offers a carefully and creatively wrought phenomenology of sound showing its relation to the proclamation of God's Word His keen insights on the primordial nature of sound speech and hearing will force theologians to examine once again what it means to be a hearer of the Word Webb masterfully displays the intrinsic relationship between dynamic listening and speech how intent hearing and confident proclamation are intimately conjoined He has the rare gift of combining acute theological insight with a mellifluous readable style The nature of God's own Word here becomes clearer vibrant and tensile life giving in tone and texture Whether examining Jesus as the voice of the Father the role of voice in innertrinitarian relations or the relationship between voice and gender Webb offers the kind of thought provoking and highly creative reflections rarely found elsewhere He has a creative and incisive theological mind Thomas Guarino Seton Hall University Being appreciative of Webb's earlier work on hyperbolic language in theology and preaching I welcomed *The Divine Voice* How risky to toss a spoken word into a room of silent readers and expect it to be heard I was reprimanded instructed and moved by the sound of this book Were I still in the seminary classroom *The Divine Voice* would be required reading before one word was said about how to preach Fred B Craddock The Craddock Center *The Divine Voice* is a book of academic theology worthy of the Psalmist who sang Day after day the word goes forth night after night the story is told Soundless the speech voiceless the talk yet the story is echoed throughout the world Ps 19:2-3 Stephen Webb is an acoustemological theologian for whom speech can be prayerful as silence and silence as instructive as proclamation When the sounds heard by faith reach Webb's ever insightful and creative mind only synesthesia could result and the result is a gift for us all Peter Ochs University of Virginia *American*

Aaron Simmons,Bruce Ellis Benson,Neal DeRoo,2023-06-29 Mainstream philosophy of religion has primarily focused on the truth and justification of religious beliefs even though belief is only one small facet of religious life This collection remedies this by taking practice and

embodied action seriously as fundamental elements of any philosophy of religion Emerging and established voices across different philosophical traditions come together to consider religious actions including public worship from perspectives such as trauma and social ontology sound and silence and knowledge and hope Embodied religious practice is viewed through the lens of liturgy intrinsically connecting religious rituals to human existence to show clearly that no matter where one finds oneself in terms of the so called analytic continental divide philosophy of religion must be concerned with more than just beliefs if it is to adequately deal with the subject matter of religion The purpose of these studies is not to reject what has gone before but to expand the focus of philosophy of religion This approach lays the groundwork for investigations into how beliefs are situated in our theological moral and social frameworks For any philosophy of religion student or scholar interested in how thinking and living well are intimately related this is a go to resource It takes seriously the importance of historical religious traditions and communities opening the space for cross cultural and interdisciplinary debates
