**An Unfamiliar America** Ari Helo, Mikko Saikku, 2020-11-12 This collection focuses on conceptions of the unfamiliar from the viewpoint of mainstream American history aliens immigrants ethnic groups and previously unencountered ideas and ideologies in Trumpian America The book suggests bringing historical thinking back to the center of American Studies given that it has been recently challenged by the influential memory studies boom As much as identity building appears to be the central concern for much of the current practice in American history writing it is worth keeping in mind that historical truth may not always directly contribute to one's identity building The researcher's constant quest for truth does not equate to already possessing it History changes all the time because it consists of our constant reinterpretation of the past It is only the past that does not change This collection aims at keeping these two apart while scrutinizing a variety of contested topics in American history from xenophobic attitudes toward eighteenth century university professors Apache masculinity Ku Klux Klan Tom Waits's lyrics and the politics of the Trump era

Russian Society and the Orthodox Church Zoe Knox, 2004-06-02 *Russian Society and the Orthodox Church* examines the Russian Orthodox Church's social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society

magisterial dissertations were defended on the subjects of atheism and criticism of religion In 1974 there was a conference in Leningrad dedicated to The Topical Problems of the History of Religion and Atheism in the Light of Marxist Leninist Scholarship This persecution like other anti religious campaigns in the USSR s history was used as a tool to eliminate religion in order to create the ideal atheist society that Marxist Leninism had as a goal The persecution was disguised under false pretexts which the state used in order to promote or defend a better international image of itself After Khrushchev left office the anti religious campaign led underneath him was criticized The same anti religious periodicals that had participated in the campaign criticized the articles of past contributors The anti religious propaganda in those years was criticized for failing to understand that causes of religious of belief as well as similarly failing to understand that

**Power and the Sacred in Revolutionary Russia** Glennys Young,2010-11 After the 1917 Revolution in Russia the Bolsheviks launched a massive assault on religion Although we know a great deal about how the Bolsheviks went about doing this propaganda persecution of clergy and laity seizing church property scholars have not devoted much attention to the other side of the story the people who were being persecuted and how they responded to their persecutors Glennys Young shows how ordinary Russian peasants devised ways of asserting their religious faith during the difficult period of New Economic Policy 1921-28 when the Party state was ideologically obsessed with eradicating religion Faced with persecution torture and the creation of antireligious organizations such as the League of the Godless Orthodox clergy and laity organized themselves against the Bolsheviks They revived factional politics even using the village soviets the intended cornerstone of Soviet power in the countryside to defend their religious interests When they achieved some degree of success in their resistance the Bolsheviks were forced to respond and adapt their strategies a conclusion that scholars have not put forward previously Based on extensive research in archives and published sources Young s book will force historians of Soviet Russia to confront religious issues as central to rural politics Her work also draws upon cultural anthropology and theories of peasant politics making it of great interest to any scholars studying the processes of secularization and desacralization in other cultures

**Art as Propaganda** Mark Chambers,AI,2025-02-22 Art as Propaganda explores the potent role of artistic expression in shaping political landscapes throughout history It examines how art has been deliberately employed for political messaging ideological control and influencing public opinion The book uncovers how styles symbols and narratives are strategically used to convey specific messages and reinforce particular worldviews One intriguing insight is that art bypasses rational thought appealing directly to emotions and cultural values Another is understanding the use of censorship and suppression of dissenting voices in conjunction with art The book argues that art is not merely a reflection of society but an active agent in shaping it Examining historical contexts from ancient empires to modern democracies it analyzes case studies and frameworks to demonstrate how art legitimizes power demonizes enemies and propagates ideologies This comprehensive investigation progresses from defining propaganda and the historical relationship between art and politics to exploring specific examples across various

historical and cultural contexts The book culminates with an analysis of the ethical implications of art as propaganda and its continuing relevance in the digital age
