South Slav Nationalisms Textbooks And Yugoslav Union Before 1914:

South Slav Nationalisms - Textbooks and Yugoslav Union Before 1914 Charles Jelavich, South Slav Nationalisms--textbooks and Yugoslav Union Before 1914 Charles Jelavich,1990 Nationalism and Yugoslavia Pieter Troch,2015-08-18 Created after World War I Yugoslavia was a combination of ethnically religiously and linguistically diverse but connected South Slav peoples Slovenes Croats and Serbs but also Bosnian Muslims Macedonians and Montenegrins in addition to non Slav minorities The Great Powers and the country s intellectual and political elites believed that a coherent identity could be formed in which the different South Slav groups in the state could identify with a single Balkan Yugoslav identity Pieter Troch draws on previously unpublished sources from the domain of education to show how the state s nationalities policy initially allowed for a flexible and inclusive Yugoslav nationhood and how that system was slowly replaced with a more domineering and rigid top down nationalism during the dictatorship of King Alexander I who banned political parties and coded a strongly politicised Yugoslav national identity As Yugoslav society became increasingly split between the pro Yugoslav central regime and anti Yugoslav opposition the seeds were sown for the failure of the Yugoslav idea Nationalism and Yugoslavia provides a valuable new insight into the complexities of pre war Yugoslavia **The formation of Croatian national identity** Alex Bellamy,2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society *Yugoslavia as History* John R. Lampe,2000-03-28 An authoritative history of Yugoslavia published in 2000 with a new chapter on the ethnic wars in Croatia and Bosnia and Kosovo *Nationalism, Myth, and the State in Russia and Serbia* Veljko Vujčić,2015-03-26 This book examines the role of Russian and Serbian nationalism in dissolution of the Soviet Union and Yugoslavia in 1991 *Between Nation and State* Nicholas J. Miller,2010-11-23 Nicholas Miller chronicles the politics in Croatia 1903 1914 prior to the first World War He examines the failures of the Croat Serbian Coalition that led to their future inability to create a cohesive civic democratic union during the war years The Serb Croat differences political ethnic and regional prevail to this day **Geography and Nationalist Visions of Interwar**

Yugoslavia Vedran Duančić, 2020-08-21 This book is the first historical work to examine the notion of national territories in Yugoslavia a concept fundamental for the understanding of Yugoslav history Exploring the intertwined histories of geography as an emerging discipline in the South Slavic lands and geographical works describing interwar Yugoslavia the book focuses on the engagement of geographers in the on going political conflict over the national question Duan i shows that geographers were uniquely equipped to address the creation of the new country and the numerous problems it faced as they provided accounts of Yugoslavia s past present and even future all of which were understood as inherently embedded in geography By analyzing a large body of geographical narratives on the Yugoslav state the book follows both the attempts to naturalize and present Yugoslavia as a sustainable political and cultural unit as well as the attempts to challenge its existence by pointing to unresolvable geographically conditioned tensions within it The book approaches geographical discourse in Yugoslavia as part of a wider European scientific network pointing to similarities and specifically Yugoslav characteristics

Political and Social Influences on the Education of Children Gwyneth Owen-Jackson, 2015-11-06 This book investigates the effects of social and political change on the provision of primary education in post communist and post war contexts Focusing on Bosnia and Herzegovina the author considers educational developments in post communist countries of central and Eastern Europe the effects of the civil conflict that occurred 1992 95 and the consequences of the peace settlement In order to present a picture of the development of primary education in Bosnia and Herzegovina and the importance of political ideology on education provision chapters discuss instances of the impact of external political influences educational provision being drawn from neighbouring countries and illustrate how the political war is continuing Political and Social Influences on the Education of Children provides insights into lessons learned for education in countries with a changing political state and considers what the future might hold for primary education provision in Bosnia and Herzegovina Political and Social Influences on the Education of Children is key reading for researchers scholars and postgraduate students interested in educational developments in post communist countries and education in areas of conflict This book will also appeal to those interested in the political and social history of the region

Reckoning with the Past Margaret Eastman Smith, 2005-01-01 This book explores how history teaching can support conflict reduction in deeply divided societies Using Northern Ireland as its case study the work contributes to how people think about the identity based conflict that surrounds them and involves them It also acts as a manual for those who wish to undertake projects to change attitudes about history in post conflict societies

The Ottomans and the Balkans Fikret Adanir, Suraiya Farooqi, 2002-04-01 This discussion of historiography concerning the Ottoman Empire should be viewed in the context of our discipline's self-examination which certainly has been encouraged by recent conflicts in southeastern Europe and the Middle East. Our contributors analyse the fashion in which the historiographies established in various national states have viewed the Ottoman Empire and its legacy. At the same time they discuss the links of twentieth-century historiography with the rich historical tradition of the Ottoman Empire itself both in its metropolitan and its provincial forms. The struggle against anachronisms born from the nationalist paradigm in history doubtless constitutes the most important common feature of these otherwise very diverse studies. **Power And**

Persuasion Carol S. Lilly, 2018-02-13 When the Communist Party of Yugoslavia (CPY) took power after the Second World War it had a vision for a new and better society in which all humans would live together in peace and prosperity and in which their mutual exploitation would be eliminated. That vision required changes not only in the country's political and economic structure but in its citizens' values, morals, goals, aesthetics, and social behavior. Based on extensive archival research, Lilly's study describes the CPY's struggle to realize that social and cultural transformation by means of oral, written, and visual persuasion in the first nine years after the war. Lilly's descriptions of party policies in such media as newspapers, journals, educational curricula, group activities like parades, workplace competitions, and volunteer labor brigades, and the production of both high and popular culture depict the evolving form and content of the party's persuasive rhetoric. Her archival work moreover reveals both societal reaction to such rhetoric and the extent to which party leaders adapted their persuasive policies in response to feedback from below. In this respect, Lilly places her work at the intersection of cultural history, cultural studies, and politics by discussing how individuals and different groups perceive, digest, and remake culture from above in their own image. Ultimately, then, this study not only modifies current understandings of Yugoslavia's postwar history but informs us about the nature of state-society relations in dictatorial regimes and the complexities of cultural change. Moving beyond an interpretation of Yugoslavia's political and cultural history in the 1940s, it addresses broader questions like: How do dictatorial regimes maintain power and support? How do subject populations express their views and exert influence even under oppressive conditions? When and how does persuasive rhetoric work, and what are its limits? **The Origins of the**

First World War James Joll, Gordon Martel, 2013-11-05 James Joll's study is not simply another narrative retracing the powder trail that was finally ignited at Sarajevo. It is an ambitious and wide-ranging analysis of the historical forces at work in the Europe of 1914 and the very different ways in which historians have subsequently attempted to understand them. The importance of the theme, the breadth and sympathy of James Joll's scholarship, and the clarity of his exposition have all contributed to the spectacular success of the book since its first appearance in 1984. Revised by Gordon Martel, this new 3rd edition accommodates recent research and an expanded further reading section. **Russia's Balkan Entanglements,**

Mark Biondich,2011-02-17 The Balkans has long been a place of encounter among different peoples religions and civilizations resulting in a rich cultural tapestry and mosaic of nationalities But it has also been burdened by a traumatic post colonial experience The transition from traditional multinational empires to modern nation states has been accompanied by large scale political violence that has resulted in the deaths of hundreds of thousands and the permanent displacement of millions more Mark Biondich examines the origins of these conflicts while treating the region as an integral part of modern European history shaped by much the same forces and intellectual impulses It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans As Biondich shows the political violence that has bedevilled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity Throughout this period the Balkan proponents of democratic governance civil society and multiculturalism were progressively marginalized The history of revolution war political violence and ethnic cleansing in the modern Balkans is above all the story of this tragic marginalization *Honorary Aryans* N. Bartulin,2013-07-04 From 1941 to 1945 a small number of Jews were given the

rights of Aryan citizens in Croatia by the pro Nazi Ustasha regime This study seeks to explain why these exemptions from Ustasha racial laws came to be how they were justified by the race theory of the time and how the Croats of the Mosaic faith were eventually rejected as racial aliens **Religion and Justice in the War Over Bosnia** G. Scott Davis,2014-02-04 This volume brings together a distinguished group of thinkers working in ethics religion and history to explore moral and religious issues that underlie the violence in Bosnia This volume brings together a distinguished group of thinkers to explore the moral and religious issues that underlie the violence and atrocities in Bosnia From diverse academic and philosophical perspectives the works of Jean Bethke Elshtain James Turner Johnson Michael Sells John Kelsay and G Scott Davis will inform not just scholars of ethics politics and religion but everyone concerned with the prospects for justice in the post Cold War world
