of painting writing architecture and photography on the construction of a shared romanticized landscape subjectivity that was perceived as inseparable from being South African and thus helped forge the imagined community of white South Africa In its innovative approach to South Africa s history *Washed with Sun* breaks important new ground combining the persuasive theory of cultural geography with the material specificity of landscape history *A General Catalogue of Books in the South African Public Library, Cape Town, Cape of Good Hope* South African Public Library,1881 **Global Neoproterozoic Petroleum Systems** Jonathan Craig,2009 Worldwide Neoproterozoic successions are major hydrocarbon producers In North Africa large basins with significant surface outcrops and thick sedimentary fills are widespread These basins are now emerging as potential sources of hydrocarbons and are attracting interest both from geological researchers and the oil and gas industry This volume focuses on recent developments in the understanding and correlation of North African basin fills and explores novel approaches to prospecting for source and reservoir rocks The papers cover aspects of petroleum prospectivity and age equivalent global petroleum systems Neoproterozoic tectonics and paleogeography sequence stratigraphy glacial events and global climatic models faunal and floral evolution and the deposition of early source rocks The broader aim is to compare with and learn from well studied Neoproterozoic successions globally including major environmental change the emergence of life the global carbon cycle and implications for hydrocarbon exploration British Books in Print ,1924 *The Education Gazette of the Province of the Cape of Good Hope* Cape of Good Hope (South Africa).
