

A complex collage representing social problems. The background features a city skyline with smoke rising from it, suggesting industrial pollution. In the center, a large blue whale is depicted, possibly representing environmental issues. To the left, a crowd of people is shown, with one person holding a sign that says "CENTRE". In the foreground, a young child is looking up, and several people are wearing blue headscarves. The overall scene is a mix of urban, natural, and human elements, symbolizing the interconnectedness of social and environmental issues.

**Recent Social Trends in Canada, 1960-2000** Lance W. Roberts, 2005 Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports *Recent Social Trends in Canada* concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the McGill Queen s Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

**Social Problems in Canada** Adie Nelson, Augie Fleras, 1998 Discusses addictions sex and sexuality crime inequality and poverty gender race ethnicity and aboriginality family media work and workplaces globalization and global problems etc *Handbook of Social Problems* George Ritzer, 2004 Ritzer s *Handbook of Social Problems* offers a comprehensive treatment of today s major societal issues The articles are authored by some of the top scholars in the field and address problem areas that will capture the interests of students and professors alike The international coverage is most welcome in this time of intensifying global inequalities Nancy Jurik Arizona State University The *Handbook of Social Problems A Comparative International Perspective* provides a unique broadly comparative perspective on the current state of social problems and deviance in a variety of societies around the world Editor George Ritzer along with leading U S and international sociologists examines the relationship between social problems and a society s level of development and affluence The essays in this volume focus on four interrelated issues involved in the relationship between social problems and the level of development and affluence Less developed and less affluent societies are more likely to experience a range of social problems than developed and affluent societies Affluence causes or at least brings with it a series of social problems that do not exist in less affluent societies It is only with affluence that certain things can come to be imagined as social problems such as excessive consumption The very affluence of a society makes it vulnerable to problems that would not be social problems in poorer societies The *Handbook* explores the theory of the weakness of the strong in other words strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies This theory is clearly illustrated in this volume by the aftermath of September 11 2001 depicting the vulnerability of the U S to social problems in far removed corners of the world In addition the international and comparative essays in this volume cover other important issues such as the impact of modern technologies on social problems ecological problems global inequality health as a social problem and much more The

**Collective Morality and Crime in the Americas** Christopher Birkbeck, 2012-12-07 This study examines the ways in which the moral community is talked into being in relation to crime and the objects of concern that typically occupy its attention It maps the imagined moral universe of the virtuous and the criminal and charts the relations between these two groups in the history of the present It examines the calls to action which symbolically endow the moral community with power And it looks at the character and content of collective moralizing The source materials are commentaries about crime and criminal justice appearing in selected newspapers across the Americas

The moral talk found there is stylized routine trivial and occasionally dramatic It looks nothing like the weightier renderings of morality that derive from the reconstruction of a particular ethic or from the systematic probing of values and moral reasoning And its fuzzy offhand unexceptional and frequently unsystematic nature makes it a difficult candidate for explaining either stability or change in crime policies But moral talk has intrinsic importance as the creator and sustainer of an imagined moral community a community that symbolizes the existence and vigor of morality itself and confers a crucially important identity on its self proclaimed members And moral talk reveals inherent intersections between normative empirical and technical discourses highlighting the relationships between morality science and social engineering Thus a prosaic instrumental model of morality is particularly strong in North America but only found in a more abstract form in Latin America where it sits alongside a stirring vision of morality more directly anchored in virtue Research on social problems moral panics and the sociology of morality has largely overlooked the type of moral discourse studied here While emphasizing the culturally contingent nature of the findings the conclusion reflects on their significance for understanding the nature of moralizing the artifacts of talk and the construction of identity

*Social Problems and Social Justice* Neil Thompson, 2017-09-16 Modern society is beset by a vast range of problems such as poverty homelessness and terrorism that cause immense suffering for a significant number of people These social problems both reflect and contribute to wider inequalities consequently in order to develop a true understanding of them we must consider the social injustices with which they are inextricably linked In this ground breaking text Neil Thompson turns his attention to the range of complex issues relating to social problems and social justice and the relationship between them With the help of engaging features that have become synonymous with his books Thompson provides a clear exploration of some key social problems currently challenging us analysis of the connection between social problems and social justice and a review of how social policy initiatives to tackle these issues have fared to date Innovative and absorbing *Social Problems and Social Justice* is essential reading for students and practitioners across a wide range of social science disciplines and the social professions

*How Claims Spread* Joel Best, Best's anthology examines for the first time how diverse social issues road rage the metric system gun control and abortion are among those included migrate across national boundaries modifying themselves from place to place as a result of different claims claimsmakers and policy responses This unique collection assembled from new research by an international group of social problems scholars will fill a gap in undergraduate and graduate level studies in the

constructionist analyses of social problems as well as in political science public policy and criminology Claims concerning one social problem often influence those about another claimsmakers borrow rhetoric and tactics from one another In some cases experienced claimsmakers join efforts to call attention to other social problems compelling images e g the threatened child or random violence link claims about different problems and reactions to one set of claims These case studies describe very different processes ranging from deliberate attempts to disseminate social problem claims to developments that were more inadvertent from successes in which social problem constructions spread to new countries to failures in which claims were sown but failed to take root They are intended to suggest that the diffusion of social problems is neither simple nor automatic Joel Best is professor and chair Department of Sociology and Criminal Justice University of Delaware He has served as an editorial advisor for Aldine that has produced fifty titles The Canadian Annual Review of Public Affairs ,1925
