Sources on the Alans Agustí Alemany, 2000 Sources on the Alans now for the first time gives an exhaustive overview of all reports on the Alans written in Greek Latin Medieval Latin Byzantine Arabic Armenian Catalan Georgian Hebrew Iranian Mongol Russian Syriac and Chinese languages From ancient up to medieval times With an extensive Onomasticon time tables and indices on authors and passages A reference work in the truest sense Sources on the Alans Agustí Alemany, 2021-10-25 The first exhaustive key to the sources to and the proper names of the Alans The scattered nature of sources and their dispersion in time space and intermediary languages may explain the lack of a true comprehensive guide to this important ancient people a nomadic tribe of Iranian stock living from one end of the Eurasian steppes to the other Documents from ancient up to medieval times regularly make in a wide variety of languages mention of the Alans With his Sources on the Alans Agust Alemany now provides us for the first time with a reliable and exhaustive handbook by collecting classifying translating or summarizing all reports on the Alans written in Greek Latin Medieval Latin Byzantine Arabic Armenian Catalan Georgian Hebrew Iranian Mongol Russian Syriac and Chinese languages The volume will also be frequently used as an Onomasticon With time tables and indices on authors and passages A reference work in the truest A History of the Alans in the West Bernard S. Bachrach, 1973 The Genesis of the Turks Osman Karatay, 2022-01-25 This book suggests a new theory on the origins and Urheimat of the Turks within the context of Central Eurasia and more properly the South Urals by exploring the relations of the Turkic language with the Altaic Uralic and Indo European languages and by referring to historical genetic and archaeological sources. The book shows that the elements that started the making of the Turkic ethno linguistic entity were also shared by the regions where the later Hungarians would emerge and that the consolidation of their identity seems to be related to the emergence and rise of the Sintashta culture It argues that the fertile lands and suitable climatic conditions together with the coming of agriculture likely at the end of the Muslim Sources on the Magyars in the Second Half of the 3rd millennium BC allowed them to increase their population 9th Century Istvan Zimonyi, 2015-10-14 The Jayh n tradition contains the most detailed description of the Magyars Hungarians before the Conquest of the Carpathian Basin 895 Unfortunately the book itself was lost and it can only be reconstructed from late Arabic Persian and Turkic copies The reconstruction is primarily based on the texts of al Marwaz Ibn Rusta and Gard z The original text has shorter and longer versions The basic text was reformed at least twice and later copyists added further emendation This study focuses on the philological comments and historical interpretation of the Magyar chapter integrating the results in the fields of medieval Islamic studies the medieval history of Eurasian steppe and the historiography of early Hungarian history *ARCHAEOLOGY - Volume I* Donald L. Hardesty, 2010-06-15 Archaeology is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias Archaeology is a road for traveling into the past that is

from the vast steppes of Central Asia as one of the most formidable nomadic peoples of antiquity their influence extending far beyond their humble origins to reshape the political landscape of medieval Europe These Iranian speaking warriors first appeared in historical records during the first century CE though their roots stretch back much deeper into the prehistoric migrations that had populated the Eurasian steppes for millennia Understanding the Alan people requires examining not just their documented history but also the broader context of nomadic Iranian cultures that had dominated the grasslands stretching from the Black Sea to Mongolia for over a thousand years before their emergence as a distinct political force The ethnogenesis of the Alans represents a complex process of tribal confederation and cultural synthesis that was typical of steppe societies Archaeological evidence suggests that the peoples who would become known as the Alans were descendants of earlier Scythian and Sarmatian populations who had inhabited the region between the Don and Volga rivers since at least the fourth century BCE These earlier Iranian nomads had already established patterns of pastoral nomadism warrior culture and political organization that would become characteristic features of Alan society The transition from these earlier groups to the historically documented Alans appears to have occurred gradually as tribal confederations formed and reformed in response to population pressures climate changes and interactions with sedentary civilizations **Iournal of Medieval** Military History Clifford J. Rogers, John France, Kelly DeVries, 2013-09-19 A collection which highlights the range and richness of scholarship on medieval warfare military institutions and cultures of conflict that characterize the field History 95 2010 The comprehensive breadth and scope of the Journal are to the fore in this issue which ranges widely both geographically and chronologically The subjects of analysis are equally diverse with three contributions dealing with the Crusades four with matters related to the Hundred Years War two with high medieval Italy one with the Alans in the Byzantine Catalan conflict of the early fourteenth century and one with the wars of the Duke of Cephalonia inWestern Greece and Albania at the turn of the fifteenth century Topics include military careers tactics and strategy the organization of urban defenses close analysis of chronicle sources and cultural approaches to the acceptance of gunpowder artillery and the prevalence of military games in Italian cities Contributors T S Asbridge A Compton Reeves Kelly DeVries Michael Ehrlich Scott Jessee Donald Kagay Savvas Kyriakidis Randall Moffett Aldo A Settia Charles D Stanton Georgios Theotokis L J Andrew Villalon Anatoly Isaenko Contact and Conflict in Frankish Greece and the Aegean, 1204-1453 Dr Mike Carr, Dr Nikolaos G. Chrissis, 2014-02-28 The conquest of Constantinople by the Fourth Crusade shattered irreversibly the political and cultural unity of the Byzantine world in the Greek peninsula the Aegean and western Asia Minor Between the disintegration of the Byzantine Empire after 1204 and the consolidation of Ottoman power in the fifteenth century the area was a complex political ethnic and religious mosaic made up of Frankish lordships Italian colonies Turkish beyliks as well as a number of states that professed to be the continuators of the Byzantine imperial tradition This volume brings together western medievalists Byzantinists and Ottomanists combining recent research in the relevant fields in order to provide a holistic

interpretation of this world of extreme fragmentation Eight stimulating papers explore various factors that defined contact and conflict between Orthodox Greeks Catholic Latins and Muslim Turks highlighting common themes that run through this period and evaluating the changes that occurred over time Particular emphasis is given on the crusades and the way they affected interaction in the area Although the impact of the crusades on Byzantine history leading up to 1204 has been extensively examined in the past there has been little research on the way crusading was implemented in Greece and the Aegean after that point Far from being limited to crusading per se however the papers put it into its wider context and examine other aspects of contact such as trade interfaith relations and geographical exploration of Late Antiquity Oliver Nicholson, 2018-04-19 The Oxford Dictionary of Late Antiquity is the first comprehensive reference book covering every aspect of history culture religion and life in Europe the Mediterranean and the Near East including the Persian Empire and Central Asia between the mid 3rd and the mid 8th centuries AD the era now generally known as Late Antiquity This period saw the re establishment of the Roman Empire its conversion to Christianity and its replacement in the West by Germanic kingdoms the continuing Roman Empire in the Eastern Mediterranean the Persian Sassanian Empire and the rise of Islam Consisting of over 1 5 million words in more than 5 000 A Z entries and written by more than 400 contributors it is the long awaited middle volume of a series bridging a significant period of history between those covered by the acclaimed Oxford Classical Dictionary and The Oxford Dictionary of the Middle Ages The scope of the Dictionary is broad and multi disciplinary across the wide geographical span covered from Western Europe and the Mediterranean as far as the Near East and Central Asia it provides succinct and pertinent information on political history law and administration military history religion and philosophy education social and economic history material culture art and architecture science literature and many other areas Drawing on the latest scholarship and with a formidable international team of advisers and contributors The Oxford Dictionary of Late Antiquity aims to establish itself as the essential reference companion to a period that is attracting increasing attention from scholars and students worldwide The Black Sea: Hub of Peoples and Cultures (8th Century BC-5th/6th Century AD) Gocha R. Tsetskhladze, James Hargrave, Manolis Manoledakis, 2025-05-01 Proceedings of the Seventh International Congress on Black Sea Antiquities Thessaloniki 2022 this volume brings together leading scholars from across Europe and beyond to showcase new research on the diverse cultures interactions and archaeological discoveries that shaped the Black Sea region in antiquity Military History of Late Rome 457-518 Ilkka Syvänne, 2021-01-26 A history and military analysis of the world changing events following the fall of the Western Roman Empire The Military History of Late Rome 457 518 provides a fresh new look into the events that led to the collapse of West Rome while East Rome not only survived but went on to prosper despite a series of major defeats that included most notably the catastrophic campaign against the Vandals in 468 The author explains what mistakes the West Romans made and what the East Romans did right to survive He analyzes the role of the barbarian generals and military forces in this and also offers

an analysis of the tactical developments during this pivotal period as a result of which the cavalry so famous from the accounts of Procopius became the dominant arm in the East The book also offers a detailed study of a number of battles that have never before been subjected to such scrutiny and puts these firmly into the context of their times At the very end of this period in 518 East Rome was poised to start its reconquest under Anastasius successors Justin I and Justinian I This book explains why this was possible Journal of the Manchester University Egyptian and Oriental Society University of Manchester. Egyptian and Oriental Society, 1924 The World of the Khazars Peter Golden, Haggai Ben-Shammai, András Roná-Tas. 2007-08-30 This volume a product of international collaboration presents readers with the state of the field in Khazar Studies The Khazar Empire ca 650 ca 965 969 one of the largest states of medieval Eurasia extended from the Middle Volga lands in the north to the Northern Caucasus and Crimea in the south and from the Ukrainians steppelands to the western borders of Kazakhstan and Uzbekistan in the east Turkic in origin it played a key role in the history of the peoples of Rus medieval Hungary and the Caucasus Khazaria became one of the great trans Eurasian trading terminals connecting the northern forest zones with Byzantium and the Arabian Caliphate In the ninth century the Khazars converted to Judaism This book sheds new light on many unanswered but fundamental questions regarding the Khazar Empire so important in medieval The Crimean Tatars Brian Glyn Williams, 2001-01-01 This volume provides the most up to date analysis of the Eurasia ethnic cleansing of the Crimean Tatars their exile in Central Asia and their struggle to return to the Crimean homeland It also traces the formation of this diaspora nation from Mongol times to the collapse of the Soviet Union A theme which emerges through the work is the gradual construction of the Crimea as a national homeland by its indigenous Tatar population It ends with a discussion of the post Soviet repatriation of the Crimean Tatars to their Russified homeland and the social emotional and identity problems involved The Islamic World, Russia and the Vikings, 750-900 Thomas S. Noonan, 2024-10-28 Professor Noonan here sets out to examine what Islamic silver coins dirhams reveal about the great trade between the Islamic world European Russia and the Baltic during the early Viking Age Particular attention is devoted to the origins of this international commerce and the role of such peoples as the Vikings and Khazars As he shows the study of these coins also throws new light on mint output in the Abbasid caliphate the historical significance of specific dirham hoards and how the patterns of trade evolved during the course of the ninth century The Scythians Barry Cunliffe, 2019-09-26 Brilliant horsemen and great fighters the Scythians were nomadic horsemen who ranged wide across the grasslands of the Asian steppe from the Altai mountains in the east to the Great Hungarian Plain in the first millennium BC Their steppe homeland bordered on a number of sedentary states to the south the Chinese the Persians and the Greeks and there were inevitably numerous interactions between the nomads and their neighbours The Scythians fought the Persians on a number of occasions in one battle killing their king and on another occasion driving the invading army of Darius the Great from the steppe Relations with the Greeks around the shores of the Black Sea were rather different both communities

benefiting from trading with each other This led to the development of a brilliant art style often depicting scenes from Scythian mythology and everyday life It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life their beliefs their burial practices their love of fighting and their ambivalent attitudes to gender It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials from the graves of kings on the Pontic steppe with their elaborate gold work and vividly coloured fabrics to the frozen tombs of the Altai mountains where all the organic material wooden carvings carpets saddles and even tattooed human bodies is amazingly well preserved Barry Cunliffe here marshals this vast array of evidence both archaeological and textual in a masterful reconstruction of the lost world of the Scythians allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia
