**Soviet Military Doctrine** Harriet Fast Scott, William F. Scott, 2019-06-21 The purpose of this book is to document from basic Soviet sources the development of Soviet military doctrine and its impact upon the Soviet Armed Forces Soviet military doctrine is defined as the military policy of the Communist Party In one way or another this policy affects the lives of all of us as a possible threat to free institutions and political processes as well as to our economic life and well being Generally we approach Soviet military policy in terms of military balances and weapons comparisons in the number of men under arms the speed of aircraft of the Soviet bloc versus that of NATO aircraft the number of ballistic missiles and their throw weights Studying such balances is of critical importance in defining to some degree existing forces But it is only through a deep and thorough study of the military policy of the Communist Party which translates directly into military doctrine that we can obtain the background that might aid in negotiating with the Soviets on arms control matters or in making decisions that will enable those nations outside of the Soviet bloc to deter future Kremlin military moves Soviet Naval Forces And Nuclear Warfare James J Tritten, 2019-06-26 Based on formal content analysis of the writings of Admiral Sergei G Gorshkov and past Soviet ministers of defense and heads of the Politburo James J Tritten interprets what the Soviets say they will do in the event of nuclear war He then constructs a hardware and exercise analysis of the strategic employment of the Soviet Navy in a nuclear war offering three possible cases the a bolt from the blue with existing forces on patrol full mobilization and a plausible case of partial mobilization In addition Dr Tritten examines from a Soviet perspective concepts of deterrence the strategic goals and missions of the fleet nuclear targeting policy the Sea Lines of Communication SLOC disruption mission and the potential for tactical nuclear warfare limited to the sea The author concludes by assessing the implications of Soviet politico military planning for Western defense strategy and arms control Soviet Armed Forces Review Annual ,1984

Monthly Catalog of United States Government Publications United States. Superintendent of Documents, 1985

Monthly Catalogue, United States Public Documents ,1985-07 **Signal** ,1986 **The Soviet Challenge in the 1990s**

Stephen J. Cimbala, 1989-12-08 The proverbial Soviet enigma has never seemed more elusive to Western analysts than now General Secretary Gorbachev's demonstrated willingness to reallocate resources the upheavals in the internal Soviet system wrought by perestroika and glasnost and a new strategic reliance on defensive sufficiency may all have profound implications for U S Soviet relations in the future In this volume distinguished academics researchers and government and military strategists look ahead to the 1990s and examine probable trends in the superpower relationship over the course of the next decade An excellent source of readings for courses in international relations national security and foreign policy the book focuses particularly on the strategic and military aspects of the relationship The book is divided into four parts and begins by addressing concepts of strategy The contributors outline U S strategic practice and Soviet global objectives in the context of nuclear deterrence and major conventional wars In Part II three chapters discuss the U S response to the Soviet threat in

terms of U S strategy for war in Europe strategic defense policies and technology and policy choices Low intensity conflicts both unconventional conflicts and Third World involvements are the subject of Part III Finally the contributors assess Soviet military power and U S defense resources examining the question of which nation is currently better prepared to outlast the other in a protracted conflict A concluding chapter ties the readings together by examining whether the Soviet challenge of the 1990s can best be characterized as peacefully offensive or as operational entrapment **The Soviet and Other**
