**Music and the Politics of Negation** James R. Currie, 2012-08-23 Over the past quarter century music studies in the academy have their postmodern credentials by insisting that our scholarly engagements start and end by placing music firmly within its various historical and social contexts In Music and the Politics of Negation James R Currie sets out to disturb the validity of this now quite orthodox claim Alternating dialectically between analytic and historical investigations into the late 18th century and the present he poses a set of uncomfortable questions regarding the limits and complicities of the values that the academy keeps in circulation by means of its musical encounters His overriding thesis is that the forces that have formed us are not our fate

**Reference Studies in Mediaeval History** James Westfall Thompson, 1907

**Vanishing Sensibilities** Kristina Muxfeldt, 2012-01-19 Vanishing Sensibilities examines once passionate cultural concerns that shaped music of Schubert Beethoven Schumann and works of their contemporaries in drama or poetry Music especially music with text was a powerful force in lively ongoing conversations about the nature of liberty which included such topics as the role of consent in marriage same sex relationships freedom of the press and the freedom to worship or not Among the most common vehicles for stimulating debate about pressing social concerns were the genres of historical drama and legend or myth whose stories became inflected in fascinating ways during the Age of Metternich Interior and imagined worlds memories and fantasies were called up in purely instrumental music and music was privately celebrated for its ability to circumvent the restrictions that were choking the verbal arts Author Kristina Muxfeldt invites us to listen in on these cultural conversations dating from a time when the climate of censorship made the tone of what was said every bit as important as its literal content At this critical moment in European history such things as a performer s delivery

spontaneous improvisation or the demeanor of the music could carry forbidden messages of hope and political resistance flying under the censor's radar like a carrier pigeon Rather than trying to decode or fix meanings Muxfeldt concerns herself with the very mechanisms of their communication and she confronts distortions to meaning that form over time as the cultural or political pressures shaping the original expression fade and are eventually forgotten In these pages are accounts of works successful in their own time alongside others that failed to achieve more than a liminal presence among them Schubert's *Alfonso und Estrella* and his last opera project *Der Graf von Gleichen* whose libretto was banned even before Schubert set to work composing it Enlivening the narrative are generous music examples reproductions of artwork and facsimiles of autograph material
