Sources In American History A Of Readings:

Readings in American History David Saville Muzzey, 2015-06-26 Excerpt from Readings in American History The use of selected material from primary sources to illustrate and enliven the narrative of the textbook has become so general and has proved so valuable that there is no further need for apology or explanation in the introduction of a book of historical readings In selecting the material for the present volume the author has sought to give the student a sense of the number and variety of sources acts of Congress decisions of courts proclamations and messages of presidents records of debates party platforms charters pamphlets memoirs diaries letters plays poems etc that are available for the illustration of American history A unique feature of the book is the frequent employment of two or more extracts for the elucidation of a single topic these extracts either furnishing cumulative evidence from different sources or presenting conflicting or divergent views of different authors For example Nos 14 17 37 40 45 68 81 91 93 104 illustrate the type of the cumulative group of extracts while Nos 24 30 34 39 59 62 74 94 106 114 116 represent the conflicting group The value of such groups is twofold they not only help to save the source book from the generally merited reproach of scrappiness but they furnish the student with just what he is likely to miss in the study of the textbook namely the realization that on every important historical and social question there is and has been a variety of opinion and judgment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Handbook of Research on Learning and Instruction Richard E. Mayer, Patricia A. Alexander, 2016-10-04 During the past 30 years researchers have made exciting progress in the science of learning i e how people learn and the science of instruction i e how to help people learn This second edition of the Handbook of Research on Learning and Instruction is intended to provide an overview of these research advances With chapters written by leading researchers from around the world this volume examines learning and instruction in a variety of learning environments including in classrooms and out of classrooms and with a variety of learners including K 16 students and adult learners Contributors to this volume demonstrate how and why educational practice should be guided by research evidence concerning what works in instruction The Handbook is written at a level that is appropriate for graduate students researchers and practitioners interested in an evidence based approach to learning and instruction The book is divided into two sections learning and instruction The learning section consists of chapters on how people learn in reading writing mathematics science history second language and physical education as well as how people acquire the knowledge and processes required for critical thinking studying self regulation and motivation The instruction section consists of chapters on effective instructional methods feedback examples questioning tutoring visualizations simulations inquiry discussion collaboration peer modeling and adaptive instruction Each chapter in this second edition of the Handbook has been thoroughly revised to integrate recent advances in the field of educational psychology Two chapters have been added to reflect advances in both helping students develop learning strategies and using technology to individualize instruction As with the first edition this updated volume showcases the best research being done on learning and instruction by traversing a broad array of academic domains learning constructs and instructional methods *Resources in Education*, 1997 Medieval and Modern Times James Harvey Robinson, 1926 *Strategic Reading in U. S. History* Social Studies School Service, 2006 **Reading Primary Sources** Miriam Dobson, Benjamin Ziemann, 2008-09-03 How does the historian approach primary sources How do interpretations differ How can they be used to write history Reading Primary Sources goes a long way to providing answers for these

questions In the first part of this unique volume the chapters give an overview of both traditional and new methodological approaches to the use of sources analyzing the way that these have changed over time The second part gives an overview of twelve different types of written sources including letters opinion polls surveillance reports diaries novels newspapers and dreams taking into account the huge expansion in the range of written primary sources used by historians over the last thirty years This book is an up to date introduction into the historical context of these different genres the ways they should be read the possible insights and results these sources offer and the pitfalls of their interpretation All of the chapters push the reader beyond a conventional understanding of source texts as mere reflections of a given reality instead fostering an understanding of how each of the various genres has to be seen as a medium in its own right Taking examples of sources from around the globe and also including a student friendly further reading section this is the perfect companion for every student of history who wants to engage with sources
