The American Dream and the Public Schools Jennifer L. Hochschild, Nathan Scovronick, 2004-10-21 The American Dream and the Public Schools examines issues that have excited and divided Americans for years including desegregation school funding testing vouchers bilingual education and ability grouping While these are all separate problems much of the contention over them comes down to the same thing an apparent conflict between policies designed to promote each student's ability to succeed and those designed to insure the good of all students or the nation as a whole The authors show how policies to promote individual success too often benefit only those already privileged by race or class and often conflict with policies that are intended to benefit everyone They propose a framework that builds on our nation's rapidly changing population in order to help Americans get past acrimonious debates about schooling Their goal is to make public education work better so that all children can succeed

Torres, 2000 Los Angeles scratch the surface of the city's image as a rich mosaic of multinational cultures and a grittier truth emerges its huge shimmering economy was built on the backs of largely Latino immigrants and still depends on them This book exposes the underside of the development and restructuring that have turned Los Angeles into a global city and in doing so it reveals the ways in which ideas about ethnicity Latino identity itself are implicated and elaborated in the process A penetrating analysis of the social economic cultural and political consequences of the growth of the Latino working class populations in Los Angeles Latino Metropolis is also a nuanced account of the complex links between political economy and the social construction of ethnicity Lifting examples from recent news stories political encounters and cultural events the authors demonstrate how narratives about Latinos are used to maintain the status quo particularly the existing power grid in the city In media representations of riots in the recasting and whitening of Mexican food as Spanish American cuisine in the community displacement that occurred as part of the development of the Staples Center in telling instances large and small we see how Los Angeles and its Latino population are mutually transforming And we see how an old Latino politics of racial identity is inevitably giving way to a new politics of class Combining political and economic insight with trenchant social and cultural analysis this work offers the clearest statement to date of how ethnicity and class intersect in defining racialized social relations in the contemporary metropolis Globalization and Community Series volume 7 Translation Inquiries University of Minnesota Press
