Victorian Murderesses Naz Bulamur,2016-02-08 Victorian Murderesses investigates the politics of female violence in Thomas Hardy s Tess of the D Urbervilles 1891 George Eliot s Adam Bede 1859 Mary Braddon s Lady Audley s Secret 1862 and Florence Marryat s The Blood of the Vampire 1897 The controversial figure of the murderess in these four novels challenges the assumption that women are essentially nurturing and passive and that violence and aggression are exclusively male traits By focusing on the representations of murder committed by women this book demonstrates how legal and even medical discourses endorsed Victorian domestic ideology as female criminals were often locked up in asylums and publicly executed without substantial evidence While paying close attention to the social economic judicial and political dynamics of Victorian England this interdisciplinary study also tackles the question of female agency as the novels simultaneously portray women as perpetrators of murder and excuse their socially unacceptable traits of anger and violence by invoking heredity and madness Although the four novels tend to undercut female power and attribute violence to adulterous women they are revolutionary enough to deploy female characters who rebel against male sovereignty and their domestic roles by stabbing their rapists and even killing their newborns Victorian studies on gender and violence focus primarily on female victims of sexual harassmt and real and fictional male killers like Dracula and Jack the Ripper Victorian Murderesses contributes to the field by investigating how literary representations of female violence counter the idealisation of women as angelic housewives
