Southern Imagining Elleke Boehmer offers an alternative perspective using literary scientific and cultural material to explore how we look at the world from the south Reading she argues is a transformative means of reversing our usual planetary orientation and rearranging our perceptual geography Boehmer examines writing from across southern continents and islands considering how we imaginatively inhabit the farthest reaches of our planet Creators ranging from the Portuguese epic poet Lu s de Cam es to Samuel Taylor Coleridge Charles Darwin Katherine Mansfield Jorge Luis Borges and ancient Indigenous storytellers capture the edgy and austere experiences of the far south For Boehmer imaginative work stimulates and shapes our phenomenological understanding Southerners often see themselves as far away from where things count as outsiders internalising the wider global sense of their relative insignificance Conversely when northerners read or hear legends narratives songs and poems from the south it is as if they are located in the south at least for the duration of the reading or listening Boehmer suggests that the south tilted world map re centred through song and story invites us to claim a more involved sense of belonging to our planet both its north and its south The writers of the south disrupt conventional ways of seeing and invite us to inhabit our globe differently

[With the "Index of Names and Subjects".] Public Free Libraries (Manchester),1864 John Muir's Last Journey John Muir,2013-04-10 I am now writing up some notes but when they will be ready for publication I do not know It will be a long time before anything is arranged in book form These words of John Muir written in June 1912 to a friend proved prophetic The journals and notes to which the great naturalist and environmental figure was referring have languished unpublished and virtually untouched for nearly a century Until now Here edited and published for the first time John Muir s travel journals from 1911 12 along with his associated correspondence finally allow us to read in his own words the remarkable story of John Muir s last great journey Leaving from Brooklyn New York in August 1911 John Muir at the age of seventy three and traveling alone embarked on an eight month 40 000 mile voyage to South America and Africa The 1911 12 journals and correspondence reproduced in this volume allow us to travel with him up the great Amazon into the jungles of southern Brazil to snowline in the Andes through southern and central Africa to the headwaters of the Nile and across six oceans and seas in order to reach the rare forests he had so long wished to study Although this epic journey has received almost no attention from the many commentators on Muir s work Muir himself considered it among the most important of his life and the fulfillment of a decades long dream John Muir s Last Journey provides a rare glimpse of a Muir whose interests as a naturalist traveler and conservationist extended well beyond the mountains of California It also helps us to see John Muir as a different kind of hero one whose endurance and intellectual curiosity carried him into far fields of adventure even as he aged and as a private person and family man with genuine affections ambitions and fears not just an iconic representative of American wilderness With an introduction that sets Muir s trip in the context of his life and work along with chapter introductions and a wealth of explanatory notes the book adds important dimensions to our appreciation of one of America s greatest environmentalists John Muir s Last Journey is a must reading for students and scholars of environmental history American literature natural history and related fields as well as for naturalists and armchair travelers everywhere *Journeys of a Lifetime, Second Edition* National
