

**What is the source of our first suffering? It
lies in the fact that we hesitated to
speak... It was born in the moment when we
accumulated silent things within us.**

Volcanic Seismology

Paolo Gasparini,Roberto Scarpa,Keiiti Aki,2012-12-06 For many centuries people living on volcanoes have known that the outset of seismic activity is often a forerunner of a volcanic eruption This understand ing allowed people living close to the sites of the Mt Nuovo 1538 eruption at Campi Flegrei Italy and of the Mt Usu 1663 eruption in Hokkaido Japan to quote only two examples to flee before the eruptions started During the second half of the 19th century seismographs were installed on some volcanoes and the link between seismic and eruptive activity started to be assessed on a firmer scientific basis The first systematic observations of the correlations existing between seismic activity and volcanic eruptions were probably those carried out at Mt Vesuvius by Luigi Palmieri in 1856 Palmieri was the Director of Osservatorio Vesuviano and built an electromagnetic seismograph with the aim of making visible the smallest ground motions by recording them on paper and indicating direction intensity and duration He was able to show the relationship between earthquakes and the different phases of volcanic activity He identified the harmonic tremor which he indicated was a precursor of volcanic activity the characteristic feature of the ground mo tions preceding eruption is its continuity before the eruption of 1861 the electromagnetic seismograph began to show a continuous tremor The Palmieri seismograph was also utilized in Japan until 1883 when it was replaced by the new Gray Milne seismographs and later by the Omori instruments

A Better Way to Build Michael R. Adamson,2013-01-15 While architects have been the subject of many scholarly studies we know very little about the companies that built the structures they designed This book is a study in business history as well as civil engineering and construction management It details the contributions that Charles J Pankow a 1947 graduate of Purdue University and his firm have made as builders of large often concrete commercial structures since the company s foundation in 1963 In particular it uses selected projects as case studies to analyze and explain how the company innovated at the project level The company has been recognized as a pioneer in design build a methodology that involves the construction company in the development of structures and substitutes negotiated contracts for the bidding of architects plans The Pankow companies also developed automated construction technologies that helped keep projects on time and within budget The book includes dozens of photographs of buildings under construction from the company s archive and other sources At the same time the author analyzes and evaluates the strategic decision making of the firm through 2004 the year in which the founder died While Charles Pankow figures prominently in the narrative the book also describes how others within the firm adapted the business so that the company could survive a commercial market that changed significantly as a result of the recession of the 1990s Extending beyond the scope of most business biographies this book is a study in industry

Scare Quotes from Shakespeare Martin Harries, 2000 This book argues that moments of allusion to the supernatural in Shakespeare are occasions where Karl Marx and John Maynard Keynes register the perseverance of haunted structures in modern culture This reenchantment at the heart of modernity and of literary and political works central to our understanding of modernity is the focus of this book The author shows that allusion to supernatural moments in Shakespeare scare quotes allows writers to both acknowledge and distance themselves from the supernatural phenomena that challenge their disenchanted understanding of the social world He also uses these modern appropriations of Shakespeare as provocations to reread some of his works notably Hamlet and Macbeth Two pairs of linked chapters form the center of the book One pair joins a reading of Marx concentrating on *The Eighteenth Brumaire* to Hamlet the other links a reading of Keynes focusing on *The Economic Consequences of the Peace* to Macbeth The chapters on Marx and Keynes trace some of the strange circuits of supernatural rhetoric in their work Marx's use of ghosts and Keynes's fascination with witchcraft The sequence linking Marx to Hamlet for example has as its anchor the Frankfurt School's concept of the phantasmagoria the notion that it is in the most archaic that one encounters the figure of the new Looking closely at Marx's association of the Ghost in Hamlet with the coming revolution in turn illuminates Hamlet's association of the Ghost with the supernatural beings many believed haunted

mines An opening chapter discusses Henry Dircks a nineteenth century English inventor who developed and then lost his claim to a phantasmagoria or machine to project ghosts on stage Dircks resorted to magical rhetoric in response to his loss which is emblematic for the book as a whole charting ways the scare quote can paradoxically continue the work of enlightenment

The Religious System of China, Its Ancient Forms, Evolution, History and Present Aspect, Manners, Customs and Social Institutions Connected Therewith Jan Jakob Maria Groot,1901

Rich and Strange Marianne DeKoven,2021-07-13 Like the products of the sea change described in Ariel s song in The Tempest modernist writing is rich and strange Its greatness lies in its density and its dislocations which have until now been viewed as a repudiation of and an alternative to the cultural implications of turn of the century political radicalism Marianne DeKoven argues powerfully to the contrary maintaining that modernist form evolved precisely as a means of representing the terrifying appeal of movements such as socialism and feminism Organized around pairs and groups of female and male signed texts the book reveals the gender inflected ambivalence of modernist writers Male modernists desiring utter change nevertheless feared the loss of hegemony it might entail while female modernists feared punishment for desiring such change With water imagery as a focus throughout DeKoven provides extensive new readings of canonical modernist texts and of

works in the feminist and African American canons not previously considered modernist Building on insights of Luce Irigaray Klaus Theweleit and Jacques Derrida she finds in modernism a paradigm of unresolved contradiction that enacts in the realm of form an alternative to patriarchal gender relations
