**Mergers and Acquisitions** Mark E. Mendenhall, 2005 This book examines the dynamics of the sociocultural processes inherent in mergers and acquisitions and draws implications for post merger integration management

*Behaving as a Christ-Believer* Rikard Roitto, 2021-12-02 This study contributes to the understanding of how first century Christ believers particularly those who shared the imagination of Ephesians experienced the relation between their social identity as Christ believers and behavior norms In order to understand this a number of theories from the cognitive sciences are used in combination with historical critical methods After a theoretical survey of relevant cognitive theories and discussions about the epistemological problems of using cognitive theories on historical texts the theories are used to understand a how Ephesians imagines the relation between identity and behavior norms and b the potential group dynamic effects of this imagination The result is a demonstration of how Ephesians is able to create a coherent narrative beginning with God's agency and ending with behavior norms and facilitating psychological and group dynamic effects such as intergroup distinction self esteem cognitive certainty and consensus among group members intragroup cooperation moral judgment and inclusion marginalization motivation to remain committed and last but not least a sense of capacity and

obligation to act morally      *THE HISTORICAL FORMATION OF GERMANY'S EUROPEAN IDENTITY* Dr. Melek Aylin Özoflu, 2024-06-17 The European integration process aimed to foster a sense of common European identity enhancing the European public's sense of belonging and identification with the European community This goal is vividly reflected in Jean Monnet's 1952 statement We are not bringing together states we are uniting people In this context forming a collective European identity has emerged as a process in the making boosted often by the symbols of solidarity such as common currency motto flag and anthem This book delves into the historical process of European identity formation in Germany presenting a unique case where its post war national identity was constructed hand in hand with the European identity resulting in relatively higher levels of identification compared to other member states While doing this it leverages the core principles of Social Identity Theory SIT to enlighten the temporal dimensions of identity i e past present and future reflecting upon the continuity within the Europeanization and EU ization processes This book provides readers with a deeper understanding of the historical foundations of the European identity and its successful blossoming in Germany Its extensive literature review contributes significantly to European studies making it an essential read for scholars and enthusiasts alike

What's Social about Social Cognition? Judith L. Nye, Aaron M. Brower, 1996-05-22 Cognition research has become a major area within psychology particularly social psychology However social cognitive research tends to focus on the individual neglecting the impact of social interaction on the individual's cognitive processes while group process research tends to neglect the cognitive processes of individual group members and their influence on the group This volume fills these gaps in the literature and brings the two research areas together contributions from key scholars in both fields offer empirical research that moves beyond the traditional boundaries of social cognition and small group research      *Rethinking the Color Line* Charles A. Gallagher, 2022-01-20 Rethinking the Color Line helps make sense of how race and ethnicity influence aspects of social life in ways that are often made invisible by culture politics and economics Charles A Gallagher has assembled a collection of readings that are theoretically informed and empirically grounded to explain the dynamics of race and ethnicity in the United States Students will be equipped to confidently navigate the issues of race and ethnicity examine its contradictions and gain a comprehensive understanding of how race and ethnic relations are embedded in the institutions that structure their lives User friendly without sacrificing intellectual or theoretical rigor the Seventh Edition has been thoroughly updated to reflect the current debates and the state of contemporary U S race relations      *The Oxford Handbook of the Psychology of Competition* Stephen M. Garcia, Avshalom Tor, Andrew J. Elliot, 2024 The Oxford Handbook of the Psychology of Competition reviews and organizes the literature on the psychology of competition and brings together leading researchers studying competition across the field of psychology This volume is a crucial interdisciplinary investigation into the variety of perspectives and approaches to the psychology of competition facilitating new research and integration in the field      *Encyclopedia of Identity* Ronald L. Jackson II, 2010-06-29 The two volumes of this encyclopedia seek to explore

myriad ways in which we define ourselves in our daily lives. Comprising 300 entries, the Encyclopedia of Identity offers readers an opportunity to understand identity as a socially constructed phenomenon, a dynamic process both public and private, shaped by past experiences and present circumstances and evolving over time. Offering a broad, comprehensive overview of the definitions, politics, manifestations, concepts, and ideas related to identity, the entries include short biographies of major thinkers and leaders as well as discussions of events, personalities, and concepts. The Encyclopedia of Identity is designed for readers to grasp the nature and breadth of identity as a psychological, social, anthropological, and popular idea.

**Key Themes:** Art, Class, Developing Identities, Gender, Sex, and Sexuality, Identities in Conflict, Language and Discourse, Living Ethically, Media and Popular Culture, Nationality, Protecting Identity, Race, Culture and Ethnicity, Relating Across Cultures, Religion, Representations of Identity, Theories of Identity.

**Migrants and Their Children in Britain** Anthony Heath, 2016-01-22. Do second generation ethnic minorities, those born and brought up in Britain, increasingly adopt British attitudes, values, and ways of life, or do they, as some commentators have claimed, remain isolated from the mainstream? This study maps the extent of generational change among Britain's ethnic minority population and explores the underlying processes involved. It asks whether generational change has been in the direction of greater integration, or whether some minorities have been slower to integrate, perhaps as a result of the prejudice and discrimination from the white British that they have encountered, or because of desires to maintain ethnic values and resist Western practices. The study draws on the most recent and most authoritative British data to answer these questions. Chapter authors include leading authorities both from Britain and America, including Mary Waters, Harvard; Lucinda Platt, LSE; and Anthony Heath, CBE, Oxford and Manchester, as well as a new generation of young scholars. It will be essential reading both for students and scholars working on ethnic relations and for policy makers and the wider public interested in questions of social cohesion, multiculturalism, and integration. This book was originally published as a special issue of *Ethnic and Racial Studies*.

**Managing Boundaries in Organizations** N. Paulsen, T. Hernes, 2003-05-09. Drawing together an international group of scholars, this book provides fresh and provocative perspectives on boundaries in organizations. The emergence, management, and transformation of organizational boundaries is intrinsic to modern organization and poses one of the most persistent and potentially rewarding challenges to researchers and managers alike. The book offers the latest insights into the nature of boundaries, how they may be interpreted and studied, as well as implications for managing. The chapters include theoretical perspectives and cases from Europe, Canada, the USA, Australia, the Middle East, and Africa.

**Let My People Go!** Phoebe Chifungu, 2023-08-29. Let my people go and serve Me, regardless of sex, is the ultimate appeal from God. Unfortunately, some cultural practices and wrong interpretations of the Bible have excluded some, especially women, from attaining key leadership roles. Culturally, women are considered second class, and men's property, source of evil, and weaker vessels. A wrong interpretation of the scriptures has sidelined women from obtaining decision-making positions. This is the result of what may be called a One Dimensional

Approach and a recommendation is made to re read the biblical texts as well as Chewa culture and the history of the synod with a Multi Dimensional Approach in which the literary theological rhetorical and historical cultural aspects are all considered because this approach liberates the oppressed and the marginalized The SAGE Encyclopedia of Intercultural Competence Janet M. Bennett,2015-03-23 In 1980 SAGE published Geert Hofstede s Culture s Consequences It opens with a quote from Blaise Pascal There are truths on this side of the Pyrenees that are falsehoods on the other The book became a classic one of the most cited sources in the Social Science Citation Index and subsequently appeared in a second edition in 2001 This new SAGE Encyclopedia of Intercultural Competence picks up on themes explored in that book Cultural competence refers to the set of attitudes practices and policies that enables a person or agency to work well with people from differing cultural groups Other related terms include cultural sensitivity transcultural skills diversity competence and multicultural expertise What defines a culture What barriers might block successful communication between individuals or agencies of differing cultures How can those barriers be understood and navigated to enhance intercultural communication and understanding These questions and more are explained within the pages of this new reference work Key Features 300 to 350 entries organized in A to Z fashion in two volumes Signed entries that conclude with Cross References and Suggestions for Further Readings Thematic Reader s Guide in the front matter grouping related entries by broad topic areas Chronology that provides a historical perspective of the development of cultural competence as a discrete field of study Resources appendix and a comprehensive Index The SAGE Encyclopedia of Intercultural Competence is an authoritative and rigorous source on intercultural competence and related issues making it a must have reference for all academic libraries

**Individuality and the Group** Tom Postmes,Jolanda Jetten,2006-06-12 Social identity research has transformed psychology and the social sciences Developed around intergroup relations perspectives on social identity have now been applied fruitfully to a diverse array of topics and domains including health organizations and management culture politics and group dynamics In many of these new areas the focus has been on groups but also very much on the autonomous individual This has been an exciting development and has prompted a rethinking of the relationship between personal identity and social identity the issue of individuality in the group This book brings together an international selection of prominent researchers at the forefront of this development They reflect on this issue of individuality in the group and on how thinking about social identity has changed Together these chapters chart a key development in the field how social identity perspectives inform understanding of cohesion unity and collective action but also how they help us understand individuality agency autonomy disagreement and diversity within groups This text is valuable to advanced undergraduate and postgraduate students studying social psychology where intergroup relations and group processes are a central component Given its wider reach however it will also be of interest to those in cognate disciplines where social identity perspectives have application potential *Segregation in the New South* Carl V. Harris,W. Elliot Brownlee,2022-11-09 Carl V Harris s

Segregation in the New South completed and edited by W Elliot Brownlee explores the rise of racial exclusion in late nineteenth century Birmingham Alabama In the 1870s African Americans in this crucial southern industrial city were eager to exploit the disarray of slavery s old racial lines assert their new autonomy and advance toward full equality However most southern whites worked to restore the restrictive racial lines of the antebellum South or invent new ones that would guarantee the subordination of Black residents From Birmingham s founding in 1871 color lines divided the city and as its people strove to erase the lines or fortify them they shaped their futures in fateful ways Social segregation is at the center of Harris s history He shows that from the beginning of Reconstruction southern whites engaged in a comprehensive program of assigning social dishonor to African Americans the same kind of dishonor that whites of the Old South had imposed on Black people while enslaving them In the process southern whites engaged in constructing the meaning of race in the New South

**Who Counts as an American?** Elizabeth Theiss-Morse, 2009-07-27 Why is national identity such a potent force in people s lives And is the force positive or negative In this thoughtful and provocative book Elizabeth Theiss Morse develops a social theory of national identity and uses a national survey focus groups and experiments to answer these important questions in the American context Her results show that the combination of group commitment and the setting of exclusive boundaries on the national group affects how people behave toward their fellow Americans Strong identifiers care a great deal about their national group They want to help and to be loyal to their fellow Americans By limiting who counts as an American though these strong identifiers place serious limits on who benefits from their pro group behavior Help and loyalty are offered only to true Americans not Americans who do not count and who are pushed to the periphery of the national group

**Linguistic Variation** Rena Torres Cacoullos, Nathalie Dion, André Lapierre, 2014-10-24 Linguistic Variation Confronting Fact and Theory honors Shana Poplack in bringing together contributions from leading scholars in language variation and change The book demonstrates how variationist methodology can be applied to the study of linguistic structures and processes It introduces readers to variation theory while also providing an overview of current debates on the linguistic cognitive and sociocultural factors involved in linguistic patterning With its coverage of a diverse range of language varieties and linguistic problems this book offers new quantitative analyses of actual language production and processing from both top experts and emerging scholars and presents students and practitioners with theoretical frameworks to meaningfully engage in accountable research practice

**Another Brick in the Barricade: The Gezi Resistance and Its Aftermath** Güneş Koç, Harun Aksu, 2015-10-30 After more than two years what has remained of the Gezi Park protests Is Gezi s critique of political power still valid What has changed after Gezi These valid questions linger not properly answered not yet properly discussed Perhaps Gezi s enduring effects and legacy can be discovered in the resistances dissents and practices of political critique that have been created since June 2013 In this book fourteen authors discuss and elaborate on such questions from both political and quotidian perspectives Critique of the power of the multitude the anthropology and

ethnography of resistance the causes effects and continuity of the Gezi Park protests are among the issues covered in *Another Brick in the Barricade: The Gezi Resistance and Its Aftermath*. This book does not offer all explaining narratives of singular objective truths. It does not represent the whole of the multitude. A wide perspective of analyses ranging from political science to sociology psychology to anthropology economics to media studies consider Gezi resistance not only as an exceptional state of resistance but also in terms of the new possibilities it offers for political critique. These possibilities constitute the fieldwork for academic studies which in turn become part of social struggle. This volume seeks to make diversity its distinguishing aspect. The phenomena it considers Gezi and its aftermath requires this. The interdisciplinary approach and variety of discussions in the volume provide not just critique about power and dominance in Turkey but also inspire resistance against domination and power around the world.
