The Cambridge History of Seventeenth-Century Music Tim Carter, John Butt, 2005-12-22 The Cambridge History of Seventeenth Century Music seeks to provide the most up to date knowledge on seventeenth century music together with a vital questioning of the way in which such a history can be told or put together for our present purposes Written by a distinguished team of experts in the field the chapters not only address traditional areas of knowledge such as opera and church music but also look at the way this extremely diverse and dynamic musical world has been categorised in the past and how its products are viewed from various cultural points of view While this history does not depart entirely from the traditional study of musical works and their composers there is a strong emphasis on the institutions cultures and politics of the age together with an interrogation of the ways in which music related to contemporary arts sciences and beliefs

Musically Sublime Kiene Brillenburg Wurth, 2009-08-25 Musically Sublime rewrites musically the history and philosophy of the sublime Music enables us to reconsider the traditional course of sublime feeling on a track from pain to pleasure Resisting the notion that there is a single format for sublime feeling Wurth shows how from the mid eighteenth century onward sublime feeling is instead constantly rearticulated in a complex interaction with musicality Wurth takes as her point of departure Immanuel Kant's Critique of Judgment and Jean-François Lyotard's aesthetic writings of the 1980s and 1990s Kant framed the sublime narratively as an epic of self-transcendence By contrast Lyotard sought to substitute open immanence for Kantian transcendence yet he failed to deconstruct the Kantian epic The book performs this deconstruction by juxtaposing eighteenth and nineteenth century conceptions of the infinite Sehnsucht the divided self and unconscious drives with contemporary readings of instrumental music Critically assessing Edmund Burke James Usher E.T.A. Hoffmann Novalis Friedrich Hölderlin Arthur Schopenhauer Richard Wagner and Friedrich Nietzsche this book re-presents the sublime as a feeling that defers resolution and hangs

suspended between pain and pleasure Musically Sublime rewrites the mathematical sublime as difference while it redresses the dynamical sublime as trauma unending undetermined unresolved Whereas most musicological studies in this area have focused on traces of the Kantian sublime in Handel Haydn and Beethoven this book calls on the nineteenth century theorist Arthur Schopenhauer to analyze the sublime of rather than in music It does so by invoking Schopenhauer's concept of formwidrigkeit form contrariness in juxtaposition with Romantic piano music post modernist musical minimalisms and Lyotard's postmodern sublime It presents a sublime of matter rather than form performative rather than representational In doing so Musically Sublime shows that the binary distinction Lyotard posits between the postmodern and romantic sublime is finally untenable
