South China in the Sixteenth Century, 1953 **South China in the Sixteenth Century**, 1953 The Blacks of Premodern China Don J. Wyatt, 2012-02-28 Premodern Chinese described a great variety of the peoples they encountered as black The earliest and most frequent of these encounters were with their Southeast Asian neighbors specifically the Malaysians But by the midimperial times of the seventh through seventeenth centuries C E exposure to peoples from Africa chiefly slaves arriving from the area of modern Somalia Kenya and Tanzania gradually displaced the original Asian blacks in Chinese consciousness In The Blacks of Premodern China Don J Wyatt presents the previously unexamined story of the earliest Chinese encounters with this succession of peoples they have historically regarded as black A series of maritime expeditions along the East African coastline during the early fifteenth century is by far the best known and most documented episode in the story of China s premodern interaction with African blacks Just as their Western contemporaries had the Chinese aboard the ships that made landfall in Africa encountered peoples whom they frequently classified as savages Yet their perceptions of the blacks they met there differed markedly from those of earlier observers at home in that there was little choice but to regard the peoples encountered as free The premodern saga of dealings between Chinese and blacks concludes with the arrival in China of Portuguese and Spanish traders and Italian clerics with their black slaves in tow In Chinese writings of the time the presence of the slaves of the Europeans becomes known only through sketchy mentions of black bondservants Nevertheless Wyatt argues that the story of these late premodern blacks laboring anonymously in China under their European masters is but a more familiar extension of the previously untold story of their ancestors who toiled in Chinese servitude perhaps in excess of a millennium earlier **South China in the Sixteenth Century, (1550-1575)**

Galeote Pereira, Gaspar da Cruz (frei), Martín da Rada (Frei.), 1953 **Japanese Travellers in Sixteenth-Century Europe**
 Derek Massarella, 2013-01-28 In 1582 Alessandro Valignano the Visitor to the Jesuit mission in the East Indies sent four Japanese boys to Europe. Until the arrival of the embassy in Europe the Euro-Japanese encounter had been almost exclusively one way: Europeans going to Japan. This book is an account of their travels, their long journeys out and back, and the 20 months in Europe being received by popes and kings. It was published in Macao in 1590 with the title *De Missione Legatorum Japonensium ad Romanum curiam*. The present edition is the first complete version of this rich, complex and impressive work to appear in English and is accompanied with maps and illustrations of the mission and an introduction discussing its context and the subsequent reception of the book.

Qing Governors and Their Provinces R. Kent Guy, 2015-08-03 During the Qing dynasty 1644-1911 the province emerged as an important element in the management of the expanding Chinese empire with governors those in charge of these increasingly influential administrative units playing key roles. R. Kent Guy's comprehensive study of this shift concentrates on the governorship system during the reigns of the Shunzhi, Kangxi, Yongzheng and Qianlong emperors who ruled China from 1644 to 1796. In the preceding Ming dynasty 1368-1644 the responsibilities of provincial officials were ill-defined and often shifting. Qing governors, in contrast, were influential members of a formal administrative hierarchy and enjoyed the support of the central government, including access to resources. These increasingly powerful officials extended the court's influence into even the most distant territories of the Qing empire. Both masters of the routine processes of administration and troubleshooters for the central government, Qing governors were economic and political administrators who played crucial roles in the management of a larger and more complex empire than the Chinese had ever known. Administrative concerns varied from region to region: Henan was dominated by the great Yellow River which flowed through the province; the Shandong governor dealt with the exchange of goods, ideas and officials along the Grand Canal; in Zhili relations between civilians and banner-men in the strategically significant coastal plain were key; and in northwestern Shanxi governors dealt with border issues. *Qing Governors and Their Provinces* uses the records of governors' appointments and the laws and practices that shaped them to reconstruct the development of the office of provincial governor and to examine the histories of governors' appointments in each province. Interwoven throughout is colorful detail drawn from the governors' biographies.

Encountering China Rachana Sachdev, Qinjun Li, 2012-10-01 *Encountering China* addresses the responses of early modern travelers to China who, awed by the wealth and sophistication of the society they encountered, attempted primarily to build bridges to explore similarities and to emulate the Chinese, though they were also critical of some local traditions and practices. Contributors engage critically with travelogues, treating them not just as occasional sources of historical information but as primary literary texts, deeply revelatory of the world they describe. Contributors reach back to the earliest European writings available on China in an effort to broaden and nuance our understanding of European contact with the

Middle Kingdom in the early modern period While the primary focus of these essays is the external gaze European sources about China contributors also tease out aspects of the Chinese world view of the time thus generating a conversation between Chinese literary and historical texts and European ones

South China in the Sixteenth Century Charles Ralph Boxer,1967 *Tanegashima - The Arrival of Europe in Japan* Olof G. Lidin,2003-12-16 The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan Other Portuguese soon followed and Japan became aware of a world beyond India After the merchants came the first missionary Francis Xavier in 1549 beginning the Christian century in Japan This is not a new story but it is the first time that Japanese Portuguese and other European accounts have been brought together and presented in English Their arrival was recorded by the Japanese in Tanegashima kazu the Teppoki and the Kunitomo teppoki here translated and presented together with European reports Includes maps and Portuguese and Japanese illustrations [The Making of a New Rural Order in South China](#) Joseph P. McDermott,2020-07-02 In examining the key merchant group in late imperial China this book provides a framework for understanding China's path to modernity *China and Macau* Clive Willis,2017-09-08 In 1513 the Portuguese became the first Europeans to establish a maritime route to China Their motives were a combination of a quest for trade and territory and a desire to promote Christianity in the region This anthology of translated extracts of first hand accounts by contemporary travellers merchants missionaries and officials includes writings by Joa de Barros one of the most prominent chroniclers of the Portuguese overseas endeavours The importance of the Macau peninsula as a point of exchange in trade between China and Japan is charted in extracts from amongst others the journals of the Italian Jesuit Father Matteo Ricci As this collection of writings shows the formation of the Dutch East India Company in 1602 heralded the gradual erosion of Portuguese influence in China Their imprint on Macau was more long lasting with their disengagement from the peninsula finally taking place in 1999

The Making of a New Rural Order in South China: Volume 2, Merchants, Markets, and Lineages, 1500-1700 Joseph P. McDermott,2020-07-02 This volume is written for anyone who has wondered about the growth of Chinese businesses and their relation to Chinese family and government institutions Making full use of its partner volume's findings on village institutions in the southern prefecture of Huizhou this volume explains how late imperial China's key regional group of merchants emerged from this prefecture's village lineages It identifies the strategies they deployed to overcome the serious obstacles to their domination of major financial transactions and commodity markets throughout much of China from 1500 to 1700 At the same time it describes how the commercial success enjoyed by these house firms undermined their lineages social stability making them vulnerable to competition from popular religious cults back home In recounting how rural and urban institutions interacted through state and economic development McDermott provides a powerful new framework for understanding late imperial China's distinctive trajectory to social and economic transformation
