after 2007 but also enabled their more permanent settlement in Germany The study also provides statistical evidence that EU citizenship contributed to better legal integration of Bulgarian migrants in Germany but national policies shaped to a greater extent their integration in terms of participation in the core areas of life Restrictive policies such as transitional periods in the freedom of work hampered labour market integration and created more disadvantaged positions for workers Inclusive policies such as the dual citizenship policy facilitated the naturalisation of settled migrants and led to exceptionally high naturalisation rates for Bulgarians that point to their successful integration in society However integration successes remain almost unnoticed in public discourse which is dominated by the image of Bulgarian migration as a challenge *Social Work* Bamford, Terry, Bilton, Keith, 2020-06-09 This collection charts the key developments in the social work field from 1970 to the present day and shows how by fully understanding social work's past we can make better progress for practitioners and service users in the future It brings together a broad collection of experts from across social work who trace how thinking and approaches to practice have changed over time examine key legislative developments in the field look at the impacts of major inquiries and consider the re-emergence of certain specialisms Providing students and practitioners of social work and social policy with a full picture of the evolution of social work it also shares important insights for its future directions
