Chitina-McCarthy Hwy Reconstruction and Realignment, South Central District ,1973 *A Reconnaissance in South Central Idaho* Arthur Maine Piper,Francis A. Thomson, Frank H. Skeels, Joseph Bertram Umpleby, Virgil Raymond Drexel Kirkham, Douglas Clermont Livingston, Samuel Milroy Ballard, Francis Baker Laney, 1920 Creating Citizenship in the Nineteenth-Century South William A. Link, David Brown, Brian E. Ward, Martyn Bone, 2018-02-19 This is a remarkable collection of essays Citizenship clearly forms the backbone for these investigations but the range of the contributors backgrounds in terms of disciplinary training and the approaches they take to the question makes this collection both broad and deep As it turns out there is no other way to tackle a concept as central but also as slippery as citizenship A shorter or more focused collection would miss the nuances and insights that this one offers Aaron Sheehan Dean author of *Why Confederates Fought Family and Nation in Civil War Virginia* President Obama s citizenship continues to be questioned by the birthers the Cherokee Nation has revoked tribal rights from descendants of Cherokee slaves and Parliament in the U K is debating citizenship education It is in both this broader context and in the narrower academic one that *Creating Citizenship in the Nineteenth Century South* stands as a smart exciting and most welcome contribution to southern history and southern studies Michele Gillespie author of *Katharine* and R J Reynolds *Partners of Fortune and the Making of the New South* Combining historical and cultural studies perspectives eleven well crafted essays and a provocative epilogue engage the economic political and cultural dynamics of race and belonging from the era of enslavement through emancipation reconstruction and the New South Nancy A Hewitt author of *Southern Discomfort* More than merely legal status citizenship is also a form of belonging shaping individual and group rights duties and identities The pioneering essays in this volume are the first to address the evolution and significance of citizenship in the American South during the long nineteenth century They explore the politics and contested meanings of citizenry from a variety of disciplinary perspectives in a tumultuous period when slavery Civil War Reconstruction and segregation redefined relationships between different groups of southern men and women both black and white **Southern History Remixed** Michael T. Bertrand, 2024-01-30 How popular music reveals deep histories of racial tensions in southern culture *Southern History Remixed* spotlights the key role of popular music in the shaping of the United States South from the late nineteenth century to the era of rock n roll in the 1940s 50s and 60s While musical activities are often sidelined in historical narratives of the region Michael Bertrand shows that they can reveal much about social history and culture change as he connects the rise of rock n roll to the civil rights movement for racial equality In this book Bertrand traces a long term culture war in which white southerners struggled over the region s cultural complexion with music serving as an engine that both sustained and challenged white supremacy He shows how rock n roll emerged as a working class genre with biracial sources that stoked white racial anxieties and engaged the region s color and culture lines This book discusses the conflict over southern identity that played out in responses to jazz barn dance

radio Pentecostal and gospel music Black radio programming and rhythm and blues concluding with a close look at the popularity of Elvis Presley within a racially segregated society Southern History Remixed suggests that both Black and white southerners have used music as a tool to resist or negotiate a rigid regional hierarchy Urging readers and scholars to take the study of popular music seriously Bertrand argues that what occurs in the music world affects and reflects what happens in politics and history A volume in the series Southern Dissent edited by Stanley Harrold and Randall M Miller **Reading**

Southern History Glenn Feldman, 2001-10-09 This collection of essays examines the contributions of some of the most notable interpreters of American southern history and culture The volume includes 18 chapters on such notable historians as John Hope Franklin Anne Firor Scott and W J Cash **Myth and Southern History** Patrick Gerster, Nicholas Cords, 1989

A Companion to the Gilded Age and Progressive Era Christopher McKnight Nichols, Nancy C. Unger, 2022-06-15 A Companion to the Gilded Age and Progressive Era presents a collection of new historiographic essays covering the years between 1877 and 1920 a period which saw the U S emerge from the ashes of Reconstruction to become a world power The single definitive resource for the latest state of knowledge relating to the history and historiography of the Gilded Age and Progressive Era Features contributions by leading scholars in a wide range of relevant specialties Coverage of the period includes geographic social cultural economic political diplomatic ethnic racial gendered religious global and ecological themes and approaches In today s era often referred to as a second Gilded Age this book offers relevant historical analysis of the factors that helped create contemporary society Fills an important chronological gap in period based American history collections *Lightning Gods and Feathered Serpents* Rex Koontz, 2010-01-01 El Taj n an ancient Mesoamerican capital in Veracruz Mexico has long been admired for its stunning pyramids and ballcourts decorated with extensive sculptural programs Yet the city s singularity as the only center in the region with such a wealth of sculpture and fine architecture has hindered attempts to place it more firmly in the context of Mesoamerican history In *Lightning Gods and Feathered Serpents* Rex Koontz undertakes the first extensive treatment of El Taj n s iconography in over thirty years allowing us to view its imagery in the broader Mesoamerican context of rising capitals and new elites during a period of fundamental historical transformations Koontz focuses on three major architectural features the Pyramid of the Niches Central Plaza ensemble the South Ballcourt and the Mound of the Building Columns complex and investigates the meanings of their sculpture and how these meanings would have been experienced by specific audiences Koontz finds that the iconography of El Taj n reveals much about how motifs and elite rites growing out of the Classic period were transmitted to later Mesoamerican peoples as the cultures centered on Teotihuacan and the Maya became the myriad city states of the Early Postclassic period By reexamining the iconography of sculptures long in the record as well as introducing important new monuments and contexts *Lightning Gods and Feathered Serpents* clearly demonstrates El Taj n s numerous iconographic connections with other areas of Mesoamerica while also exploring its roots in an indigenous Gulf lowlands culture whose outlines are only now emerging

At the same time it begins to uncover a largely ignored regional artistic culture of which Taj n is the crowning achievement

Lines in the Sand Timothy James Lockley, 2004-03 Lines in the Sand is Timothy Lockley's nuanced look at the interaction between nonslaveholding whites and African Americans in lowcountry Georgia from the introduction of slavery in the state to the beginning of the Civil War. The study focuses on poor whites living in a society where they were dominated politically and economically by a planter elite and outnumbered by slaves. Lockley argues that the division between nonslaveholding whites and African Americans was not fixed or insurmountable. Pulling evidence from travel accounts, slave narratives, newspapers, and court documents, he reveals that these groups formed myriad kinds of relationships, sometimes out of mutual affection, sometimes for mutual advantage, but always in spite of the disapproving authority of the planter class. Lockley has synthesized an impressive amount of material to create a rich social history that illuminates the lives of both blacks and whites. His abundant detail and clear narrative style make this first book-length examination of a complicated and overlooked topic both fascinating and accessible.

Honor Bound David Leverenz, 2012-03-27 As Bill Clinton said in his second inaugural address, "The divide of race has been America's constant curse." In *Honor Bound*, David Leverenz explores the past to the present of that divide. He argues that in the United States, the rise and decline of white people's racial shaming reflect the rise and decline of white honor. White skin and black skin are fictions of honor and shame. Americans have lived those fictions for over four hundred years. To make his argument, Leverenz casts an unusually wide net, from ancient and modern cultures of honor to social, political, and military history to American literature and popular culture. He highlights the convergence of whiteness and honor in the United States from the antebellum period to the present. The Civil War, the civil rights movement, and the election of Barack Obama represent racial progress; the Tea Party movement represents the latest recoil. From exploring African American narratives to examining a 2009 episode of *Hardball* in which two white commentators restore their honor by mocking U.S. Attorney General Eric Holder after he called Americans cowards for not talking more about race, Leverenz illustrates how white honor has prompted racial shaming and humiliation. The United States became a nation state in which light-skinned people declared themselves white. The fear masked by white honor surfaces in such classics of American literature as *The Scarlet Letter* and *Adventures of Huckleberry Finn* and in the U.S. wars against the Barbary pirates from 1783 to 1815 and the Iraqi insurgents from 2003 to the present. John McCain's *Faith of My Fathers* is used to frame the 2008 presidential campaign as white honor's last national stand. *Honor Bound* concludes by probing the endless attempts in 2009 and 2010 to preserve white honor through racial shaming, from the birthers and Tea Party protests to Joe Wilson's "You lie" in Congress and the arrest of Henry Louis Gates Jr. at the front door of his own home. Leverenz is optimistic that in the twenty-first century, racial shaming is itself becoming shameful.

Black City Cinema Paula Massood, 2011-01-19 In *Black City Cinema*, Paula Massood shows how popular films reflected the massive social changes that resulted from the Great Migration of African Americans from the rural South to cities in the North West and Mid West during

the first three decades of the twentieth century By the onset of the Depression the Black population had become primarily urban transforming individual lives as well as urban experience and culture Massood probes into the relationship of place and time showing how urban settings became an intrinsic element of African American film as Black people became more firmly rooted in urban spaces and more visible as historical and political subjects Illuminating the intersections of film history politics and urban discourse she considers the chief genres of African American and Hollywood narrative film the black cast musicals of the 1920s and the race films of the early sound era to blaxploitation and hood films as well as the work of Spike Lee toward the end of the century As it examines such a wide range of films over much of the twentieth century this book offers a unique map of Black representations in film
