Histoire de la guerre d'Indochine Yves Gras,1992 *Indochine, les mensonges de l'anticolonialisme* Paul Rignac,2007 An effective study of history is often hindered by one's ability to read foreign languages With this handicap it is often extremely difficult to get beyond the big picture globalized account of a specific series of events with its concentration on simple chronologies This is particularly the case when dealing with the often controversial topic of anticolonialism and its antithesis colonialism These significant topics are rarely studied with a scientific approach as there remain strong emotional reactions to the subject that can paralyze dispassionate judgment In the context of this subject the battles are more often ideological than properly historical Anticolonialism is usually portrayed in a positive generous perspective open and liberating whereas any defense of colonialism is often overwhelmed by the perceived irredeemable sins of the past In the special case of the history of French Indochina the anticolonialist accepted wisdom presents distorted picture of the colonial story in the Far East Against this position the author does not try not to defend the detail of colonization that has already been done in other works Rather he analyzes here for the first time some of the misleading perceptions of anticolonialist ideology even to extent of viewing the invention of the concept of colonialism as one that does not correspond to reality He points out the omissions the chronological inversions and selective exploitation of the events used by the anticolonialist supporters to advance their position He shows that the anticolonialist position often fails to pass the test of many of the actual facts of the history of the period A lawyer by profession Paul Rignachas served with humanitarian associations that work in the countries of French ex-indochina He has undertaken this controversial work to dismantle the mechanisms of anticolonialism and suggests that in this politically correct stance lie many of the contemporary problems of Vietnam Cambodia and Laos This book is his first work
