Heilman,Ramona Fruja,Matthew Missias,2010-01-21 This one of a kind resource features ideas from over one hundred of our nation s most thoughtful teacher educators reflecting on their best practices and offering specific strategies through which future teachers learn to teach [Dynamics of Identity in the World of the Early Christians](#) Philip A. Harland,2009-11-19 This study sheds new light on identity formation and maintenance in the world of the early Christians by drawing on neglected archaeological and epigraphic evidence concerning associations and immigrant groups and by incorporating insights from the social sciences The study s unique contribution relates in part to its interdisciplinary character standing at the intersection of Christian Origins Jewish Studies Classical Studies and the Social Sciences It also breaks new ground in its thoroughly comparative framework giving the Greek and Roman evidence its due

not as mere background but as an integral factor in understanding dynamics of identity among early Christians This makes the work particularly well suited as a text for courses that aim to understand early Christian groups and literature including the New Testament in relation to their Greek Roman and Judean contexts Inscriptions pertaining to associations provide a new angle of vision on the ways in which members in Christian congregations and Jewish synagogues experienced belonging and expressed their identities within the Greco Roman world The many other groups of immigrants throughout the cities of the empire provide a particularly appropriate framework for understanding both synagogues of Judeans and groups of Jesus followers as minority cultural groups in these same contexts Moreover there were both shared means of expressing identity including fictive familial metaphors and peculiarities in the case of both Jews and Christians as minority cultural groups who like other foreigners were sometimes characterized as dangerous alien anti associations By paying close attention to dynamics of identity and belonging within associations and cultural minority groups we can gain new insights into Pauline Johannine and other early Christian communities
