**Restructuring Relations** Rauna Johanna Kuokkanen, 2019 Self determination foundational value Indigenous self government structures in Canada Greenland and S pmi Implementing indigenous self determination self

administration rematriation or independence Gendering indigenous self government Self determination and violence against indigenous women Indigenous gender justice as restructuring relations      **Restructuring Relations** Rauna

Kuokkanen,2019-03-01 Self determination both individual and collective is among the most important and pressing issues for Indigenous women worldwide Yet Indigenous women s interests have been overlooked in the formulation of Indigenous self government and existing studies of Indigenous capacity building virtually ignore issues of gender Drawing on Indigenous and feminist political and legal theory as well as extensive participant interviews in Canada Greenland and Scandinavia this book argues that the current rights discourse and focus on Indigenous state relations is too limited in scope to convey the full meaning of self determination for Indigenous peoples The book conceptualizes self determination as a foundational value informed by the norm of integrity and suggests that Indigenous self determination cannot be achieved without restructuring all relations of domination nor can it be secured in the absence of gender justice      **Being Vulnerable** Arne De

Boever,2023-02-15 We are living in a time of acute vulnerability From climate change to drone warfare terrorist attacks to mass shootings safe spaces to trigger warnings not to mention the COVID 19 pandemic homo vulnerabilis is once again coming to terms with the fact that it can be wounded or even killed Against such finitude sovereignty is now reasserting itself as a political power that might save us from our ontological state The irony is of course that such sovereignty for example through camps walls police violence or drones is also the underlying historical cause of many of our most intense contemporary experiences of vulnerabilization Interrupting the dialectic by which sovereignty manages to be both the cause of our vulnerabilization and the phantasmatic tool of its prevention in Being Vulnerable Arne De Boever explores how today s experiences of vulnerabilization can be translated into a collective human power that dismantles the form of sovereignty that is producing this state of affairs Focused on theories paradigms and alternative formations of sovereignty Being Vulnerable reconsiders the tradition of thinking through a political concept in order to approach it anew
