Photography and History in

Colonial Southern Africa Lorena Rizzo, 2019-09-16 This book studies the relationship between photography and history in colonial Southern Africa using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form Through use of private and public archives images produced by African itinerant photographers white settlers and colonial state institutions this book explores the relationship between photography and history in colonial Southern Africa Late nineteenth century Cape Colonial prison albums police photographs from German Southwest Africa African studio portraits identity documents travel permits and passports from the 1920s and 1930s visual studies of whiteness and blackness authored by settler photographers South African dompas photographs from the 1950s and 1960s and aerial photography from the Eastern Cape in the mid twentieth century are examined to highlight the ways in which photographic images cut across conventional institutional boundaries and complicate rigid distinctions between the private and the public the political and the aesthetic the colonial and the vernacular or the subject and the object Photography and History in Colonial Southern Africa argues that rather than understanding photographs as a means of preserving and recreating the past in the present we can value them for how they evoke at once the need for and the limits of historical reconstruction This book will be of interest to students and scholars of colonial history photographic history visual media and African studies *The Ends of European Colonial Empires* Miguel Bandeira Jerónimo, António Costa Pinto, 2016-02-16 This volume provides a multidimensional assessment of the diverse ends of the European colonial empires addressing different geographies taking into account diverse chronologies of decolonization and evaluating the specificities of each imperial configuration under appreciation Portuguese Belgian French British Dutch **Denmark and National Liberation in**

Southern Africa Christopher Munthe Morgenstierne, 2003 The book describes and documents the development of Danish support to national liberation in Southern Africa including Namibia and the two sided humanitarian and political character of this support It is based on previously restricted Danish ministry records and on NGO archives and interviews Key questions are how Danish support was established as a purely humanitarian facility that later developed into supporting the liberation movements and how boycott was first considered to be an issue for the individual but eventually became national policy The study seeks to describe why support and sanctions developed in the way and at the pace they did **The Contested Idea of**

South Africa Sabelo J. Ndlovu-Gatsheni, Busani Ngcaweni, 2021-11-29 This book reflects on the complex and contested idea of South Africa drawing on a wide range of disciplinary perspectives Ever since the delineation of South Africa as a country the many diverse groups of people contained within its borders have struggled to translate a mere geographical description into the identity of a people Today the new struggles for South Africa and to become South African are inextricably intertwined with complex challenges of transformation xenophobia claims of reverse racism social justice economic justice service delivery and the resurgent decolonization struggles reverberating inside the universities This book covers the genealogy of the idea of South Africa exploring how the country has been conceived of by a broad group of actors including the British Afrikaners diverse African nationalist traditions and new formations such as the Economic Freedom Fighters EFF Black First Land First BLF and student formations Rhodes Must Fall Fees Must Fall Over the course of the book a broad range of themes are covered including identity formation modernity race ethnicity indigeneity autochthony land gender intellectual traditions poetics of South Africanness language popular culture truth and reconciliation and national development planning Concluding with important reflections on how a colonial imaginary can be changed into a free and inclusive postcolonial nation state this book will be an important read for Africanist researchers from across the humanities and social sciences The Struggle for Social Change in Southern Africa

Dickson A. Mungazi, 1989 This book shows the applicability of Thomas Kuhn's theory of the structure of scientific revolutions to the struggle for social change in southern Africa The components of this theory which seem applicable to the conflict and the struggle for fundamental social change in this troubled region of Africa are definition of paradigms their functions the elements of paradigm shifts and their effect the relationship between paradigm shift in natural and social science and the concept of anomaly This study utilizes the components of this theory to discuss why the problems of southern Africa seem to defy this solution **Decolonising**

Journalism Education in South Africa Ylva Rodny-Gumede, Colin Chasi, Zubeida Jaffer, Mvuso Ponono, 2023-05-19 This book is the culmination of several years of collaborative work It is a unique contribution to the field of journalism because of the depth and variety of contributions it makes to the field The scholars who contribute to this volume respond to the great need to rethink journalism from various perspectives including journalism training research the contents of the news media language media ethics the safety of journalists and gender inequities in the news media In doing this they recognise how the

societies that journalism address should themselves change Race, Resistance, and the Boy Scout Movement in British Colonial Africa Timothy H. Parsons, 2004-11-01 Conceived by General Sir Robert Baden Powell as a way to reduce class tensions in Edwardian Britain scouting evolved into an international youth movement It offered a vision of romantic outdoor life as a cure for disruption caused by industrialization and urbanization Scouting's global spread was due to its success in attaching itself to institutions of authority As a result scouting has become embroiled in controversies in the civil rights struggle in the American South in nationalist resistance movements in India and in the contemporary American debate over gay rights In *Race Resistance and the Boy Scout Movement in British Colonial Africa* Timothy Parsons uses scouting as an analytical tool to explore the tensions in colonial society Introduced by British officials to strengthen their rule the movement targeted the students juvenile delinquents and urban migrants who threatened the social stability of the regime Yet Africans themselves used scouting to claim the rights of full imperial citizenship They invoked the Fourth Scout Law which declared that a scout was a brother to every other scout to challenge racial discrimination Parsons shows that African scouting was both an instrument of colonial authority and a subversive challenge to the legitimacy of the British Empire His study of African scouting demonstrates the implications and far reaching consequences of colonial authority in all its guises

International Law in Post-Colonial Africa Tiyanjana Maluwa, 2023-12-28 African States have contributed to the development of modern international law in various ways This contribution can be assessed through an examination of the actual practice of these States in their interactions with each other and with other States in the wider international community on various matters which have a bearing on the creation of legal rules for the international community Taken together the case studies presented in this book demonstrate that despite its apparent marginalization in the international system Africa can stake a valid claim to being part of the on going process of shaping new rules and principles of international law while strengthening existing ones Some of the more important examples are the broadening of the refugee definition and the principle of non refoulement in the area of refugee law the rights of access and transit to the sea and the concept of the exclusive economic zone in the law of the sea the principle of *uti possidetis* the concept of peoples rights as distinguished from that of human rights the very expansion of the traditional categorization of human rights to embrace the so called third generation rights such as the right to development the Nyerere doctrine of State succession and in general certain principles in the area of international fluvial law concerning the common management and utilization of shared watercourses The discussions in this book are informed by the belief that post colonial African States have tended to view the creation and application of international law as a historically engaged activity through which they can now empower themselves as part of the modern international community *Explaining Foreign Policy in Post-Colonial Africa* Stephen M. Magu, 2021-01-02 This book explores foreign policy developments in post colonial Africa A continental foreign policy is a tenuous proposition yet new African states emerged out of armed resistance and advocacy from regional allies such as the

Bandung Conference and the League of Arab States Ghana was the first Sub Saharan African country to gain independence in 1957 Fourteen more countries gained independence in 1960 alone and by May 1963 when the Organisation of African Unity OAU was formed 30 countries were independent An early OAU committee was the African Liberation Committee ALC tasked to work in the Frontline States FLS to support independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa s challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa s use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the formation of the African Economic Community OAU s evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation uti possidetis maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively

Colonial Conflicts Linda Hill,AI,2025-03-29 Colonial Conflicts explores the history of conflicts arising from colonialism examining how these struggles shaped global boundaries and the identities of nations The book delves into the diverse forms of resistance employed by colonized populations from armed rebellions to cultural preservation and analyzes the long lasting impact of these conflicts on post colonial societies Colonial conflicts were integral to the formation of modern nation states and the evolution of global power structures influencing everything from political instability to economic inequality The book begins by outlining the major waves of colonialism and the motivations of colonizing powers It then examines specific conflicts such as the Algerian War of Independence analyzing their causes consequences and impact on local populations By exploring these historical events Colonial Conflicts provides vital context for understanding contemporary geopolitical dynamics and the persistent legacies of colonialism including issues of national identity and global power structures Synthesizing findings from various case studies the book draws broader conclusions about the nature of colonial conflicts and their enduring legacies Using primary and secondary sources including archival documents and personal accounts it connects historical analysis to contemporary debates about globalization and international relations This approach offers a comprehensive understanding of how colonial conflicts continue to shape our world

Colonial Aspects of Finnish-Namibian Relations, 1870-1990

Leila Koivunen,Raita Merivirta,2024-06-27 This edited collection re examines the long history of Finnish Namibian relations through the lens of colonialism without colonies as well as anti colonialism The book argues that although Finland never acquired colonies Namibia was once treated in the areas of culture and knowledge formation in a manner now recognised as colonial Namibian people s ways of being in the world was transformed when the Finnish Missionary Society started its work in Owambo in 1870 and introduced Christianity and European modes of education medicine material culture and social practices In time cultural colonialism faded and during the Namibian struggle for independence from South African rule in 1966 1990 Finns took an actively anti colonial approach The book was written as a collaborative effort of Namibian Finnish and South African scholars

Rethinking White Societies in Southern Africa Duncan Money,Danelle van Zyl-Hermann,2020-02-12 This book showcases new research by emerging and established scholars on white workers and the

white poor in Southern Africa Rethinking White Societies in Southern Africa challenges the geographical and chronological limitations of existing scholarship by presenting case studies from Angola Mozambique South Africa Zambia and Zimbabwe that track the fortunes of nonhegemonic whites during the era of white minority rule Arguing against prevalent understandings of white society as uniformly wealthy or culturally homogeneous during this period it demonstrates that social class remained a salient element throughout the twentieth century how Southern Africa s white societies were often divided and riven with tension and how the resulting social political and economic complexities animated white minority regimes in the region Addressing themes such as the class based disruption of racial norms and practices state surveillance and interventions and their failures towards nonhegemonic whites and the opportunities and limitations of physical and social mobility the book mounts a forceful argument for the regional consideration of white societies in this historical context Centrally it extends the path breaking insights emanating from scholarship on racialized class identities from North America to the African context to argue that race and class cannot be considered independently in Southern Africa This book will be of interest to scholars and students of southern African studies African history and the history of race

Colonial Architecture and Urbanism in Africa Fassil Demissie, 2012 Colonial architecture and urbanism carved its way through space ordering and classifying the built environment while projecting the authority of European powers across Africa in the name of science and progress The built urban fabric left by colonial powers attests to its lingering impacts in shaping the present and the future trajectory of postcolonial cities in Africa Colonial Architecture and Urbanism explores the intersection between architecture and urbanism as discursive cultural projects in Africa Like other colonial institutions such as the courts police prisons and schools that were crucial in establishing and maintaining political domination colonial architecture and urbanism played a pivotal role in shaping the spatial and social structures of African cities during the 19th and 20th centuries Indeed it is the cultural destination of colonial architecture and urbanism and the connection between them and colonialism that the volume seeks to critically address The contributions drawn from different interdisciplinary fields map the historical processes of colonial architecture and urbanism and bring into sharp focus the dynamic conditions in which colonial states officials architects planners medical doctors and missionaries mutually constructed a hierarchical and exclusionary built environment that served the wider colonial project in Africa
