Interns perform tasks such as making agendas and discussing specifics with directors or field instructors. Other responsibilities included case management, assessing client requirements, and considering available treatments. Interns may also suggest remedies for pressing problems. I want to work as a medical social worker because one must have a formal education. An individual must first obtain a bachelor's degree from a four-year college to work as a social worker. Most individuals who follow this course for four years in college will graduate with a bachelor's degree in social work or a closely linked discipline such as psychology, sociology, public administration, or child development. Secondly, one might be working a lot, and it is no secret that working as a social worker can be challenging. Due to the several simultaneous events, social workers can anticipate a heavy workload: there will always be more work to do.

I want to practice as a social worker in a school because of many factors. Firstly, outstanding work schedule, as mentioned before, contracts for school social workers are frequent for nine months. As a result, summers will be off; additionally, weekend and holiday work is not required of school social workers. Winter vacation and spring break are also to be expected. Social workers in schools may have more extended contracts, including ones lasting ten months. One still receives two months of vacation time throughout the year, though: that is rather good.

Other advantages of being a school social worker include possibilities for lifelong learning; as was already mentioned, some school districts contribute to all or a portion of the cost of social workers' continuing education. Many school districts will contribute to the cost of continuing education credits, higher degrees, certifications, or even just attending a conference. Additionally, a person can be given additional time off to finish their studies if they are working towards a certificate or degree. Traveling to a college campus to take classes is relatively unusual, and many school systems give social workers the additional time they require to accommodate their studies.
