War and Masculinity in Roman and Medieval Culture Jaakkojuhani Peltonen, Elina Pyy, Jussi Rantala, 2025-08-07 The chapters in this volume highlight the complexity and diversity of approaches to how ancient and medieval cultures understood martial masculinity and the significance warfare had on masculine values during the premodern era They also point to how these ideals were manifested in numerous environments covering topics from multiple points of view and using a variety of sources and methods In the ancient and medieval periods manliness was often understood as the ability to demonstrate bravery in war and eagerness to use violence in different situations While certain marginal groups such as philosophers and Christians promoted more peaceful ideals of masculinity war and masculinity were tightly connected to the cultures and societies of antiquity and the Middle Ages Indeed in Roman and later medieval culture warfare played an essential role in constructing ideals of proper manliness and masculinity This constructed masculinity manifested itself not only in written culture but also in everyday life both visually and bodily War and Masculinity in Roman and Medieval Culture is intended for those interested in ancient Roman and medieval culture particularly researchers and students of gender and masculinity in Classical Antiquity and the Middle Ages

Constructing the Medieval Sermon Roger Andersson, 2007 In considering the construction of medieval sermons the term construction has many meanings Those studied here range from questions about sermon composition with the help of artes praedicandi or model collections to a more abstract investigation of the mental construction of the concepts of sermon and preacher Sermons from a range of European countries written both in Latin and vernaculars are subjected to a broad variety of analyses The approach demonstrates the vitality of this sub discipline Most of the essays are more occupied with literary and philological problems than with the religious content of the sermons While many focus on vernacular sermons the Latin cultural and literary background is always considered and shows how vernacular preaching was in part based on a more learned Latin culture The collection testifies both to the increasing esteem of the study of vernacular sermons and to a revival in the study of all

those things contained in a preacher's workshop ranging from rhetorical invention medieval library holdings and study aids through to factors that are crucial for the successful delivery of the sermon such as the choice of language mnemonic devices and addressing the audience The interdisciplinary approach remains ever present not only in the diversity of the academic disciplines represented but also within individual essays The volume is based on a conference held in Stockholm 7-9 October 2004

Encountering Others, Understanding Ourselves in Medieval and Early Modern Thought Nicolas Faucher, Virpi Mäkinen, 2022-12-05 Recent research has challenged our view of the Abrahamic religious traditions as unilaterally intolerant and incapable of recognizing otherness in all its diversity and richness but a diachronic and comparative study of how these traditions deal with otherness is yet to appear This volume aims to contribute to such a study by presenting different treatments of otherness in medieval and early modern thought Part I Altruism deals with attitudes and behaviors that benefit others regardless of its motives We deal with the social rights and emotions as well as the moral obligations that the very existence of other human beings whatever their characteristics creates for a community Part II Religious recognition and toleration considers identity toleration and mutual recognition created by the existence of religious or ethnic otherness in a given social religious or political community Part III Evil deals with religious otherness that is considered evil and rejected such as heretics and malevolent demonic entities The volume will ultimately inform the reader on the nature of religious toleration including beliefs and doctrines even emotions as well as of the self definition of religious communities when encountering and defining otherness in different ways The Sunday Sermons of St. Bonaventure Saint Bonaventure (Cardinal), 2008 This unquestionably authentic work of Bonaventure provides the careful reader with rich meditation through the liturgical year as well as new insights into the spiritual and apostolic formation of Bonaventure's Franciscan confreres With a strong Introduction and supporting Notes this new translation of Bonaventure's work by Timothy J Johnson shines a new light on one of the great doctors of the Church *A Repertorium of Middle English Prose Sermons: Oxford, Hertford College to York, Borthwick Institute for Archives. sources but it can also be read as a general introduction. It crosses boundaries between different fields of learning and traditionally accepted time periods of history. Even if it is essentially a book on medieval man, it stretches far beyond the middle ages as conventionally understood. The final chapter traces the slow disappearance of the medieval mentality until the early nineteenth century.

Fragments of a World Lesley Smith, 2023-05-30

The first modern biography of medieval French scholar and bishop William of Auvergne. Today William of Auvergne (1180-1249) is remembered for his scholarship about the afterlife as well as the so-called Trial of the Talmud. But the medieval bishop of Paris also left behind nearly 600 sermons delivered to all manner of people from the royal court to the poorest in his care. In *Fragments of a World*, Lesley Smith uses these sermons to paint a vivid picture of this extraordinary cleric, his parishioners, and their bustling world. The first modern biography of the influential teacher, bishop, and theologian, *Fragments of a World* casts a new image of William of Auvergne for our times, deeply attuned to both the spiritual and material needs of an ever-changing populace in the medieval city.
