Encyclopedia of Canadian Social Work Francis J. Turner, 2009-07-23 All of us as Canadians are touched throughout our lives by some aspect of social welfare either as recipients donors or taxpayers But despite the importance of the social network in our country there has been no single source of information about this critical component of our society Even professionals in the field of social work or social services have not had a comprehensive volume addressing the myriad

features of this critical societal structure The Encyclopedia of Canadian Social Work fills this need Over five hundred topics important to Canadian social work are covered written by a highly diverse group of social workers covering all aspects of the field and all areas of the country Practitioners policy makers academics social advocates researchers students and administrators present a rich overview of the complexity and diversity of social work and social welfare as it exists in Canada The principal finding from this project underscores the long held perception that there is a Canadian model of social work that is unique and stands as a useful model to other countries The Encyclopedia of Canadian Social Work will be an important source of information both to Canadians and to interested groups around the world The Encyclopedia of Canadian Social Work is available in e book version by subscription or from university and college libraries through the following vendors Canadian Electronic Library Ebrary MyiLibrary and Netlibrary *Brain, School, and Society* Alireza Moula,2017-05-22 This book reports on a research program designed to construct the basics of a new type of literacy that teaches pupils social problem solving at individual and collective levels It is the first of a series of books about a chain of intervention research subprojects started in 2009 teaching pupils basic skills to make well balanced decisions to resolve conflicts in a nonviolent manner and to develop good social relationships and responsibility critical thinking and other abilities which give children and young people the tools needed to pursue their options in life According to the United Nations there is no systematic program in schools that develops these capacities in pupils This volume fills the gap by describing successful classroom interventions and by developing a framework for social problem solving literacy as mandated by the United Nations Child Convention Working Inter-Culturally in Counselling Settings Aisha Dupont-Joshua,2003-09-02 Explores how racial issues can be recognised and worked with in a practical clinical setting looking at how this setting can influence practice

Tilbury,2014-05-18 Casework in Context A Basis for Practice discusses the methodologies and techniques utilized in social case studies The book also covers the specific applications of caseworks along with some issues that can be encountered while in the practice The text first details the social work and society as well as the development of social work conceptualization Next the book tackles topics related to interviewing such as client needs and worker response treatment goals methods and plans and case work process The next part of the text deals with the differential uses of casework The last part covers topics about the activities of a social worker outside an interview The book will be of great use to researchers and practitioners in disciplines that involve research studies in a social setting such as psychology sociology and anthropology **Adolescents** Inger P. Davis,2012-12-06 This book deals with ways of helping families cope with the difficulty of raising adolescents Professional social workers along with other human service professionals encounter these families in numerous settings child welfare and family service agencies hospitals schools community mental health clinics residential treatment centers juvenile halls and detention centers recreational and vocational training organizations and many others While families from all walks of life may be found in these settings families

who have suffered the additional stresses of poverty discrimination and the consequences of physical and mental illness are commonly overrepresented Even under the best of circumstances the adolescent years often put the strongest family structures to the test sometimes to the breaking point A recent national study of over one thousand average middle income two parent families reviewed the strengths stresses and satisfactions of the family life cycle Olson and McCubbin 1983 As many would expect families with adolescents were found to experience more stress and lower levels of family adaptability cohesion and marital and family satisfaction than any other developmental stage The families with adolescents who fared best were those with such marital resources as good communication and conflict resolution skills satisfying sexual relations and good parent adolescent communication
