South Africa's Post Apartheid Foreign Policy From Reconciliation To Revival:

South Africa's Post Apartheid Foreign Policy Chris Alden, 2019-05-20 The book presents and analyses South African foreign policy from the onset of the democratic transition of Nelson Mandela in 1994 to the contemporary period The focus of the study is on the question of South African leadership in the context of this transition **Foreign Policy Posture in**

Post-Apartheid South Africa Bhekithemba R. Mngomezulu, 2019-11-11 Foreign policy and domestic policy feed into each other To a large degree the latter informs the former This book demonstrates the relationship between the two paying particularly close attention to how South Africa envisioned its foreign policy during the negotiation process Importantly it spells out how South Africa's foreign policy has evolved since the early 1990s The critics of South Africa's foreign policy often question the motives behind the country's involvement in African and global affairs The contributions here demonstrate the complex nature of foreign policy making approaching the subject both from a broad theoretical perspective and specifically through empirical case studies The book will appeal to political scientists historians policy practitioners international relations specialists and government officials and their advisors as well as international relations theorists

Foreign Policy in Post-Apartheid South Africa Adekeye Adebajo, Kudrat Virk, 2017-12-18 South Africa is the most industrialized power in Africa It was rated the continent's largest economy in 2016 and is the only African member of the G20 It is also the only strategic partner of the EU in Africa Yet despite being so strategically and economically significant there is little scholarship that focuses on South Africa as a regional hegemon This book provides the first comprehensive assessment of South Africa's post Apartheid foreign policy Over its 23 chapters and with contributions from established Africa Western Asian and American scholars as well as diplomats and analysts the book examines the current pattern of the country's foreign relations in impressive detail The geographic and thematic coverage is extensive including chapters on the domestic imperatives of South Africa's foreign policy peace making defence and security bilateral relations in Southern Central West Eastern and North Africa bilateral relations with the US China Britain France and Japan the country's key external multilateral relations with the UN the BRICS economic grouping the African Caribbean and Pacific Group ACP as well as the EU and the World Trade Organization WTO An essential resource for researchers the book will be relevant to the fields of area studies foreign policy history international relations international law security studies political economy and development studies *Framing Foreign Policy in India, Brazil and South Africa* Jörg Husar, 2016-05-04 This book analyses the India Brazil South Africa Dialogue Forum IBSA focusing on the communalities and differences in the way foreign policy is conceptualized in its member states Utilizing 83 interviews with foreign policy makers and experts as well as the analysis of 119 foreign policy speeches the author traces key shifts in official foreign policy discourse In order to evaluate the degree of support for key IBSA Dialogue Forum concepts within national discourse the author also examines the interplay between official and broader societal discourses on foreign policy This analysis combines political science factors foreign policy role

conceptions with linguistic factors thus enabling a qualitative and quantitative comparison of different framings of foreign policy. Extensive empirical material collected during six months of field research in India, Brazil and South Africa allows the author to present a differentiated account of their alleged like mindedness. **Inside South Africa's Foreign Policy** John Siko, 2014-06-16. South Africa is a major player in African diplomacy. Its economic, diplomatic and military resources far outstrip those of other nations on the continent and it has since the country's 1994 democratic transition sought to take a lead role in the continent's relations with other power blocs, particularly during the 1999-2008 presidency of Thabo Mbeki. While Mbeki's push for greater African engagement in the global political sphere drew widespread praise, other positions, notably its seeming inaction toward Zimbabwe and perceived abandonment of its stated emphasis on human rights in foreign policy, were more controversial both at home and abroad. John Siko has had insider access to South Africa's leading foreign policy players and has been able to ask why Pretoria has taken its various stances and who has mattered in influencing those decisions, a topic little examined since 1994. In addition, he examines the foreign policy process over the past century, determining that despite ANC promises of greater democratic engagement on foreign policy, the process has changed quite little.

Democratic South Africa's Foreign Policy Suzanne Graham, 2016-10-06. This book provides readers with the first comprehensive study of South Africa's foreign policy conducted in a multilateral setting by placing on record over 1000 of South Africa's votes at the United Nations over a 20 year period. The study investigates consistency in terms of South Africa's declared foreign policy and its actual voting practices at the United Nations. **Democratic South Africa's Foreign Policy: Voting Behaviour in the United Nations** offers a compendium of South Africa's United Nations behaviour during a poignant transitional period in the country's recent history. In setting out a framework for analysing the conduct of other countries' voting behaviour in parallel with this study, it can be used to advance the field as a useful comparative tool. This book presents the material needed for International Relations scholars and practitioners in the field to make a reasoned and reflective assessment of this dimension of South Africa's foreign policy.

Global and Regional Leadership of BRICS Countries Stephen Kingah, Cintia Quiliconi, 2015-11-17. This book presents a systematic collation of the regional and global dimensions of the leadership role of BRICS countries: Brazil, Russia, India, China and South Africa. It analyses the rising regional and global leadership of BRICS using specific benchmarks to gauge the nature of this leadership. The elements examined include willingness to lead, the capacity to do as much, and the degree to which the given actor is accepted as a leader both within and beyond its region. The chapters in the book capture the nature of trends in regional and global leadership within the contexts of a changing international order. It is taken for granted that Brazil, Russia, India, China and South Africa are now engineering a unique pool of governance that is seeking alternatives to the current order of global economic and political affairs. The fact that these countries have jointly decided to forge ahead with the BRICS constellation of states that is now taking consequential decisions such as the creation of the BRICS New Development Bank is not to be

treated lightly In this book the majority of papers take a step back and systematically analyse the real state of the leadership that is provided by the BRICS on a litany of regionally and globally relevant issues While no one doubts the fact that these countries have the capacity to provide leadership especially in their various regions on many issues what remains moot is whether they are willing and capable to do so at the global level Even in those cases where there is the willingness and capacity the book argues that the acceptance of such leadership by potential followers is not always a given

South African Foreign Policy Review: Volume 1 Chris Landsberg, Jo-Ansie van Wyk, 2012-12-27 The richness of public and academic discourses on the past present and future direction of South Africa's role in Africa and the world suggests that as a sub discipline of politics South African foreign policy is ready for a systematic and regular appraisal in the form of a series of publications that the Institute for Global Dialogue will call South African Foreign Policy Review This is also because constant changes in international and domestic circumstances impinge on the management and analysis of South Africa's foreign policy This the first review provides an important opportunity to build on existing foreign policy works in order to take stock of the road already travelled in the past decade or so This is crucial in laying some basis for anticipating the country's future role and considering the opportunities and challenges which future volumes of the review will consider This volume provides a wide ranging appraisal of the relationship between stated foreign policy goals and actual outputs and outcomes an assessment of how foreign policy has actually been operationalized and implemented To this end common themes in South African foreign policy provide the framework for the first review These include foreign policy decision making soft power dynamics in the foreign policy's strategic calculus diplomatic tools used economic diplomacy peace diplomacy and paradiplomacy South Africa's relations with key states in Africa in the global south and in the global north South Africa's approach to Africa multilateral global multilateralism governance The review hopes to stimulate further discussion and thinking on the challenges confronted and the future shape and direction of South Africa's foreign policy

South African Foreign Policy Review: Volume 1, 2012 *The Eagle and the Springbok* Adekeye Adebajo, 2023-06-23 Nigeria and South Africa account for about a third of Africa's economic might and have led much of its conflict management initiatives over the last three decades Both account for at least 60 per cent of the economy of their respective sub regions in West and Southern Africa The success of political and economic integration in Africa thus rests heavily on the shoulders of these two regional powers who have both collaborated and competed with each other in a complex relationship that is Africa's most indispensable Nigeria remains among South Africa's largest trading partners in Africa while both countries have cooperated in building the institutions of the African Union AU Both countries have also had a tremendous cultural impact on the continent in terms of Nollywood movies and the expansion of South Africa's corporate sector into Africa This book assesses Nigeria South Africa relations in the areas of politics economics and culture within the context of rivalries and hegemony Biographical profiles are also provided of important figures from both countries

The Foreign Policy and Intervention

Behavior of Africa's Middle Powers Olumuyiwa Babatunde Amao, 2023-12-21 Based on a meta theoretical approach and insights derived from analytic eclecticism as a comparative instrument Olumuyiwa Babatunde Amao assesses Nigeria and South Africa's foreign policy and intervention behavior in Africa with a special focus on the conflict episodes in Sierra Leone 1991-1998 and the Democratic Republic of Congo DRC 1997-2005 The Foreign Policy and Intervention Behavior of Africa's Middle Powers An Analytic Eclecticism Approach explores the relative merits of structural realism and social constructivism in explaining Nigeria and South Africa's motives and intervention behavior and why more than one theoretical perspective is required to sufficiently analyze the complexity of their intervention decisions and behavior It demonstrates the overlapping nexus between conflict intervention structural constraints relative power pursuit and the dynamics of regional complexes Amao demonstrates how Nigeria and South Africa's relative power positions identities as African actors de-colonization and anti-apartheid struggles and the existing values and bonds that their contiguous states share play a crucial role in their intervention behavior Using Sierra Leone and the DRC as case studies this book illustrates the advantage of applying a multi-perspective eclectic approach to foreign policy analysis and provides an alternative to the theoretical turf wars that are all too prevalent in the discipline of international relations

Redefining Regional Power in International Relations Miriam Prys, 2012-05-04 This book examines the concept of regional power in international relations Using the emerging powers of India and South Africa as the case studies it explores how regional powers simultaneously differ and share common features The book develops a method to classify and evaluate different types of regional powers and applies this typology to contemporary case studies of India and South Africa Regional power is often expected to have a positive influence on region-specific problems of conflict economic deprivation and political instability In reality an achievement-expectations gap can be seen in many regional powers which can be analysed and understood through observable variation in regional power The author discovers that in addition to the management of the internal regional order regional powers have to establish individuality whilst fitting into the global international environment altering both regional dynamics and creating variance in the level of control within the region Elucidating concepts and definitions this book is an accessible and in-depth study that both introduces key concepts and provides a framework for the future study of regional power in international relations Redefining Regional Power in International Relations will be of interest to students and scholars of regionalism and international relations

Public Participation in Foreign Policy J. Headley, A. Reitzig, J. Burton, 2012-03-02 Experts from academia governments think tanks NGOs trade unions and business investigate whether the public should play a greater role in foreign policy making by analysing their current role in the Iraq war USA Post-Apartheid South Africa trade relations with China New Zealand and other cases

South African Horror Cinema Calum Waddell, 2025-08-21 This is the first study to explore South Africa both in horror cinema and as a formidable producer of celluloid scares From framing the notorious apartheid system as a mental asylum in the ground breaking and criminally underseen Jannie Totsiens Jans Rautenbach 1970 to such seventies exploitation shockers as *The Demon* Percival Rubens 1979 through to the blockbuster hit *District 9* Neill Blomkamp 2009 and beyond this book suggests that South Africa should finally obtain its rightful place in the canon of wider genre studies and horror cinema fandom Taking in the 80s nightmares of Darrell Roodt and concluding with an analysis of

the recent boom period in South African fright films including discussion of such contemporary efforts as *The Tokoloshe* Jerome Pikwane 2018 and the Troma esque leanings of *Fried Barry Ryan Kruger* 2020 South African Horror Cinema focuses on ever changing identities and perspectives and embraces the frequently carnivalesque and grotesque elements of a most unique lineage in macabre motion pictures
