**The Borderlands of Southeast Asia** James Clad, Sean M. McDonald, Bruce Vaughn, 2011 As an academic field in its own right the topic of border studies is experiencing a revival in university geography courses as well as in wider political commentary Until recently border studies in contemporary Southeast Asia appeared as an afterthought at best to the politics of interstate rivalry and national consolidation The maps set out all agreed postcolonial lines Meanwhile the physical demarcation of these boundaries lagged Large slices of territory on land and at sea eluded definition or delineation That comforting ambiguity has disappeared Both evolving technologies and price levels enable rapid resource extraction in places and in volumes once scarcely imaginable The beginning of the 21st century's second decade is witnessing an intensifying diplomacy both state to state and commercial over offshore petroleum In particular the South China Sea has moved from being a rather arcane area of conflict studies to the status of a bellwether issue Along with other contested areas in the western Pacific and south Asia the problem increasingly defines China's regional relationships in Asia and with powers outside the region especially the United States Yet intraregional territorial differences also hobble multilateral diplomacy to counter Chinese claims and daily management of borders remains burdened by a lot of retrospective baggage The contributors to this book emphasize this mix of heritage and history as the primary leitmotif for contemporary border rivalries and dynamics Whether the region's 11 states want it or not their bordered identity is falling into ever sharper definition if only because of pressure from extraregional states This book aims to provide new ways of looking at the reality and illusion of bordered Southeast Asia

**Head and a Serpent's Tail** Kenneth M. Swope, 2013-04-29 The invasion of Korea by Japanese troops in May of 1592 was no ordinary military expedition it was one of the decisive events in Asian history and the most tragic for the Korean peninsula until the mid twentieth century Japanese overlord Toyotomi Hideyoshi envisioned conquering Korea Ming China and eventually all of Asia but Korea s appeal to China s Emperor Wanli for assistance triggered a six year war involving hundreds of thousands of soldiers and encompassing the whole region For Japan the war was a dragon s head followed by a serpent s tail an impressive beginning with no real ending Kenneth M Swope has undertaken the first full length scholarly study in English of this important conflict Drawing on Korean Japanese and especially Chinese sources he corrects the Japan centered perspective of previous accounts and depicts Wanli not as the self indulgent ruler of received interpretations but rather one actively engaged in military affairs and concerned especially with rescuing China s client state of Korea He puts the Ming in a more vigorous light detailing Chinese siege warfare the development and deployment of innovative military technologies and the naval battles that marked the climax of the war He also explains the war s repercussions outside the military sphere particularly the dynamics of intraregional diplomacy within the shadow of the Chinese tributary system What Swope calls the First Great East Asian War marked both the emergence of Japan s desire to extend its sphere of influence to the Chinese mainland and a military revival of China s commitment to defending its interests in Northeast Asia Swope s account offers new insight not only into the history of warfare in Asia but also into a conflict that reverberates in international relations to this day **Art, Trade, and Cultural Mediation in Asia, 1600-1950** Raquel A. paintings of how diverse artistic influences came to be expressed in colonial church architecture in the Philippines of revolutionary changes wrought on quotidian tastes and preferences as shown in the interior decoration of private homes in the Dutch East Indies and of transformations in the smoking and drinking habits of Southeast Asians The chapters consider the conditions from which emerged new forms of artistic production and transfer fresh cultural interpretations and expanded markets for goods objects and images

*Asian Expansions* Geoff Wade, 2014-10-17 Asia as we know it today is the product of a wide range of polity expansions over time Recognising the territorial expansions of Asian polities large and small through the last several millennia helps rectify the fallacy long held and deeply entrenched that Asian polities have been interested only in the control of populations not in expanding their command of territory In countering this misapprehension this book suggests that Asian polities have indeed been concerned with territorial control and expansion over time whether for political or strategic advantage trade purposes defence needs agricultural expansion or increased income through taxation The book explores the historical experiences of a set of polity expansions within Asia specifically in East and Southeast Asia and by examining the motivations mechanisms processes validations and limitations of these Asian territorial expansions reveals the diverse avenues by which Asian polities have grown The chapters draw on these historical examples to highlight the connections between Asian polity expansion and centralised political structures and this aids in a broader and more comprehensive understanding of Asian political practice both past and present Through these chapter studies and the integrative introduction the book interrogates key concepts such as imperialism and colonialism and the applicability and relevance of such terminology in Asian contexts both historical and contemporary Comparisons and contrasts with European historical expansions are also suggested This book will be welcomed by students and scholars of Asian history as well as by those with an interest in Asian interactions international relations polity expansion Asia Europe historical comparisons and globalisation Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**History** Ts'ui-jung Liu, James Lee, David Sven Reher, Osamu Saito, Wang Feng, 2001-05-10 The study of Asian historical demography has lagged behind that of its European and American counterparts for some time This volume serves to narrow the gap by drawing together material from scholars specializing in demography across the spectrum of Asian countries The collection divides into four parts and contains nineteen chapters covering issues on comparative perspective fertility disease and mortality and marriage and family The geographic coverage of the chapters is also wide extending from East Asia to South Asia with specific emphasis on Japan China Taiwan Indonesia India and Sri Lanka Authors focus on a whole range of social groups discussing how demographic issues affect and have affected both urban and rural dwellers from the seventeenth to the twentieth century This volume which is perhaps the first to bring together a number of in depth specialist studies on Asian population history should prove a useful and engaging tool for both students and academics in the fields of
