Legal Systems and Incest Taboos John R. Commons,Yehudi A. Cohen,2017-07-12 The goal of this book is to investigate why there are two distinct notions of liability in the legal and ethical systems of different societies the relationship between two sets of criteria of liability and the individual s evolution from childhood adolescence The specific ways in which different societies cope with the transition from childhood to adolescence are important because a sense of responsibility consonant with the goals of the society and survival of family and culture is implanted in the growing child The ways in which incest taboos are taught constitute one of the crucial modes by which a sense of responsibility is implanted within an individual during his transition from childhood to adolescence The author places most of his focus on social systems the transition from childhood to adolescence Theoretical concerns are with the ways in which human biology and human social structures impact each other The fact that wide variations do exist among societies in connection with certain types of incest taboos does not lead inevitably to the conclusion that there is no biological basis for the incest taboo The immediate impression of variability can be misleading extreme differences between cultures in the same institutional realm as between individuals often reveals remarkable regularity and consistency These regularities are seen in the cultural phenomena the assumption that biology and culture are bound up in their manifestations is fundamental in understanding their nature The Making of

Reconsidered P. E. Digeser, 2016-09-06 In the history of Western thought friendship's relationship to politics is checkered. Friendship was seen as key to understanding political life in the ancient world but it was then ignored for centuries. Today friendship has again become a desirable framework for political interaction. In *Friendship Reconsidered* P. E. Digeser contends that our rich and varied practices of friendship multiply and moderate connections to politics. Along the way she sets forth a series of ideals that appreciate friendship's many forms and its dynamic relationship to individuality, citizenship, political and legal institutions, and international relations. Digeser argues that as a set of practices bearing a family resemblance to one another, friendship calls our attention to the importance of norms of friendly action and the mutual recognition of motive. Focusing on these attributes clarifies the place of self-interest and duty in friendship and points to its compatibility with the pursuit of individuality. She shows how friendship can provide islands of stability in a sea of citizen strangers and in a delegitimized political environment a bridge between differences. She also explores how political and legal institutions can both undermine and promote friendship. Digeser then looks to the positive potential of international friendships in which states mutually strive to protect the just character of one another's institutions and policies. Friendship's repertoire of motives and manifestations complicates its relationship to politics. Digeser concludes but it can help us realize the limits and possibilities for generating new opportunities for cooperation.

Cultural Anthropology Raymond Scupin, 2019-12-10 *Cultural Anthropology: A Global Perspective* delves into both classic and current research in the field, reflecting a commitment to anthropology's holistic and integrative approach. This text illuminates how the four subfields of anthropology—biological anthropology, archaeology, linguistics, and cultural anthropology—together yield a comprehensive understanding of humanity.

Intimate Strangers Vanessa Smith, 2010-10-28 When Louis Antoine de Bougainville reached Tahiti in 1768, he was struck by the way in which all these people came crying out *tayo*, which means friend, and gave a thousand signs of friendship. They all asked for nails and ear rings of us. Reading the archive of early contact in Oceania against European traditions of thinking about intimacy and exchange, Vanessa Smith illuminates the traditions and desires that led Bougainville and other European voyagers to believe that the first word they heard in the Pacific was the word for friend. Her book encompasses forty years of encounters from the arrival of the *Dolphin* in Tahiti in June 1767 through Cook's and Bligh's voyages to early missionary and beachcomber settlement in the Marquesas. It unpacks both the political and emotional significances of ideas of friendship for late eighteenth-century European and particularly British explorations of Oceania.

Wright, 1983-08 Russia is a huge storehouse of natural resources including oil, gas, and other energy sources which she can trade with the rest of the world for advanced technology and wheat. Fei Xiaotong and Sociology in Revolutionary China R. David Arkush, 2020-03-17 This biographical study of one of China's leading social scientists follows his life history and includes a bibliography of his books and articles Trained in London under Malinowski Fei Xiaotong achieved eminence in the 1930s and 1940s for his pioneering studies of Chinese peasant life and for his popular articles which stirred a wide audience in China to an awareness of social and political problems A non Marxist who came to sympathize with the Communists Fei was gradually constrained in his activities after the Revolution until in the 1950s a massive propaganda campaign vilified him as a bourgeois rightist intellectual Almost twenty years of silence and disgrace followed Following the death of Mao Fei suddenly reemerged as a leader in the effort to revitalize the social sciences in China The story of Fei's life told here is in a sense the story of Westernized intellectuals in China at a time of peasant revolution His writings enunciate the views of a sensitive observer of Chinese and Western society during that period of dramatic change

NIH Library Booklist, 1961 'Ungainefull Arte' Richard A. McCabe, 2016-02-05 From antiquity to the Renaissance the pursuit of patronage was central to the literary career yet relationships between poets and patrons were commonly conflicted if not antagonistic necessitating compromise even as they proffered stability and status Was it just a matter of speaking lies to power The present study looks beyond the rhetoric of dedication to examine how traditional modes of literary patronage responded to the challenge of print as the economies of gift exchange were forced to compete with those of the marketplace It demonstrates how awareness of such divergent milieus prompted innovative modes of authorial self representation inspired or frustrated the desire for laureation and promoted the remarkable self reflexivity of Early Modern verse By setting English Literature from Caxton to Jonson in the context of the most influential Classical and Italian exemplars it affords a wide comparative context for the reassessment of patronage both as a social practice and a literary theme

Cooperation and Competition Among Primitive Peoples Margaret Mead, 2018-02-06 In many respects this volume is a pioneer effort in anthropological literature It remains firmly part of the genre of cooperative research or interdisciplinary research though at the time of its original publication that phrase had yet to be coined Additionally this work is more theoretical in nature than a faithful anthropological record as all the essays were written in New York City on a low budget and without fieldwork The significance of these studies lies in the fact that Cooperation and Competition Among Primitive Peoples was the first attempt to think about the very complex problems of cultural character and social structure coupled with a meticulous execution of comparative study
