

introduction to a very complex dynamic and fascinating period for Europe and beyond *Out of the Ashes* Robin Williams-McClanahan, 2006 *Economic and Social History of Medieval Europe* Henri Pirenne, 1978 *Women, Family, and Society in Medieval Europe* David Herlihy, 1995 A selection of Herlihy's essays compiled as a tribute to his influence His particular interest in the nature of the family and the role of women within that unit is amply reflected in this volume Articles include Did women have a renaissance The Florentine Merchant family in the Middle Ages Biology and History Suggestions for a Dialogue Early Feminist Pioneers, Their Lives, and Their Reform Efforts Satish Sharma, 2020-12-24 Early feminist pioneers contributed much to the functioning and reform of society including making women's status and privileges equal to those of men However we still do not know enough about their efforts strategies sacrifices and attainments As such through a focus on the lives and contributions of eight early female pioneers of England and America from the seventeenth century to the early twentieth century this book helps to fill this gap Among these women were religious and educational reformers political activists social advocates abolitionists feminists community organizers pacifists internationalists and historians These women noticed many injustices done to their kind by men and society over the centuries and took brave actions at great personal costs to provide remedies Their respective backgrounds and interests were different but all of them desired more protection and the welfare of vulnerable populations nationally and internationally This book will be of interest to scholars and students in many fields and can also be adopted as a textbook in colleges and universities Regions, Institutions, and Agrarian Change in European History Rosemary Lynn Hopcroft, 1999 An institutional approach to agricultural development in Europe leading to the Rise of the West **Innovation and Creativity in Late Medieval and Early Modern European Cities** Karel Davids, Bert De Munck, 2016-05-23 Late medieval and early modern cities are often depicted as cradles of artistic creativity and hotbeds of new material culture Cities in renaissance Italy and in seventeenth and eighteenth century northwestern Europe are the most obvious cases in point But how did this come about Why did cities rather than rural environments produce new artistic genres new products and new techniques How did pre industrial cities evolve into centres of innovation and creativity As the most urbanized regions of continental Europe in this period Italy and the Low Countries provide a rich source of case studies as the contributors to this volume demonstrate They set out to examine the relationship between institutional arrangements and regulatory mechanisms such as citizenship and guild rules and innovation and creativity in late medieval and early modern cities They analyze whether in what context and why regulation or deregulation influenced innovation and creativity and what the impact was of long term changes in the political and economic sphere **Research in Economic History** Christopher Hanes, Susan Wolcott, 2018-08-06 Volume 34 contains articles on the economic history of Europe North America and South America and brings new analysis and newly created datasets to address issues of interest **Report of the President of the Johns Hopkins University, Baltimore, Maryland** Johns Hopkins University, 1894 Annual Report of the President of the Johns Hopkins University, Baltimore,

Maryland Johns Hopkins University, 1893 *Power Elites and State Building* Wolfgang Reinhard, 1996 The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders The modern European state defined by a continuous territory with a distinct borderline and complete external sovereignty by the monopoly of every kind of legitimate use of force and by a homogeneous mass of subjects each of whom has the same rights and duties is the outcome of a thousand years of shifting political power and developing notions of the state This major study sets out to examine the processes of state formation and the creation of power elites A team of leading European historians explores the dominant institutions and ideologies of the past and their role in the creation of the contemporary nation state **Women and Gender in Medieval Europe** Margaret C.
