Societies Alex Thio,1994-07-01 **Societies** Peter B. Morill,Alex Thio,1991-01-01 *Reader's Guide to the Social Sciences* Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **Social and Cultural Anthropology** Nigel Rapport,Joanna Overing,2000 Social and Cultural Anthropology The Key Concepts is the ideal introduction to this discipline defining and discussing its central terms with clarity and authority Among the concepts explored are cybernetics ecriture the feminine gossip human Rights moralities stereotypes thick description and violence Each entry is accompanied by extensive cross referencing and an invaluable list of suggestions for further reading

Social-Cultural Anthropology George Allan Phiri,2009-09-01 Effective communication with the African society in the field of missions church planting and social development work has been and continues to be a great challenge particularly to people from western cultural and language orientation Africans are a we rather than I and a depended on rather than independent of society The worldview of a traditional African in terms of society relationships and communication is communal Certainly the African perception of communalism affects how they communicate with the people of different cultural orientation Africa has several cultures and people differ in their communication depending on their cultural orientation However there are universal African cultures that act as a framework for understanding key aspects of communication with Africans for successful missions church planting and social development work This book therefore provides a strategy of understanding communication with the African society The discussions in this book provide readers with different cultural orientations unique perception of the African society as s he may be planning to communicate with the African society for missions church planting and social development work even doing humanitarian ministry in African society Although literacy levels have improved tremendously in most African countries most of Africa is not a reading society It is imperative to understand that most Africans still communicate orally and are not time conscious Hence effective communication in African societies ought to be based on storytelling rather than literature distribution although this is in transition In fact Africans are oratory and good listeners Thus this book provides an understanding to people of different cultural orientations when they plan to communicate with the people in Africa *The Consumer Society Reader* Juliet Schor,Douglas B. Holt,2011-07-26 The Consumer Society Reader features a range of key works on the nature and evolution of consumer society Included here is much discussed work by leading critics such as Jean Baudrillard Susan Bordo Dick Hebdige bell hooks and Janice Radway Also included is a full range of classics such as Frankfurt School writers Adorno and Horkheimer on the Culture Industry Thorstein Veblen s oft cited writings on conspicuous consumption Betty Friedan on the

housewife's central role in consumer society John Kenneth Galbraith's influential analysis of the affluent society and Pierre Bourdieu on the notion of taste Consumer society the air we breathe as George Orwell has described it disappears during economic downturns and political crises It becomes visible again when prosperity seems secure cultural transformation is too rapid or environmental disasters occur Such is the time in which we now find ourselves As the roads clog with gas guzzling SUVs and McMansions proliferate in the suburbs the nation is once again asking fundamental questions about lifestyle Has luxury fever to use Robert Frank's phrase gotten out of hand Are we really comfortable with the Brand Is Me mentality Have we gone too far in pursuit of the almighty dollar to the detriment of our families communities and natural environment Even politicians ordinarily impermeable to questions about consumerism are voicing doubts and polls suggest majorities of Americans feel the country has become too materialistic too focused on getting and spending and increasingly removed from long standing non materialist values From the introduction by Douglas B Holt and Juliet B Schor *Readers and Society in Nineteenth-Century France* M. Lyons, 2001-07-24 In the nineteenth century the reading public expanded to embrace new categories of consumers especially of cheap fiction These new lower class and female readers frightened liberals Catholics and republicans alike The study focuses on workers women and peasants and the ways in which their reading was constructed as a social and political problem to analyse the fear of reading in nineteenth century France The author presents a series of case studies of actual readers to examine their choices and their practices and to evaluate how far they responded to or subverted attempts at cultural domination *Routledge Handbook of Social and Cultural Theory* Anthony Elliott, 2013-12-04 If today students of social theory read Jurgen Habermas Michel Foucault and Anthony Giddens then proper regard to the question of culture means that they should also read Raymond Williams Stuart Hall and Slavoj Zizek The Routledge Handbook of Social and Cultural Theory offers a concise comprehensive overview of the convergences and divergences of social and cultural theory and in so doing offers a novel agenda for social and cultural research in the twenty first century This Handbook edited by Anthony Elliott develops a powerful argument for bringing together social and cultural theory more systematically than ever before Key social and cultural theories ranging from classical approaches to postmodern psychoanalytic and post feminist approaches are drawn together and critically appraised There are substantive chapters looking at among others structuralism and post structuralism critical theory network analysis feminist cultural thought cultural theory and cultural sociology Throughout the Handbook there is a strong emphasis on interdisciplinarity with chapters drawing from research in sociology cultural studies psychology politics anthropology women's studies literature and history Written in a clear and direct style this Handbook will appeal to a wide undergraduate and postgraduate audience across the social sciences and humanities *Women, Reading, and the Cultural Politics of Early Modern England* Edith Snook, 2017-07-05 A study of the representation of reading in early modern Englishwomen's writing this book exists at the intersection of textual criticism and cultural history It looks at depictions of reading in devotional works maternal advice

books poetry fiction and manuscripts for evidence of ways in which women conceived of reading in sixteenth and early seventeenth century England Among the texts considered are Katherine Parr Lamentation of a Sinner Anne Askew The Examinations of Anne Askew Dorothy Leigh The Mothers Blessing Elizabeth Grymston Miscelanea Meditations Memoratives Anne Cornwallis s commonplace book Folger MS V a 89 Aemelia Lanyer Salve Deus Rex Judaeorum The Death and Passion of Our Lord Jesus Christ Bodleian MS Don e 17 and Mary Wroth The First Part of The Countess of Montgomery s Urania

Cultural Memory and Identity in Ancient Societies Martin Bommas,2011-10-06 In recent years memory has become a central concept in historical studies following the definition of the term Cultural Memory by the Egyptologist Jan Assmann in 1994 Thinking about memory as both an individual and a social phenomenon has led to a new way of conceptualizing history and has drawn historians into debate with scholars in other disciplines such as literary studies cultural theory and philosophy The aim of this volume is to explore memory and identity in ancient societies We are what we remember is the striking thesis of the Nobel laureate Eric R Kandel and this holds equally true for ancient societies as modern ones How did the societies of Mesopotamia Egypt Greece and Rome remember and commemorate the past How were relationships to the past both individual and collective articulated Exploring the balance between memory as survival and memory as reconstruction and between memory and historically recorded fact this volume unearths the way ancient societies formed their cultural identity
