**Still Fighting the Civil War** David Goldfield, 2004-03-01 Newcomers to the South often remark that southerners at least white southerners are still fighting the Civil War a strange preoccupation considering that the war formally ended more than one hundred and thirty five years ago and fewer than a third of southerners today can claim an ancestor who actually fought in the conflict But even if the war is far removed both in time and genealogy it survives in the hearts of many of the region's residents and often in national newspaper headlines concerning battle flags racial justice and religious conflicts In this sweeping narrative of the South from the Civil War to the present noted historian David Goldfield contemplates the roots of southern memory and explains how this memory has shaped the modern South both for good and ill He candidly discusses how and why white southern men fashioned the myths of the Lost Cause and the Redemption out of the Civil War and Reconstruction and how they shaped a religion to canonize the heroes and reify the events of those fated years Goldfield also recounts how blacks and white women eventually crafted a different more inclusive version of southern history and how that new vision has competed with more traditional perspectives As Goldfield shows the battle for southern history and for the South continues in museums public spaces books state legislatures and the minds of southerners Given the region's growing economic power and political influence the outcome of this war is more than a historian's preoccupation it is of national importance Integrating history and memory religion race and gender *Still Fighting the Civil War* will help newcomers longtime residents and curious outsiders alike attain a better understanding of the South and each other

**Postregional Fictions** Clare Chadd,2021-07-07 Drawing from recent debates about the validity of regional studies and skepticism surrounding the efficacy of the concept of authenticity Clare Chadd s Postregional Fictions focuses on questions of southern regional authenticity in fiction published by Barry Hannah from 1972 to 2001 The first monograph on the Mississippi author s work to appear since his death this study considers the ways in which Hannah s novels and short stories challenge established conceptual understandings of the U S South Hannah s writing often features elements of metafiction through which the putative sense of southernness his stories dramatize is complicated by an intense self reflexivity about the extent to which a sense of place has never been foundational or essential but has always been constructed and performed Such texts locate a productive terrain between the local and the global with particular relevance for critical apprehensions of the post South and postsouthern literature Offering sustained close readings of selected stories and focusing especially on Hannah s late work Chadd argues that his fiction reveals the region constantly shifting in a process of mythmaking dialogue and performance In turn she uses Hannah s work to suggest how notions of the South and southernness might survive the various deconstructive approaches leveled against them in recent decades of southern studies scholarship Rather than seeing an impasse between the regional and the global Chadd s reading of Hannah shows the two existing and flourishing in tandem In Postregional Fictions Chadd offers a new interpretation of Hannah based on an appreciation of the vital intersection of southern and postmodern elements in his work
