Marsella, Ayda Aukahi Austin, Bruce Grant, 2006-05-31 The Pacific Island oceanic and rim nations include many traditional societies and emerging nations that have experienced abusive histories of colonization exploitation and social change and upheaval Their peoples are struggling to restore traditional cultural heritages and identities in a world community dominated by Western values and lifestyles The conflicts uncertainties and instability of this transitional time are reflected in these populations current social and psychological difficulties This volume is one of the few devoted to these issues and covering a range of problems including substance abuse hopelessness violence crime abuse juvenile delinquency suicide and AIDS [Social Change and Psychosocial Adaptation in the Pacific Islands](#) Anthony J. Marsella, Ayda Aukahi Austin, Bruce Grant, 2008-11-01 [Family Violence and Social Change in the Pacific Islands](#) Lois Bastide, Denis Regnier, 2022-09-23 The Pacific Islands have some of the highest rates of family violence in the world Addressing the contemporary mutations of Pacific Island families and the shifting understandings of violence in the context of rapid social change this book investigates the conflict dynamics generated by these transformations The contributors draw from detailed case studies in a range of Pacific territories to examine family violence in relation to the social economic and political situation of native populations as well as individual collective and institutional responses to the development of violence within and upon the family They focus on vernacular understandings conflicting social norms the emergence of different types of violent patterns the impact of violence on individuals and communities and local attempts at mitigating or combating it Combining ethnographic expertise with engaged scholarship this volume offers a vivid account of ongoing social change in Pacific Island societies and a crucial contribution to the understanding of family violence as a social process cultural construct and political issue This book will appeal to scholars with interests in the sociology of violence and the family Pacific studies development studies and the social and cultural anthropology of Oceania **Environmental Change and the World's Futures** Jonathan Paul Marshall, Linda H. Connor, 2015-08-27 Climate change and ecological instability have the potential to disrupt human societies and their futures Cultural social and ethical life in all societies is directed towards a future that can never be observed and never be directly acted upon and yet is always interacting with us Thinking and acting towards the future involves efforts of imagination that are linked to our sense of being in the world and the ecological pressures we experience The three key ideas of this book ecologies ontologies and mythologies help us understand the ways people in many different societies attempt to predict and shape their futures Each chapter places a different emphasis on the linked domains of environmental change embodied experience myth and fantasy politics technology and intellectual reflection in relation to imagined futures The diverse geographic scope of the chapters includes rural Nepal the islands of the Pacific Ocean Sweden coastal Scotland North America and remote rural and urban Australia This book will appeal to researchers and students in anthropology

sociology environmental studies cultural studies psychology and politics Resilience in the Pacific and the Caribbean Simon Hollis, 2020-10-26 This book critically examines the global diffusion and local reception of resilience through the implementation of Disaster Risk Reduction DRR programmes in Pacific and Caribbean island states Global efforts to strengthen local disaster resilience capacities have become a staple of international development activity in recent decades yet the successful implementation of DRR projects designed to strengthen local resilience remains elusive While there are pockets of success a gap remains between global expectations and local realities Through a critical realist study of global and local worldviews of resilience in the Pacific and Caribbean islands this book argues that the global advocacy of DRR remains inadequate because of a failure to prioritise a person orientated ethics in its conceptualization of disaster resilience This regional comparison provides a valuable lens to understand the underlying social structures that makes resilience possible and the extent to which local governments communities and persons interpret and modify their behaviour on risk when faced with the global message on resilience This book will be of much interest to students of resilience risk management development studies and area studies The Global Health Care Chain John Connell, 2008-12-12 This book provides the first detailed analysis of the growing phenomenon of the international migration of skilled health workers and reveals its exceptional significance for both sending and receiving countries **Internalized Oppression** Eric John Ramos David, 2013-12-09 Print CourseSmart Migration and Development in the South Pacific John Connell, 1990 Comparing Cultures Michael Schnegg, Edward D.
